FACULTY

Linda I. Rosa-Lugo, EdD, CCC-SLP, is an associate professor in the Department of Communication Sciences and Disorders at the University of Central Florida. She has worked in a variety of settings, providing direct services to Spanish- and English-speaking infants, school-age children, deaf and hard-of-hearing students, and geriatric patients with communication disorders, as well as supervising student clinicians. She is the principal investigator (PI) of a USDOE/OSEP collaborative grant with USF and has been the PI and the coordinator of two additional USDOE, OSEP personnel preparation grants that prepared SLPs to provide services to English learners with communication disorders. The latter entails developing listening and spoken language in children with hearing loss who come from linguistically diverse homes. Her research interests include language and literacy development in Hispanic youngsters who are deaf/hard of hearing, and first and second language acquisition in English learners. Rosa-Lugo has authored articles and chapters in publications and is completing her second book. Her contributions to the profession has earned her many awards, most notably the ASHA Fellow Award and the ASHA Certificate in Multicultural Contributions.
