Management of Swallowing in Patients With Head and Neck Cancer: Fine-Tuning Your Decision-Making

FACULTY

Cathy L. Lazarus, PhD, CCC-SLP, BCS-S, is currently the research director of the THANC Functional Outcomes Research Center, THANC Foundation, in the Department of Otolaryngology Head and Neck Surgery at Mount Sinai Beth Israel. She is associate professor in the Department of Otolaryngology, Head & Neck Surgery at the Icahn School of Medicine at Mount Sinai. Lazarus has been conducting research on normal and abnormal swallowing for many years. Her primary interest is swallowing in treated head and neck cancer patients, focusing on outcomes after head and neck cancer treatment. She has procured NIH funding and has participated in multi-site randomized clinical trials examining treatment for swallowing disorders. She is an ASHA Fellow and has served on ASHA committees and on the American Board of Swallowing and Swallowing Disorders. She is also past-president of the Board of the International Dysphagia Research Society.
