PRESENTER BIO

Catriona Steele, PhD, CCC-SLP, BCS-S, is a clinician scientist working in the area of swallowing and swallowing disorders. She has a background as a medical SLP and directs the Swallowing Rehabilitation Research Laboratory at the Toronto Rehabilitation Institute – University Health Network. Steele is a professor in the Department of Speech-Language Pathology at the University of Toronto. She is a Board Certified Specialist in Swallowing and Swallowing Disorders and has previously served as coordinator of ASHA’s SIG 13. Since 2013, Steele has been a charter member of the Board of Directors for International Dysphagia Diet Standardisation Initiative (IDDSI). She is passionate about empowering clinicians, food service professionals, caregivers, and patients around the world to adopt common language and use practical testing methods to ensure the delivery of safe and appropriate texture modified foods and drinks to people with dysphagia.
