Leadership Academy: Emotional Intelligence

INTRODUCTION

Emotional intelligence is a set of emotional and social skills that collectively establish how we perceive and express ourselves and develop and maintain social relationships. Research suggests that professionals interested in advancing into leadership roles are well served by enhancing their emotional intelligence. In this webinar, participants will be introduced to a specific emotional intelligence model and explore strategies to enhance it.

LEARNING OUTCOMES

You will be able to:
- Describe emotional intelligence and the research behind the EQi model
- Define the different composites and subscales that comprise the EQi model
- Identify various ways to strengthen emotional intelligence

To see if this program has been renewed after this date, please search by title in ASHA’s online store at www.asha.org/shop.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Related area).

STATEMENT ON EVIDENCE-BASED PRACTICE

It is the position of the American Speech-Language-Hearing Association that audiologists and speech-language pathologists incorporate the principles of evidence-based practice in clinical decision making to provide high-quality clinical care. The term
evidence-based practice refers to an approach in which current, high-quality research evidence is integrated with practitioner expertise and client preferences and values into the process of making clinical decisions.

Participants are encouraged to actively seek and critically evaluate the evidence basis for clinical procedures presented in this and other educational programs.

Adopted by the Scientific and Professional Education Board, April 2006
