Welcome

Thank you for taking the time to download this report CPA List Building.

My name is Tyler Pratt and I am here to show you the strategies that will help you finally start to build a solid business online.

I am excited to spend the next hour or so with you going over these details.

The information in this report is going to open your eyes up to new possibilities and a solid foundation for your online success.

I am also very excited because I know when you take action you're going to see results like you have never seen before.

But first...

Who am I and why should you care? It's a solid question and I ask it a lot when I am reading new information.

I started full time online in 1997. I say full time because I am not a very good employee. Working for someone else just sucks and I can't do it.

When the Internet first came on the scene back then it was a wild wild west of mayhem. Meaning you could do some crazy stuff and make money. But it was very difficult because we didn't have all the tools we have today.

But it didn't matter because I killed it for about 4 years in affiliate marketing.

Then went on for the next 10 years and spending all my time looking for traffic sources I could exploit. Blogs, social media, ppc, email, you name it, I tried and made a profit.

But there were also a ton of things that flat out didn't work.

And so here I am now showing you exactly what is going to work for you right now this very moment and will continue for many years.

Once you set this automated system up. Your set and can watch the profits roll in.

But let me warn you, this system is going to take some work to setup. I'm not sure your level of technology, but you may have to fight through some frustrations of learning something new.

Here is all I ask, read everything, and then take action on every thing you learn.

Before we get started I want to give you my definition of success. Many will think success is how many cars you have, or the zeros in your bank account, or even how big your house is.

Success to me is the ability to give back. This could be different for you. And giving back is not always with money. It also can mean giving back with your time.

A quick story...

I help out at a local high school track and field team. I ran track in college and know a few things I can pass onto high school students.

Every day in the spring at 3pm I go to the high school and give back my time for 2 hours. I get no money for this and never ask for it.

But here is the thing. If I worked for someone else, or building someone else's dream, I could never just head over and give 2 hours of my time for no money.

That is success to me, I can give my time and never have to answer to someone else.

My goal for you is to have that same FREEDOM in your life. And in the next 1 hour you will be on a journey that will get you what you want in life.

A Look From Above

Just imagine you are on a plane at 30,000 feet looking down, and then picture what this automated system will look like.

This system looks like this.

You have a squeeze page and on that squeeze page you give away something of value in exchange for an email.

After someone opts into your email list they are redirected to a thank you page. On the thank you page is a “thank you message” and then links to CPA offers.

The email you collected goes into an autoresponder system, and that system sends out emails daily with links leading back to your CPA offers.

Its in that order, very simple and basic.

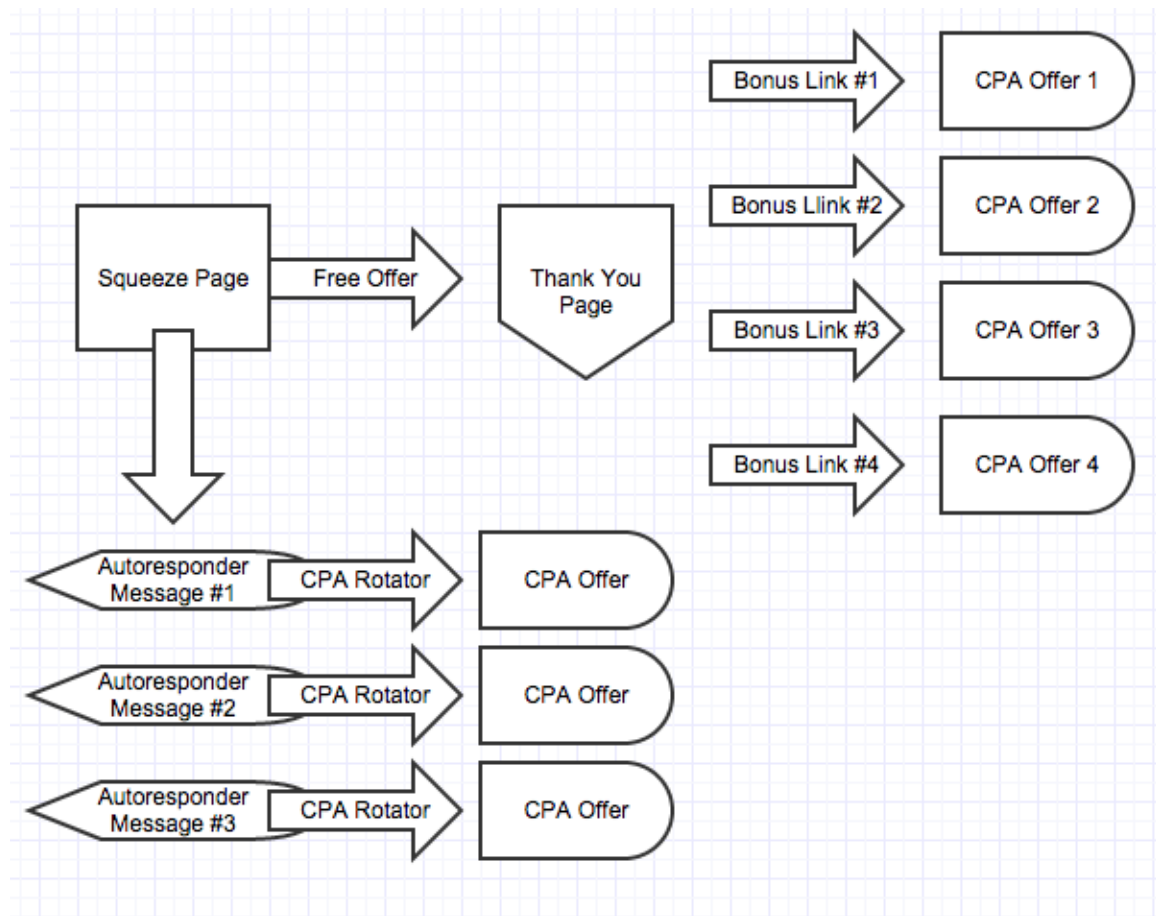

Standard email marketing. But the one big difference and what took me so many years to understand is this.

You need to make profits and good profits so you can reinvest those profits quickly and gain an even bigger list.

The offers you have in your email autoresponder will go to CPA offers.

Take a look at the diagram below.

CPA List Building for Automated Online Profits
WWW.CPALISTBUILDING.COM

What is CPA?

Cost Per Action, and that means, someone does something and you get paid for it. You can get paid for someone typing in their email address, someone accepting a trial offer on a product, or someone just purchasing for a one time sale.

The key here is that CPA offers outperform any affiliate marketing offers 4 to 1. I know I have tried every affiliate marketing system out there.

The offers that are in the CPA networks are masters at converting. They spend all day and night testing and retesting to get people to take action.

1. Drive Traffic to Lead Page
2. Give Away a free gift in exchange for email.
3. Rotate different CPA offers for find the best converting
4. 1st Autoresponder goes out with links to your CPA rotator
5. Automated Message twice per day all on autopilot
6. Find new ways to profit from your ever-growing list.

The image shows the InboxPounds registration page. On the left, the InboxPounds logo is displayed with the tagline 'The online rewards club that pays!'. Below the logo, a list of activities to earn cash is shown: read emails, search the web, take surveys, play games, and more. A central image shows a smiling woman lying on a couch using a laptop. To the right of the image is a registration form titled 'Get Daily Cash Rewards!'. The form includes fields for First Name, Last Name, Postcode, Country (a dropdown menu), Email Address, Password, and Confirm Password. A note states that the email is used for login and the password must be 6 characters long. A checkbox for terms and conditions is present, followed by a 'JOIN NOW - FREE!' button. Above the form is a login section with fields for Email and Password, and a 'LOGIN' button. A pink banner at the top left of the form area says '£1 BONUS with sign up!'. Below the main content area, a blue arrow graphic contains three steps: 1. SIGN UP! (Create your free account by clicking the 'JOIN NOW - FREE' button), 2. ACTIVATE! (Click the link in your confirmation email to complete your registration), and 3. EARN! (Earn CASH when you read emails, take surveys, watch videos & more!).

Lets look a the numbers with an example

100 visitors comes to your squeeze page. Out of the 100 you get a 50% option rate. Meaning 50 people gave you there email address.

On the thank you page 50 people will have the option to click on one your bonus links.

The bonus links go straight into your CPA offers. You should see around 1.5 clicks per subscribers will click on your bonus links.

50 Subscribers at 1.5 clicks is 75 clicks that will go on to your CPA offer.

Your emails will start to go out with your bonus links inside. Another 20% will click on your bonus links inside your automated emails. Which brings us to 80 clicks so far.

Twice per day your auto responder will send your subscriber a new email. Each email will have a link back to your CPA offers and you will see another 4% click on those links. That is 2 clicks per broadcast.

30 days of email twice per day is 60 emails that go out. $60 \times 4 = 240$ clicks.

100 click on the front end and 240 on the back end for a total of 340 clicks from 50 subscribers to your CPA offers.

The expected EPC is \$.25 to \$.60. Using this math your looking at \$85 - \$204 on this one 100 click example. Just image if you can multiply that by 10 or 20.

The kind of money is just stupid...

You will take the profits, then either buy more traffic and keep the profits minus what you paid for advertising

And if you use Free traffic sources then the money you make is pure profit. The only thing you traded was time.

As the money continues to come into your CPA networks you can withdraw the funds and buy more traffic. The more funds you withdraw and reinvest the bigger your list is going to grow.

This entire system is setup on autopilot. Its takes a little work at the beginning, but after that it runs itself.

All you have to do is scale bigger and bigger.

Getting Started Right

Domain Name

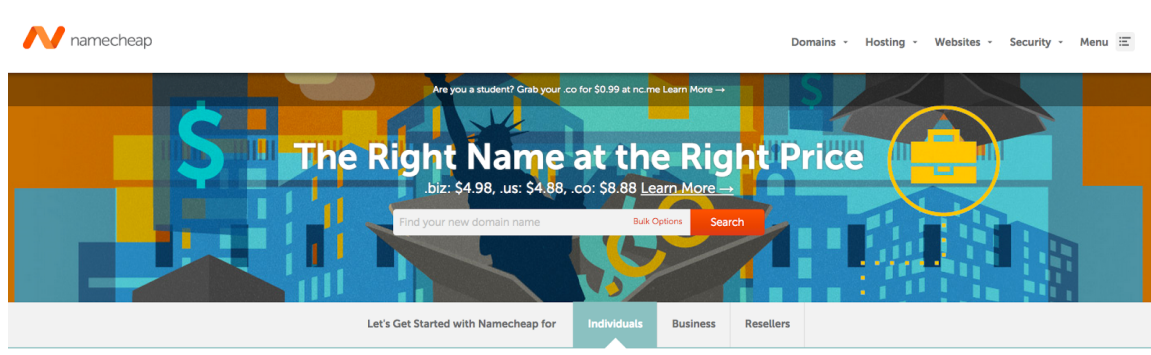

There are a few tools you are going to need to get your automated system setup.

The first is a domain name. Head over to namecheap.com and register a domain name.

Don't get caught up on picking the right name. Just find something short that you like.

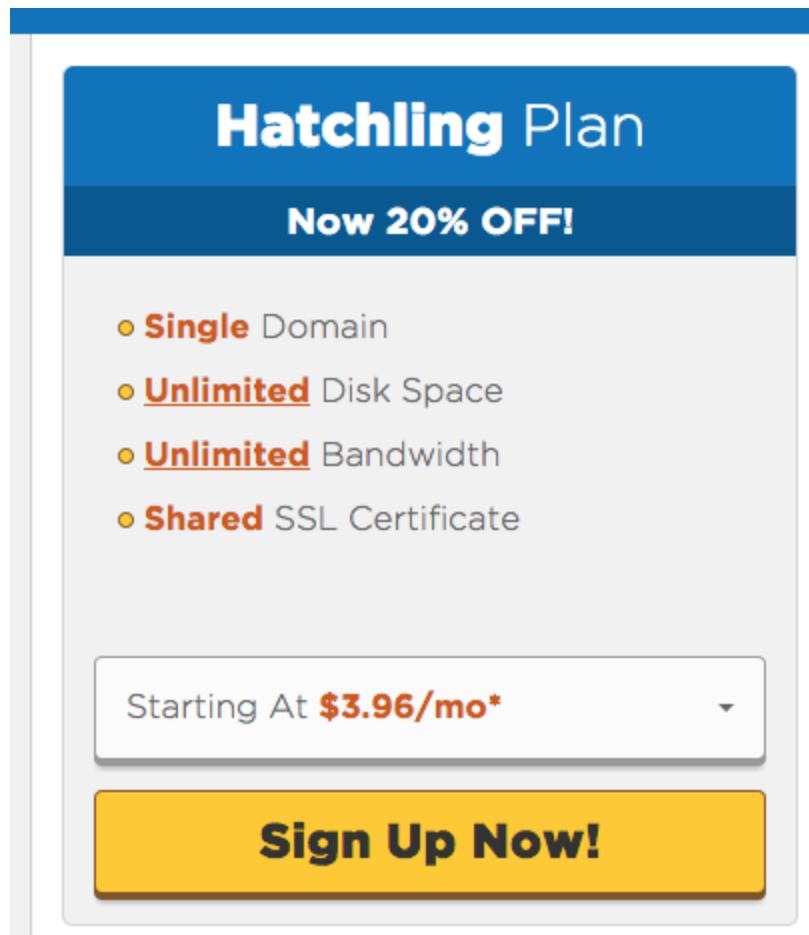

To help you find a good domain use this website.

<http://www.expireddomains.net/>

Hosting

The next is going to be your hosting. Without spending too much time on the right host just get something simple setup at hostgator.com. They have very cheap hosting plans that start at \$4 per month.

Hatchling Plan

Now 20% OFF!

- **Single** Domain
- **Unlimited** Disk Space
- **Unlimited** Bandwidth
- **Shared** SSL Certificate

Starting At **\$3.96/mo***

Sign Up Now!

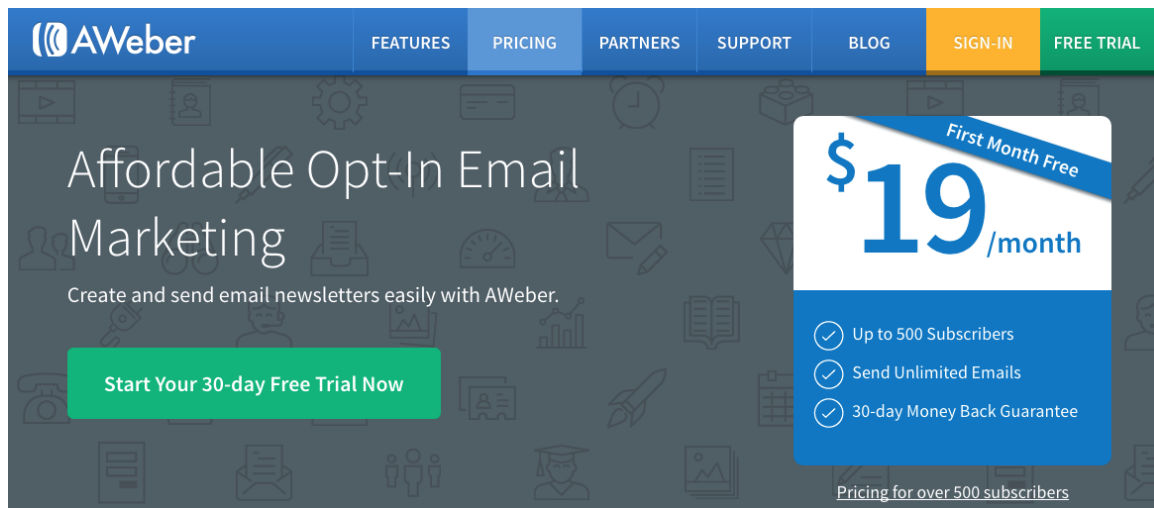

Once your domain is registered and the hosting is setup. Then you can point your new domain to your hosting dns. Do this inside your namecheap admin area.

This might be something you may need to watch a video on how to do this.

<https://www.youtube.com/watch?v=fCdMt1cXoW8>

Auto-responder

My choice for autoresponder is Aweber.com you can use getreponse.com but Aweber is what i use and love it.

Aweber is the system that will collect and then automate all your emails that go out to your subscribers. This is a must have tool because you will never be able to manually send out emails to all the people who opt into your list.

Templates

I have put together a template pack to help you get up and running quickly.

[Click here for Done For You Template Pack](#)

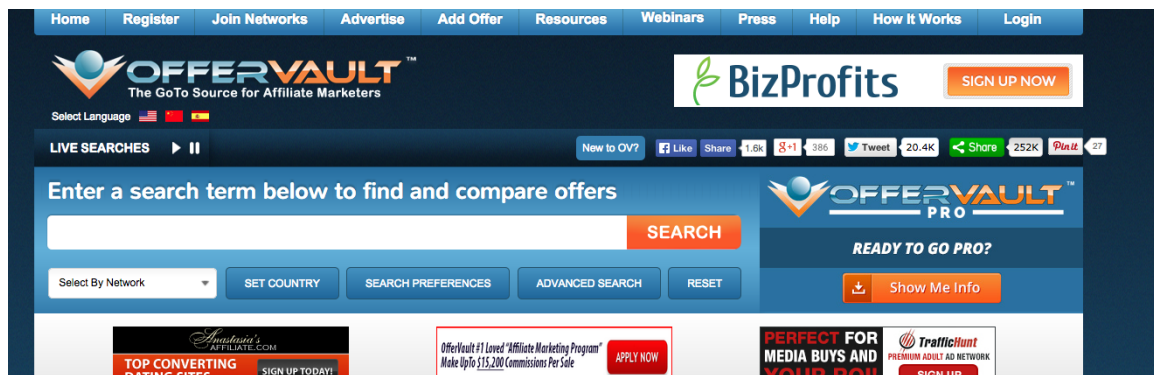

CPA Networks

CAP networks are going to handle all your payments from collecting and then sending you a check every month. Or direct deposit.

These networks are like the middle man between you and the person that owns the product your promoting.

Before I get into the networks I use. Let me show you a directory you can do a search and find the right offer.

Offer Vault. <http://www.offervault.com/>

This website has just about every CPA offer there is on the Internet. And it shows the network that controls the offer.

Perform an “Advanced Search” and it will give you a list exactly what your looking for.

Another great site is AffPaying. <http://www.affpaying.com/>

CPA List Building for Automated Online Profits
WWW.CPALISTBUILDING.COM

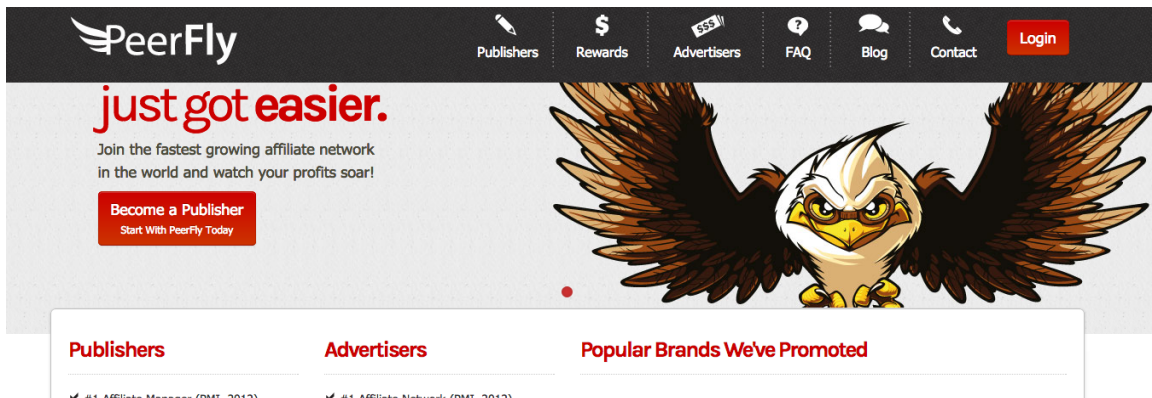

I have used this website for years. Its the one place you can find out if the network you are with is on the up and up. Meaning will they pay.

Peerfly

Peeryfly.com has been around a long time and they pay like clockwork. They also have a very good selection of BizOpp offers to put inside your click rotators.

Its so important that you get with a network you know will pay you. I just would hate for you to spend a bunch of money on advertising all to have the network run with your money. Peerfly is one that will always pay.

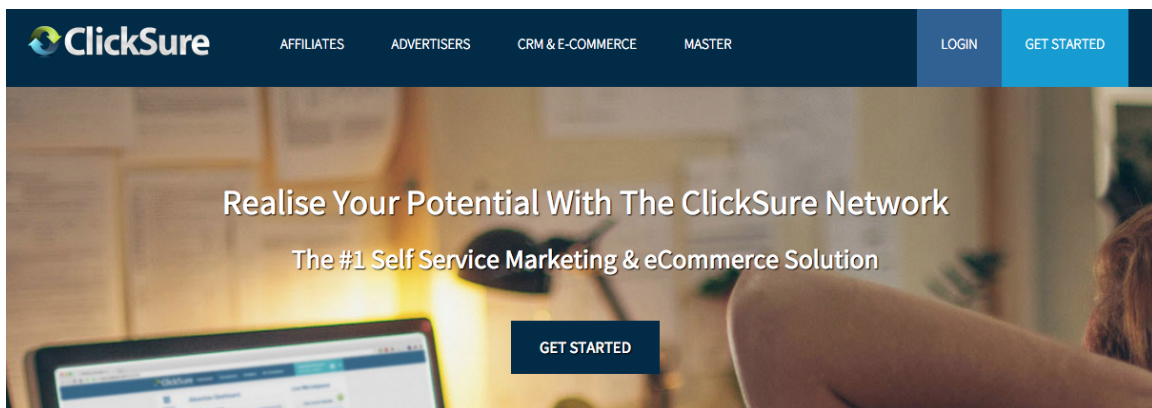

Clicksure

If you do a search on offervault for Biz Opp offers, clicksure will come up the most with the most offers. <https://www.clicksure.com>

I use them for just that reason, they are the king of Biz Opp. And since BizOpp is the niche that works best for us, then we want a network with a ton of variety.

The more offers you can test the better over all your profits will continue to increase.

Clickbank

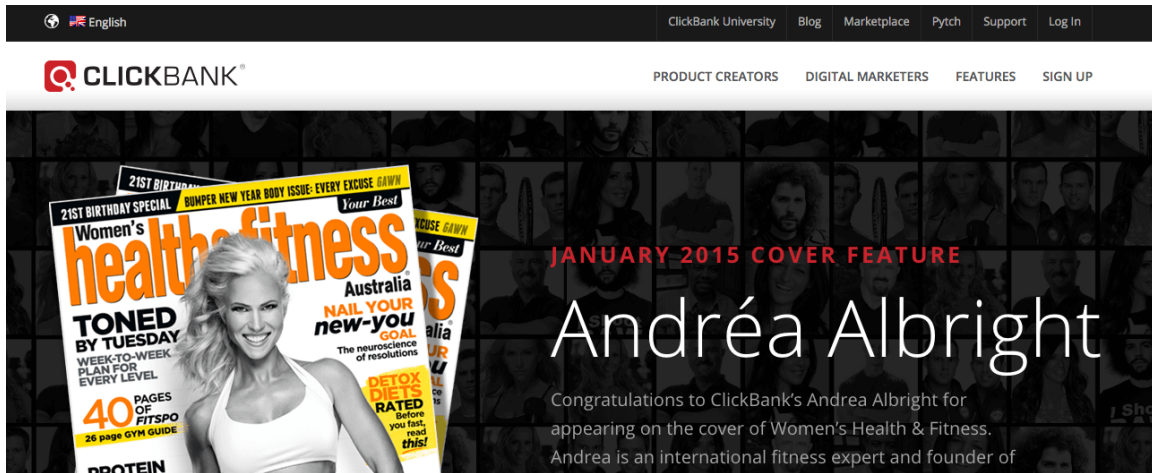

I know clickbank is not really a CPA network. But as we go along in this report you will see that all the CPA offers require traffic from Tier 1 countries. (USA, Canada, United Kingdom) are example of Tier 1. Each offer will be different on there traffic requirements.

When CPA offers require certain countries before they will pay you need to be able to send that “overflow” of traffic to an offer that does not care.

So this is the place for Clickbank. They have a whole marketplace full of Big Opp offers you can chose from.

CPA List Building for Automated Online Profits
WWW.CPALISTBUILDING.COM

Later I will show you the rotators and how to set that up. But just know your going to need a few offers from click bank to place inside your rotating links.

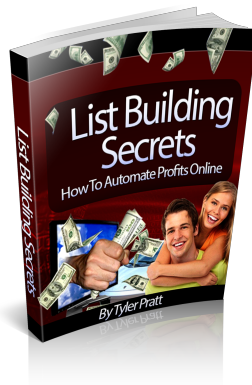

The Value Exchange

If I give you something of value, I expect something of value back. At least in our Internet Marketing world that is the truth.

If I give you a pair of shoes, I want in exchange a pair of socks to keep my feet warm.

I know its not really online, but it just came to my head. You get the point.

This is an example of a report I give away. This is a simple list building report and works great.

The first step is get something that you can give away in exchange for an email address. And there are a few ways you can go.

Purchase an MMR Product

The first is PLR or Private Label Rights content. This is content you can usually give away but cant make any changes. MRR or Master resell rights is you are allowed to do what ever you want with the content.

MRR is my favorite content because I can make changes and then give it away as my own.

A great website for finding good MRR content is tradebit.com. On this website you will see a lot of good quality products you can purchase, usually less than \$5.

Here is a good product you can purchase, change a few things and then use this as your give away product.

<https://www.tradebit.com/filedetail.php/6433507-optin-list-building-fire-up-your>

Do it yourself

This is an option if want to create your own give away product on your own. Fire up the Google Docs program and start typing.

Your product does not have to be long, and I tell my coaching students to keep your give away short. Quick tips is a great topic, 5 quick tips to build a huge list, 7 Tips for more traffic from facebook.

Topics like that always work.

Pay For It

Why do it your self, or get someone else's content when you can just pay someone to do it for you.

Fiverr.com and odesk.com are 2 places that others will create a give away product for you, at a very low price.

<https://www.fiverr.com/>
<https://www.odesk.com/>

Here are some topics you can stick with when finding or creating your own product.

- how to make money online
- list building
- facebook
- youtube
- twitter
- instagram
- pinterest

Any give away product on those topics will help increase your optin rate. The better the give away the better your going to get quality subscribers on your list.

Lead Pages

Now that you have your give away product its time to setup the automated system on your domain name to collect an email and send the subscriber the product link.

You have a couple different options.

HTML Pages

By far the easiest is straight html pages. Just edit a few lines of code in your text editor and then ftp that page to your hosting.

This is an example of one of my html only lead pages.

“Learn My EASY Method That Builds A List Of Buyers Super Fast & **Banks \$100+ Daily Every Day!“**

Enter your email address below for instant access

Enter Your Email Here

Get Instant Access

<http://speedcashpro.com>

If you are ok with working with html code then this will be easy for you.

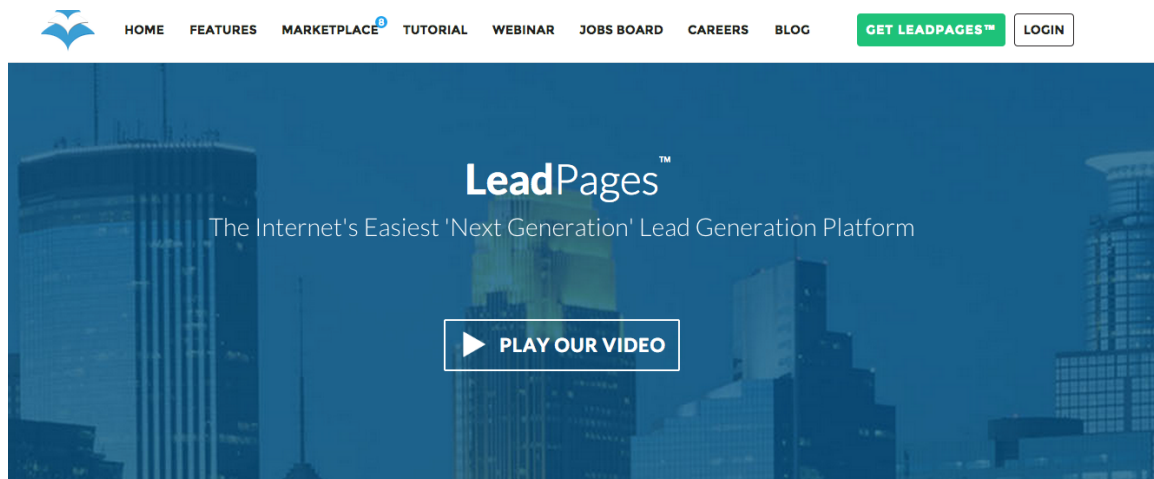

But if you have no clue what HTML even is, visit this website.

Leadpages.net

This website is a great option for those that don't want to mess around with html code. Leadpages.net is a push button service that lets you create lead pages very fast.

Just pick a page, enter in your text and autoresponder code and your up and running.

The only down side is there is a monthly fee. But since you are going to be making good money in your CPA accounts this shouldn't be a problem.

The other option and the one I use it wordpress. Wordpress is an open source system that helps you get websites setup quickly. With the right plugin you can have a lead page up in less than 10 minutes.

I use both of these plugins.

<http://instabuilder2.com/>
<http://optimizepress.com/>

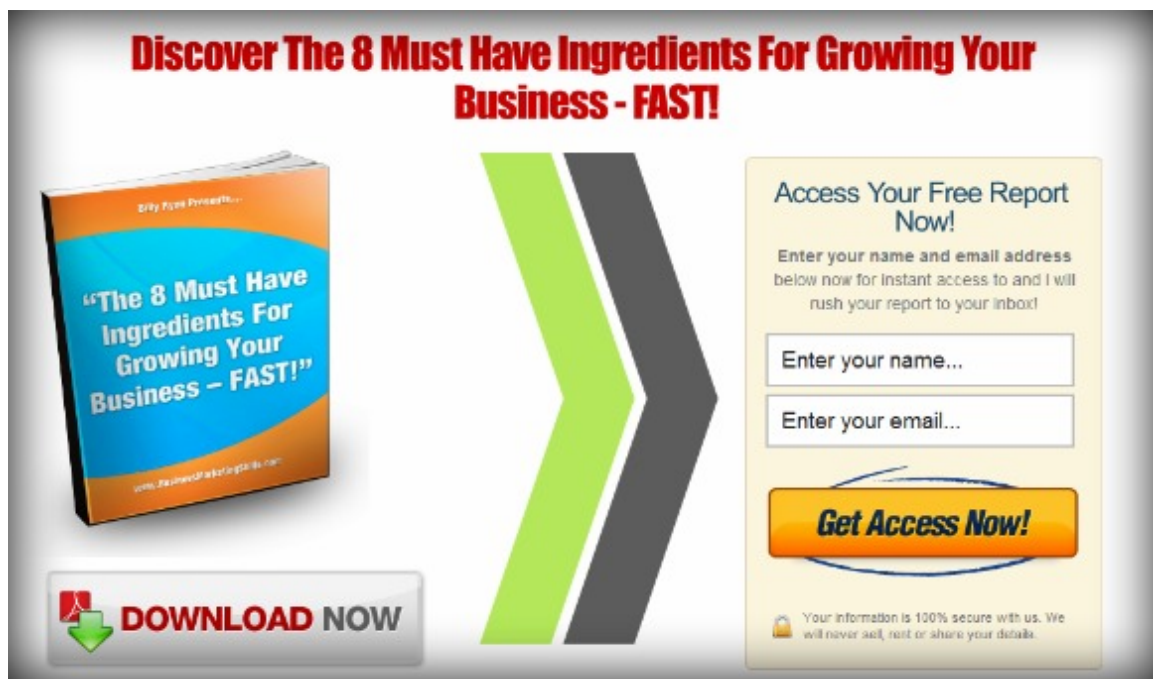

Both of these plugin require a one time up front fee. Instabuilder is \$70 and Optimzeprss is \$99. But don't let that hold you back, this will be the best money you spend.

Both of them get you setup quickly and saves you time from learning html code.

The Lead Page Setup

There is a right way and wrong way to building your lead pages. Your entire goal when someone lands on your page is to get their email address. And this is what you need.

1. A headline
2. A few bullet points
3. Call to action (enter your email here)
4. Your optin box to collect the email.

That's all you need on your page. Leave off the graphics because the page will load slower. Leave off any links that lead off the page.

The only graphic you can have is either a picture of your self, or a picture of the actual give away. But make sure the photo of the giveaway looks like a book.

Get someone on fiverr.com to make you an ebook graphic for your report.

Just keep it simple and watch your optin rate go through the roof.

After Lead Thank You Page

When you get a new subscriber the next step is redirect them to the next page and that will be your thank you page.

This just like your main lead page. Your thank you page will be simple and clean of all graphics and outside links.

A basic “Thank you for your subscription, check your email for your product”

Bonus Link 1, Bonus Link 2, Bonus Link 3, Bonus Link 4

The bonus links will lead to your CPA offers. Each link will be sent to a different offer. And if you have one link that is a rotators then the rotating script will give a different link each time.

When people land on your thank you page they are super excited because they just got something for free. This makes them more likely to click on your bonus links.

Keep this page simple, text and your links out. That's it.

As my way of saying thanks, I have **FREE BONUS GIFTS for you.

The Follow UP

When you hear “the money is in the list”. Its actually in the follow up. Your follow up is going to give you that extra profit you missed on the first click from a subscriber.

What I mean is someone on your list may not perform an action from your CPA offer until day 24 of your email auto-responder series.

Your follow up is something that you need to put in some time at the beginning to get it all setup. But after that its done, the system will send out daily emails for you.

2 emails should be in your autoresponder per day for the next 30 days. One email goes out at 7 am and the 2nd email goes out at 7pm.

Your list needs to get an email from you each day. If not they will forget about you. Your name needs to be fresh in there inbox each day.

This is a good format to use when sending out emails. Your emails should inform, but entertain the entire time. If your stuck on what to write, just talk about what you did each day.

It may sound crazy, but talk about how your day went. “Today I went to the store and this is what happened to me” People love stories and those on your list will enjoy reading them.

If you are constantly trying to sell in your emails people will get turned off by this.

Use this formula

1. Title
2. Opening sentence with a question
3. Tell a story

4. Add some Bullet points
5. close

Its simple and very effective.

But first the welcome email..

This is the first email you send out when someone opts into your autoresponder.

Subject: Welcome your bonus gift inside

Thanks

Your Name.

A few things you need to think about with your emails. Keep these things out of your emails so you will stay out of the spam filters.

the word “free”
to many periods “...”
no attachments
the word “money”

From my testing when I keep these things out I have a better chance of my emails getting to the inbox of the subscriber. If your emails are going straight into the junk folder no one will see your offers.

Finding The Right Offer

Here is the mistake I see many make when trying to make money with CPA offers. They will ask the question “What is the best network”.

There is no best network. Only the best offer.

Finding the best offer takes a little time to find the one that converts the best. You may have to sign-up for 10 different networks to find that one.

Head over to this directory OfferVault.com

Click Bank Offers

CPA networks will not take all your traffic, so its important to have overflow to other offers. Click bank offers take all traffic, from any country.

Inside the marketplace at clickbank.com, click on E-business & E-marketing and then refine your search by gravity. The gravity is the best offers that convert.

In a later chapter Im going to talk about tracking and how to use the rotation.

Analytics

Tracking, Tracking, Tracking... Everything.

Tracking to see what is converting is how you make the most money. Why? because it lets you see what offers convert and what offers don't.

Since there are over 300 offers you can choose from that pay per lead on biz opp the only way to narrow down the 300 to 5 top offers is to track.

I really need to tell you here that you have to invest in a good tracking program. I will show you free options, but tracking is a must. Do what you can to buy one of these programs. So let me give you the details on the best.

One Time Payment Programs

Quality Click Control

<http://qualityclickcontrol.com/>

This program is the best for the payment options. You get to rotate links, and see what converts.

The only downside is you have to find hosting just for this tracking and get a programmer to install it for you.

Quality**Click**Control

My Click Boss

<http://myclickboss.com/>

This software is just as good as QCC, does the same, rotate links and shows conversions.

My only negative with this is I don't think they update it as much as QCC.

The plus is myclickboss is cheaper than QCC. But you still have to find hosting and a programmer to install it.

Monthly Payment Trackers

Click Magic

<http://www.clickmagick.com/>

This is a great service on many different levels. It works just like the one time payment programs. You can rotate links, and see conversions.

The big plus is they host the tracker for you. No programmer or hosting bill each month.

But... lets talk a few negatives here.

One you pay a monthly fee of \$17. Since you will be making money each month this will not be a problem.

The second and why I don't use this service is this. They have your data and can see it.

CPA List Building for Automated Online Profits
WWW.CPALISTBUILDING.COM

Call me crazy and maybe the people behind the service are great. But I want my data inhouse.

When I have offers that convert like crazy. 80% conversion rate. I don't want anyone to know about it. Not some tech guy looking for a shortcut.

Ok, well [clickmagic](#) is a great service just think about those things before you get started.

The image shows the ClickMagick website and a screenshot of its user dashboard. The website header features the ClickMagick logo, navigation links (Home, \$250 Guarantee, What's New, Demo, Pricing), and a menu icon. The main text on the website reads: "Discover the next-gen click tracker, rotator and link manager that's GUARANTEED to make every click you get more profitable ... With 19 profit-boosting features (and counting) you can't get anywhere else!". The dashboard screenshot shows a welcome message for "Patrick", a "Today's Stats At A Glance" section with various metrics (Link Clicks: 8,250, Unique Clicks: 7,061, etc.), and a sidebar with 19 features including "Works Everywhere You Advertise", "Easily Track Entire Sales Funnels", "Intelligent Rotators & Split Testing", "Add Retargeting To ANY Link", "Geotargeting & Mobile Filtering", "24/7 Click-Fraud & Link Monitoring", "Superior Speed & Accuracy", and "Fanatical One-On-One Support".

Free Tracking Options

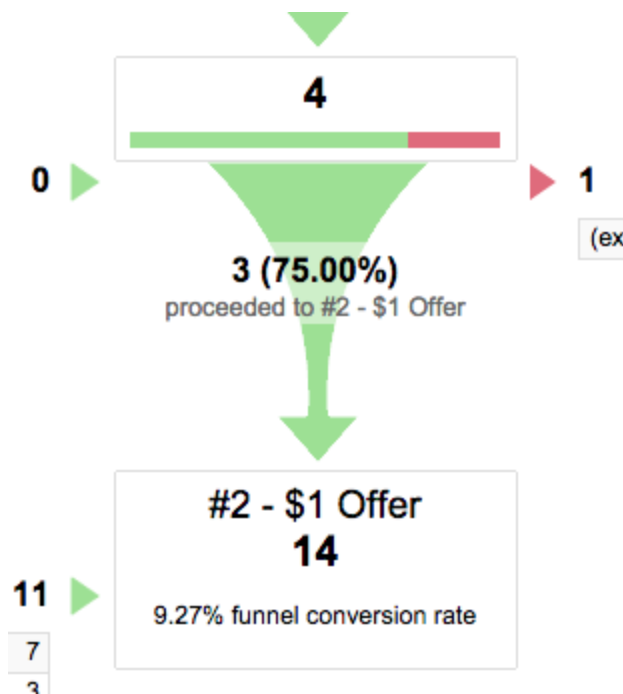

Like I said before, I feel you cant go cheap when it comes to tracking. With that said let me give you 2 ways of tracking without spending a dime.

Google Analytics.

<http://www.google.com/analytics/>

This is a free option from google and gives out a crazy amount of data on your traffic.

The way to see how your traffic converts is to setup goals. Goals are the funnel in your system and google will show you the data your website provide.

Watch this video to see how his is done

<https://www.youtube.com/watch?v=6IzxqN0WLjM>

The downside to google analytics is one its very hard to read, for me at least. I need things simple. And second you cant rotate links.

Network Sub IDs

Each CPA network you use lets you add a subid to the end of your link. This is a great way to get started with your tracking.

Instead of using the tracking URL in your bonus links. Use the direct link to the offer in the CPA network.

The screenshot shows a form titled "Affiliate Link". Below the title is a text input field containing the URL "http://trkur.com/146691/12758?s1=bonus link 1". Below this is a section labeled "Add SubIDs (optional)" which contains three input fields. The first field is highlighted with a blue border and contains the text "bonus link 1". The second field contains the text "s2" and the third field contains the text "s3".

Again just like click magic, the reason I don't use this option is because I don't want to show the network what is converting the best. Sure the networks can do a little digging from the traffic you send. But why make it easy and show your best converting sites.

Using the example above. Each of our bonus links will have a different subid.

Offer #1 would have a unique subid and so on for the rest.

Free Traffic

When your first getting started you don't have a lot of money to invest in traffic so the only way to go is with free traffic.

Paying for traffic is going to get you to your goals faster, but lets go over a few free options to get you started.

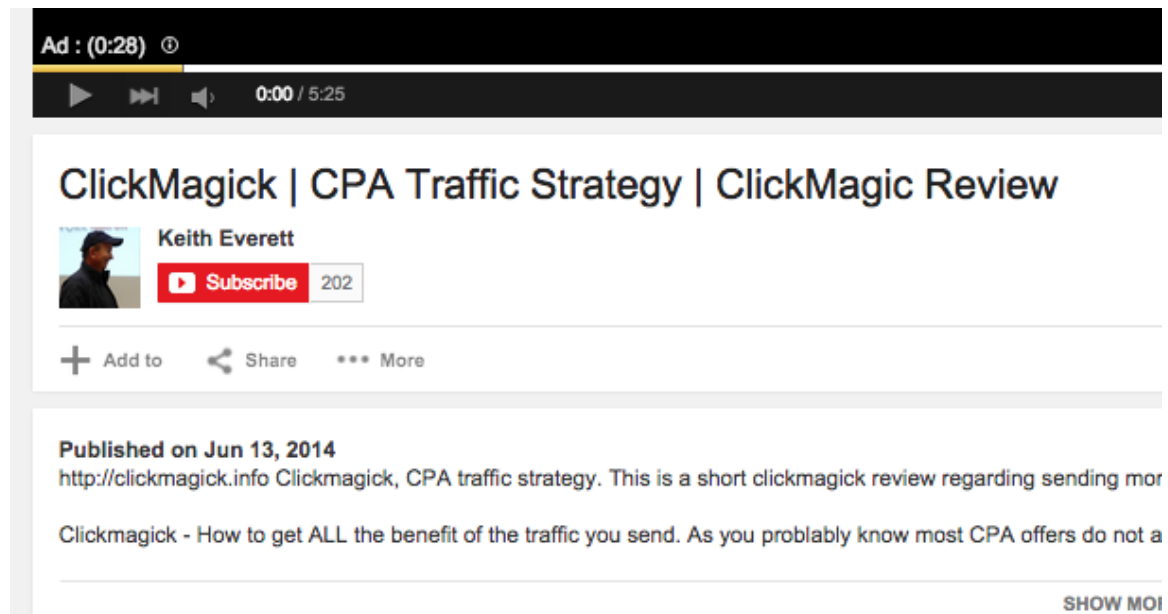

Oh before I begin. Don't do what I did for many years and try to have to many fires going here. Meaning just pick one of these and master it before you move on to the next.

Youtube

Creating daily videos that are entertaining or educational will get you a whole mess of free traffic. And when I say daily videos I mean quick videos less than 2 minutes long.

Get in, get out, and tell people what do next.

Under the video in the description will be a place to put your link. When your done with your video tell the people to click on the link and get your free offer.

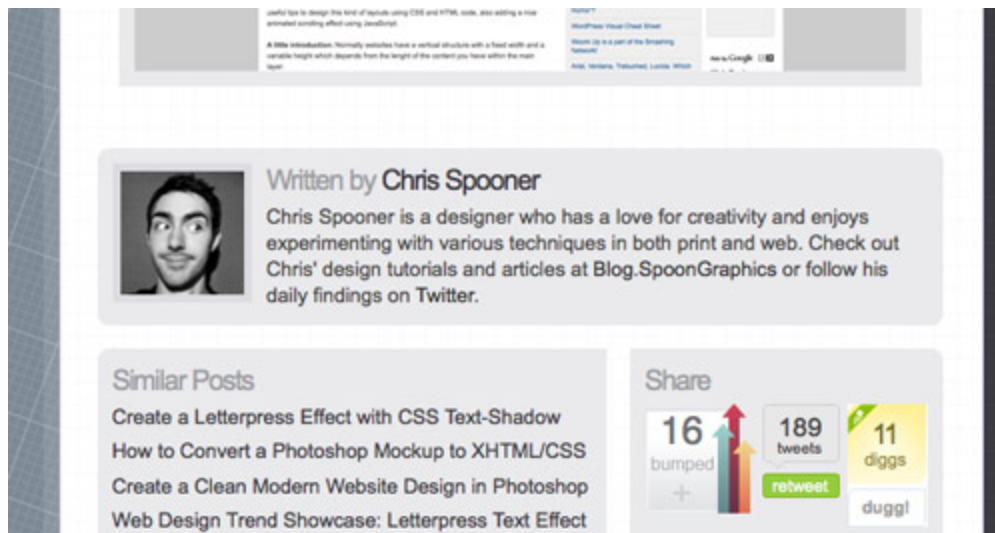

If your videos are of value then people watching will have no problems click on your link. Send all this traffic to your squeeze page.

What I like most about YouTube is, you can make a video today and still get traffic 4 years from now on that same video.

Start A Blog

I have built many blogs over the years and the traffic is great from them, but they are so slow to get up and running. Blogs require you to be consistent with your content creation.

If you have the patients to create 1-2 articles a day on your blog go for it. At the end of your article have a link to your free offer squeeze page.

Use the open source program [Wordpress](#) on your website and build an audience by providing great value.

Just like Youtube, the great thing about blogging is you can create a piece of content today and get traffic for years on it. And when google started to rank your blog posts, that is when you can bank some great traffic.

Guest Blogging

If you are creating content for you blog each day, why not take that same content and put up a guest blog on someone else's site. This works great for you and the blog owner. They get a good piece of content, and you get to add your link in the bio.

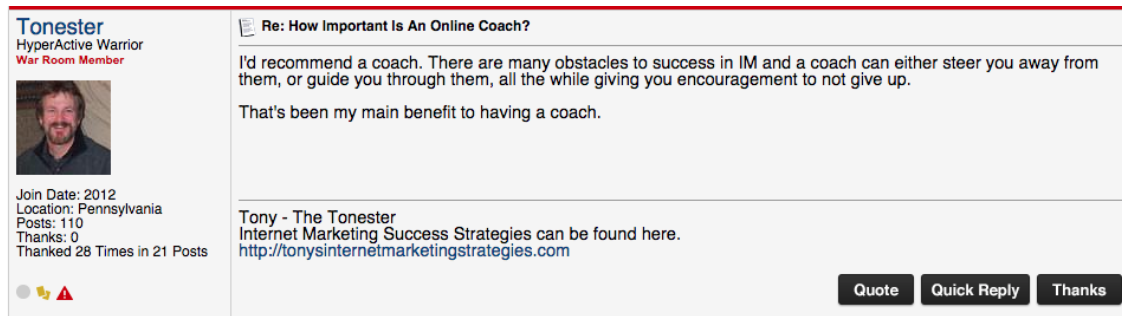

Guest blogging is great because you can leverage the traffic of an existing site. Just make sure to find a blog that has enough traffic that will read your article.

Here are some websites that accept blog posts.

<http://www.bloggingcage.com/blogs-accepting-guest-posts/>
<http://www.petersandeen.com/list-of-guest-blogging-sites/>

Forum Posting

Find a forum that lets you put a signature after you post. A good example is warriorforum.com.

Here you can add value to the forum and let people click on your link.

This is by far my second favorite way to get traffic behind YouTube. Forum posting lets you get your link in front of the people that would be interested in your free offer.

You can post 10 - 15 post each day and those links will be there for years and still bringing in daily traffic.

Use your tracking to see the results you get from each of these free traffic sources.

Paid Traffic

Paid traffic gets you to your goals the fastest. If you want a big list, pay for the traffic.

When your buying traffic you have to become good at money management. If you spend a \$1 you have to get back either your \$1 plus some.

Why CPA list building is GREAT is sometimes you can spend a \$1 on paid traffic, and get back \$2.50, or a \$1.50 profit.

The math is basic and simple, but imagine spending \$1,000 and getting back \$2,500 for a \$1,500 profit. Starts to add up quickly huh?

But before you can make \$1,500 you have to learn to make \$1.50 profit, and that takes money management skills.

I have purchased traffic from these sources, Facebook, Google, Mobile Networks, Solo Ads, Clickbanking, 7search, Buzzcity, Adfly, Media Buys, Banners Ads, Bing, Remnant Traffic, Exit Traffic, PPV, etc... and many more.

My point is I have tried it all. And here is the best sources for Paid Traffic for List building.

ThankYou Clicks

Some may call this funnel clicks, but I don't want to be deep in someones funnel. I want to have my site on the thankyou page.

Later I will talk about more profits by selling offer links on your thank you page. But for now lets talk about others selling there clicks.

You want to find people who are doing the same thing you are. Sending traffic to a squeeze page and giving away a free offer with a thank you page.

This is a prime spot.

How do you find others that sell those spots. Facebook Groups

<https://www.facebook.com/groups/funnelclicktestimonials/>

<https://www.facebook.com/groups/deepakulkarnifunnelclicks/>

These are the only 2 groups you want to focus on. Stay out of the buy/sell groups. There are too many shady people in there that will not send quality traffic.

When you get a testimonial from someone else who had success, is when you can approach the person and ask to buy clicks from them.

Click on the facebook account and send them a message that you are looking to purchase funnel clicks only. Ask for there smallest purchase.

On your first spend with a new provider don't spend anymore than \$100 to start. If you can purchase a \$50 click package, do that. Start small to test the quality of the traffic.

Once you can test out a new provider and the quality is good, then ramp up. Buy \$200 next, then \$500, and max out at \$1,000 spend.

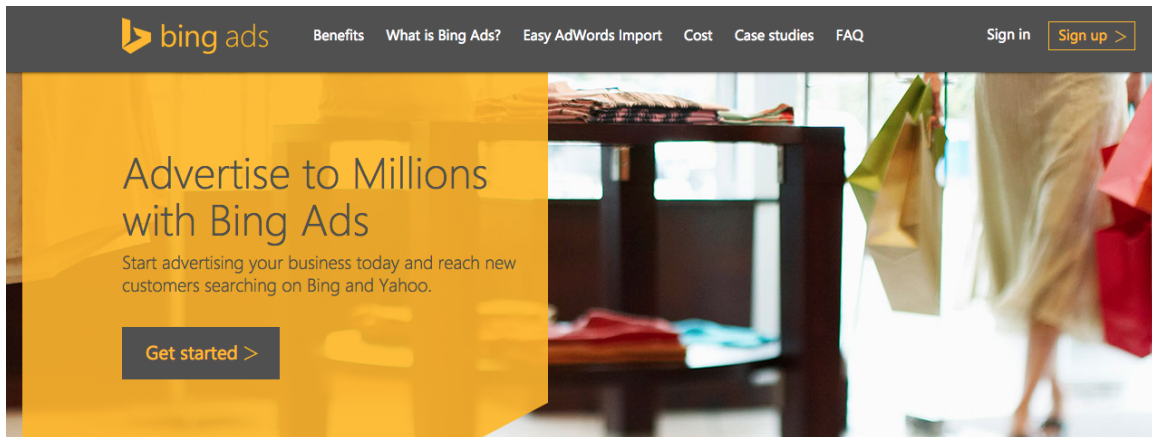

The more that you make with your CPA network, the quicker they will pay you. Then you can reinvest that money into more funnel clicks.

After you find that one click funnel provider you can then find a second one and so on.

Bing

Let me be honest with you here. Facebook and Google are a bunch of boneheads when it comes to there advertising platforms. I just gave up on trying to figure them out after getting multiple accounts banned.

But for some reason Bing will be more tolerant with you. Because after all you want to push the boundaries on what you can do with your ads. And Bing will let you do just that.

[Bing is a PPC network](#) so your going to have to do a little testing to find a good keyword that converts. The traffic on this network can be slow at times, but the quality is excellent.

The testing phase can be a bit slow also, but when you find that one keyword that converts, turn on the flood gates and buy as much traffic as you can handle.

Broadcasting

You have your squeeze page setup, your free offer, thank you page, and buying traffic. Now its time to follow up with your new subscriber.

Each day you want to send out like clockwork at 8 am and 8pm EST an new email. Now you could do this hand each day, or you let the auto responder do it for you.

Follow Up Series

An automated series of emails sent to new subscribers.

Let me give you the frame work for each email and what works the best.

Your daily broadcast emails should do one of these

Inspire
Motivate
Make Cry

How you do that is to tell a story. What kind of story you ask. Any story, a story about your life, a story about your friend, a story about a family member, a story you heard on the TV, a story about your neighbor, a story you read in a book.

Stories get people to read and then take action. Never try and sell in your emails, people see it coming and will be turned off by it.

Here is a good template to use.

Oh wait before I do that, if you want to learn the art of telling great stories and become great at emails. Learn from this guy... Ben Settle at bensettle.com

Headline
Opening Sentence
Story
Bullets
Close

This template will work every-time inside your emails.

Spend the next 2 days writing out 60 emails. I know it will be a pain in the ass. But it will set you apart from all the other marketers that just sell, sell, sell in there emails.

More Profits

Sell Your Thank You Page Clicks

Here is the last section and its about pulling out just a few more profits from your system you have setup.

Become a funnel click seller. This should be a no brainier since you are buying funnel clicks from others. Just turn it around and sell spots on your thank-you page.

The best place to sell your clicks is on the buy/sell groups. I did tell you to stay away from these groups when you purchase the clicks. And its only because you have no testimonials when buying from these groups.

As you sell funnel clicks, others will post in the testimonials and then people will contact you to buy clicks.

Promote jvzoo offers after the 30 days.

As your list grows and ages you can start to promote other offers outside CPA offers. JVzoo has a big selection of biz opp offers you can promote and get 100% profits.

The great thing about these offers is that the commissions are sent directly to your pay-pal account. No waiting a couple of weeks to get your money.

Conclusion

I want to thank you for taking the time to learn these strategies. Within a few months you should be in the money big time. I hope that when you get to that point you contact me and share your story.

Nothing get me more excited to see others succeed.

Wish you all the best
