Beyond Workbooks: Functional Cognitive Rehabilitation for Traumatic Brain Injuries

INTRODUCTION

This course presents a practical framework for cognitive rehabilitation for patients suffering from a traumatic brain injury (TBI). Clinicians can use the framework to identify functional treatments that are evidence-based, matched to individualized patient needs, and feasible given the time and resource constraints of the current health care environment. The course explores specific cognitive rehabilitation interventions that patients with a brain injury may find particularly valuable and motivating. The presenters use case studies to discuss how to write functional goals and identify optimum outcome measures.

LEARNING OUTCOMES

You will be able to:

• explain the rationale and foundational principles of functional cognitive rehabilitation
• describe six evidence-based approaches for functional cognitive rehabilitation
• discuss the principles and techniques for person-centered goal-setting and outcomes measurement

CONTENTS

Video
Introduction ........................................................................................................................................ 3 min.
Chapter 1: Definition and Evolution of Cognitive Rehabilitation ................................................. 35 min.
Chapter 2: Set the Stage for Functional Change ............................................................................. 25 min.
Chapter 3: Six Approaches to Cognitive Rehabilitation ................................................................. 42 min.
Chapter 4: Making Functional Changes .......................................................................................... 22 min.
Chapter 5: Training Cognitive Strategies ....................................................................................... 27 min.
Chapter 6: Assistive Technology for Cognition .............................................................................. 49 min.
Chapter 7: Dynamic Coaching .......................................................................................................... 48 min.
