FACULTY

Jacqueline Hinckley, PhD, CCC-SLP, is a clinical researcher and consultant with 30 years of clinical experience. She currently serves as executive director of Voices of Hope for Aphasia, the only community-based nonprofit aphasia program in West Central Florida. She is the author of a book entitled Narrative-Based Practice in Speech-Language Pathology, which focuses on the use of narrative and phenomenological approaches in clinical practice and research. Hinckley is Associate Professor Emeritus at University of South Florida. She is Board Certified in Neurogenic Communication Disorders and serves on the Advisory Board of the National Aphasia Association. She is an affiliate of AphasiaAccess. She is also the author of What Is It Like to Have a Communication Impairment? Simulations for Family, Friends, and Caregivers, and the author or co-author of numerous book chapters and journal articles on subjects relevant to treatment in neurogenic communication disorders.

Tami Howe, PhD, CCC-SLP, is currently a member of faculty in the School of Audiology and Speech Sciences at the University of British Columbia in Vancouver, Canada. She was previously a faculty member in the Department of Communication Disorders at the University of Canterbury in Christchurch, New Zealand. Prior to completing doctoral and postdoctoral studies at The University of Queensland in Brisbane, Australia, Howe worked for several years as a speech-language pathologist with adults with neurogenic communication disorders in acute care, inpatient rehabilitation, outpatient, dayward, and community settings in Canada and New Zealand. Howe's research focuses on how adults with aphasia and their family members live with their communication disorder, with the ultimate goal of finding ways to improve their quality of life.
