Special Considerations in Aphasia Management

FACULTY

**Teresa Gray, PhD, CCC-SLP**, is an assistant professor at San Francisco State University and director of the Gray Matter Lab. Her research examines the relationship and interaction between cognitive control and language control in bilingual aphasia in order to identify potential overlapping mechanisms. Gray is also interested in the role of attention processes in aphasia and how they can be harnessed in treatment.

**Financial Disclosures:**

- Assistant professor at San Francisco State University and director of the Gray Matter Lab
- Financial compensation from ASHA for this presentation

**Nonfinancial Disclosures:**

- No nonfinancial relationships to disclose

**Audrey Holland, PhD, CCC-SLP**, has had a long career working primarily with adults who have neurogenic speech and language disorders. Her work has centered on clinical research, teaching, and direct clinical management of people with aphasia and dementia.

**Financial Disclosures:**
