Introduction

Thank you and Welcome...

I'm Tyler Pratt and I have been building business online since 1997.
Along the way there was many High points and many Low points.

But one thing that keep me going was a strong desire for Freedom.

Being able to do what you want with who ever you want any time of the day.

And it's my goal to help you get that same Freedom in your life.

The one way that has helped me get that Freedom in my life is with CPA offers.

First building a list and then offer the "offers" to that list.

As you go thorough this report I ask that you keep one thing in mind.

Its this...

You're not going to understand all of this in one day. You're going to try new things and they may not work. Just continue to learn, try new things, move forward and never, ever, giving up.

If you give up you lose.

If you continue to try and never quit you WIN!!

This report is going to go into details on using CPA offer to make money.
First its about setting up your online presence and then driving customers to the offers.

And this is how it looks

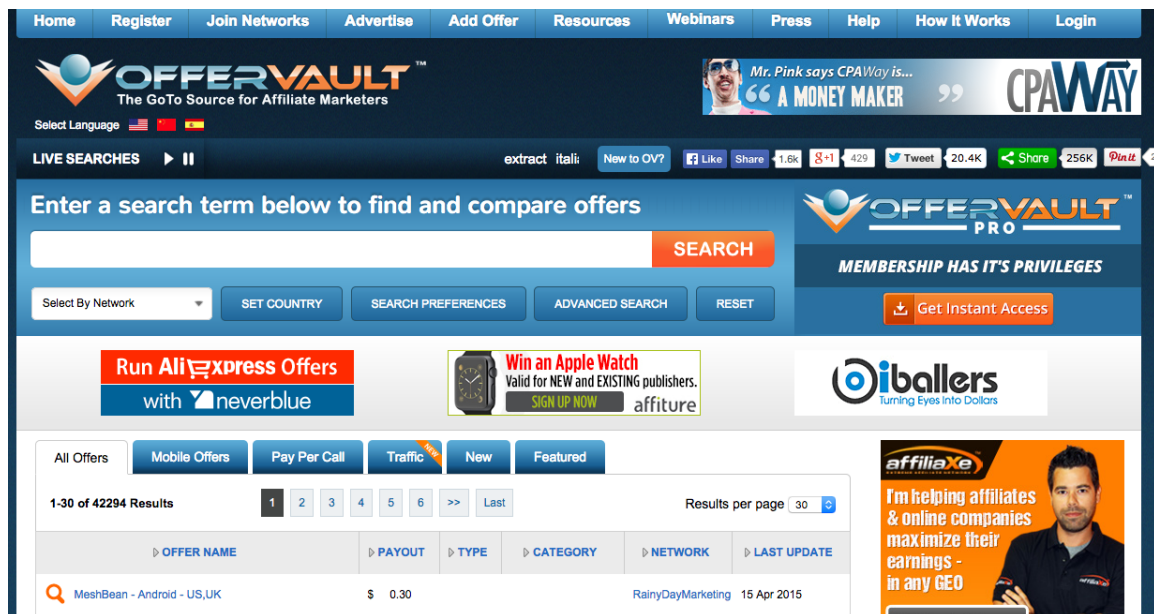

Drive Traffic to a landing page, Get an email, Automated emails that go out, promote CPA offers.

The Offer First

To have success with CPA is about finding the right offer. Many will think you have to start with the CPA network. But that is backwards.

Start with the offer first.

And the best place for this is OfferVault

<http://offervault.com>

This website directory gives you every CPA offer that is available to promote and make money. All are not great, but all of them can work.

What I want you to focus on is one niche. And for this report I want you to focus on finding the offer first and then the network.

And lets make the niche Biz Opportunity the offer you focus on. You can use any niche you want. But for this report and some of the traffic sources, Biz Opp is the best.

Start off at offervault and click on Advanced Search.

Then narrow the search by selecting Business Opportunity. And also put in search only lead offers.

Lead offers are going to be the best because all that is required for you to make a commission is getting a name, address, telephone, number and some other important details.

Lead offers are just that, get a lead and you make money.

The CPA networks know how to take those leads and turn them into money. That is why you can get paid even when they have not made a dime yet.

And you don't have to worry about refunds. You just get paid, cool huh?

Here is the big picture of what a "perfect" offer looks like.

Business Opportunity, Pays by Lead, Payout is \$20 - \$60, EPC is above \$1.00

eMobile Code - US/CA/UK/AU/NZ

From the Creator of Mobile Money Code, Commission Cash Code, Tube Cash Code and many other #1 converting offers comes eMobile Code. Opening Doors on May 5th at 12 PM EST - This Blockbuster pays MASSIVE CPA PLUS Prizes! Get details on our JV page!

Type: CPA Terms: Weekly Net 25

Campaign Status: Active

Campaign Payout: \$65.00

→ Sub-Payout 1: \$35.00

Sub Campaigns: No

Countries Allowed: Australia, Canada, New Zealand, United Kingdom, United States

JV URL: <http://www.emcjb.com>

So use this formula to find the best offer. Offervault will give you the Niche, Lead, and Payout, but you will have to see the EPC inside the CPA Network.

Spend the first part finding the perfect offer, then click through to the network. After you register for that network then see if the EPC is high.

You may have to go through a few different networks until you find the right one.

CPA Networks

After you find the right offer, you then need to register at that network before you can start running traffic.

But Stop, First, Warning, Do Not Skip this part.

Before you register and run any traffic you have to find out if the network is on the up and up. Not all networks are good, and I have had my fair share of networks that ran off with my money.

I don't want that to happen to you, and there is a very simple way to keep your chances of getting scammed low.

Visit AffPaying.com

<http://affpaying.com>

Here is a review site of all the CPA Networks. You can get a good feel for the networks you want to register for.

Start off on the first page, and skip over the “sponsored” listings. Affpaying will rank the networks by score. The better the score the higher on the list.

Once you get a feel for how the networks are ranked then you can do a search for the network that has the offer you want to push traffic to.

When that network comes up look at the overall picture. If the network is not on affpaying, then you need to skip over that network completely. Find a new offer and a new network.

If you search the network and it comes up, then look the score, and then view the reviews. If you see a lot of positive reviews then you have a winner.

If there are negative review don't just count it out, read the reviews. If you see the network responding to the negative reviews, then you know you may just have a few people that needed some help and the only way they could get it was to post a negative review. Since the network responded then it means that it's a good network.

But remember this. There are Tons and I mean Tons of networks that are good with similar offers. So just keep finding offers and good networks to apply for.

Get Approved

Getting approved from the CPA networks is a question I get asked by my student all the time. And its really simple and I want to show you how.

But first lets just be real here. This is a business and you running traffic to a CPA network is something you need to look at long term.

If your looking for short term gains by doing some shady stuff, then your never going to make it work, and no network will approve you.

Be real with all your real info and the process of getting approved will be in your favour.

When you register, use your real name, your real address, and your real phone number.

CPA networks are looking for 2 things. Are you a real person that is going to be a long term affiliate. And how are you going to send traffic to the offers.

Since you are new, when the network asks you how are you going to promote the offers you respond with email marketing.

But your saying right now “I don’t have list” and I know that, but at the end of this report you will have one. And that is what your telling the cpa network.

This information you will enter when you register and if the network wants to talk to you on the phone you have to let them know you have an email list.

Next...

After you register with the CPA network get on skype with them (if you can) or pickup the phone and call them. Try and be proactive here and get your name in front of them.

Again, all CPA networks care about is if you are the person on the registration and how you plan to promote the offers.

If you can convince the network of both, you will have the best chance of getting approved.

Here are a few other things you can make sure you have. If you have a website give that information out. If you have your own domain then use that as your email.

Joe@emailistbuildingwithcpa.com looks way better than joecpaguru@yahoo.com

One is a free email service that anyone can get for free, and the other is more complicated, but real.

If you have your own domain, website, and email address it shows you know what your doing. And that looks good for when the network is looking at your application.

If you don't have a phone number then spend a few bucks on a Skype number. Your Skype or any number needs to reflect the area you live in.

If you live in Los Angeles then your area code needs to be at least 301. I live in Florida and my area code is 941.

If I live in Los Angeles and I put down 941 on my network application. That would look fishy to the network and they may disapprove based on that alone.

So just make sure all your data matches you and the location you are from. This gives you the best odds of a successful application.

Lead Pages

I want to talk real quick about lead pages because when I go over the traffic sources later what you send your traffic to is going to be very important.

There are 2 types of lead pages.

One is a lead page that captures an email and then redirects the traffic to a sales page. This is the best option.

And second is lead pages that presell an offer. This is also a good option but you can't follow up with the traffic using email.

The first option of collecting email addresses requires you get a website and us an autoresponder service.

A good service is [Aweber](#). This system lets you collect emails and have automated message go out each day. And then inside your messages you can have your CPA links.

But like I said you will have to pay an extra fee per month.

A landing page that presells will be just that. Presell the offer before you send someone to the CPA offer landing page.

You never want to send direct traffic from your sources straight to the CPA offer. First this landing page you can track, and it also can hide your traffic sources.

Yes you don't want to give away your best converting traffic sources. The cpa network can see your stats and run there own traffic. With a landing page you can protect that traffic and keep it all to yourself.

An example for me is I found a blog that let me pay for a banner spot. This blog was generating 60% conversion to a single CPA offer.

I was sending this traffic to my landing page and then on to the offer. Since I used a landing page the network could not see the blog I was advertising on.

Now I am not saying that networks are out to take traffic from there affiliates, but why give them the opportunity. When you find a great traffic source that is converting. Keep it all to yourself.

Tracking

Track Everything...

Every click on every link, on every email, on every blog post, on every facebook post, etc...

Hopefully you get the point. If you're not tracking you're blind.

With tracking you can see the Big Picture.

Tracking is simple, let other way more smart service do it for you.

The free tracking solution is Google Analytics. This service is limited and can be complicated to understand. But don't let that get in your way. No matter if you use the service or not, add a Google Analytics tracking code to your website.

Website tracking

This is the Universal Analytics tracking code for this property. To get all the be

This is your tracking code. Copy and paste it into the code of

```
<script>
(function(i,s,o,g,r,a,m){i['GoogleAnalyticsObject']=r;i[r]=i[r]||function(){
(i[r].q=i[r].q||[]).push(arguments)},i[r].l=1*new Date();a=s.createElement(o),
m=s.getElementsByTagName(o)[0];a.async=1;a.src=g;m.parentNode.insertBefore(
))(window,document,'script','//www.google-analytics.com/analytics.js','ga');

ga('create', 'UA-60240249-1', 'auto');
ga('send', 'pageview');

</script>
```

Every page on your website needs to have this code. It will collect everything for you and present it. It's up to you to figure out what it means and how to use it.

I will let you find some YouTube videos on how that is done.

<https://www.youtube.com/watch?v=SnaLP1Y1CXM>

But for me I use 2 services. One is [ClickMagick](#) and [QualityClickControl](#).

The first is ClickMagick, it's a monthly fee of \$17 but they track it all for you. And show you in a normal way so you can read it.

But before I talk more about clickmagick just know that they host all your data. And when someone else has your data its open to someone using it to there benefit. Just so you know that before moving on with this service.

Clickmagick is great for tracking it all. It shows you the clicks that turned into a sale or optin. And it shows you the traffic quality.

The quality is important because CPA offers will only take traffic from certain countries. If you setup a link clickmagick will let you filter out the countries that the offer will not allow. Clickmagick will also give you the option of sending non offer traffic to another website.

✓ **Allowed Methods:** Search PPC, Social PPC, Banner Display, Contextual
🌐 **Allowed Countries:** United States

Example would be if a CPA offers only allowed traffic from USA, they can filter out everything else. You then have to send the non USA traffic to another link. I like to use Clickbank offers because they take traffic from all over.

or Exclude	<input type="text" value="Select Countries"/>
Backup URL	<input type="text" value="http://f1ee97pfnm4m5f6kqcxovkfz2y.hop.clickbank.net/?tid=16500BACKUP"/>
(This will be used if Max Clicks is reached or visitors' country is excluded)	

Quality click control is the same thing as clickmagick but you pay a one time fee. You will have to setup your own hosting and have someone install the software.

But...

The positive is this, you own the data!

When you own and control your own data, there is no one that can see your winning offers. Just take that into consideration when you decided on a tracking solution.

The same applies to QCC, the software will let you track everything. Track sales and optins. Also you can filter out non country specific traffic.

The screenshot shows the QCC settings interface with the following fields and text:

- Countries Allowed :** A text input field with a dropdown arrow (three dots) to its right. Below it, the text "(Leave empty for all countries)" is displayed.
- Country Minimum % :** A text input field containing "100" followed by a "%" symbol. Below it, the text "(The minimum percentage of traffic from the countries specified above)" is displayed. Below that, in red text, is "(If the percentage above is less than 100 you ***MUST*** specify a maximum click amount)".
- Redirect URL :** A text input field. To its right, the text "Redirected Link Stats : 0 / (0)" is displayed. Below the input field, the text "(Redirect to this URL when country not allowed)" is displayed.

If the CPA offer only allows USA traffic, then QCC can send non USA traffic to another link. Just find a clickbank offer and redirect non USA traffic to a similar clickbank offer.

Again, clickbank does not restrict the traffic quality by country.

Send all your overflow traffic to them.

Traffic Source 1

Traffic source number 1 is using others peoples lists. Yes I told you before that you will tell the network you are sending traffic using email marketing.

Here it is.

[Ad Click Media](#) is a service that lets your rent space on different emails list. The total emails in the whole system is over 40 million.

PUBLISHERS	MONTHLY VIEWS	EMAIL PPC SUBSCRIBERS
67,456	22 Million+	42 Million+

That's a ton of emails.

So what you are going to do is find a list in the business opportunity niche and pay to have that person email for you.

Email marketing is the BEST way to get traffic to any offer. Especially Biz opp cpa offers. Email is the BEST,, oh did I say that?

Traffic Source 2

Funnel clicks will be the traffic source #2. What is a funnel click?

You can purchase clicks from another internet marketer inside his/her funnel. From the squeeze page the traffic is redirected to a one time offer bonus page. On that page will be links that say click here bonus #1, #2, etc.

Funnel clicks will come from these pages. What is great about these clicks is the person is highly targeted. That means they are interested in, internet marketing. They are also very interested in getting more information.

When you purchase funnel clicks you are getting very targeting and high quality traffic. This is the kind of traffic that builds lists very fast.

Funnel clicks can be sent to any location you want. The clicks could go to your lead capture page to collect an email, or to your landing page that you pre sell the offer.

Either way you do it, your going to see huge results from funnel clicks.

Here are 2 of my favourite places to purchase funnel clicks.

Facebook groups

<https://www.facebook.com/groups/deepakkulkarnifunnelclicks/>

<https://www.facebook.com/groups/funnelclicktestimonials/>

This is what a winning funnel will look like

The optin rate is ok, but you see it says 5 Sales? That is what makes it great.

You want buyers of your products so you can reinvest your money.

Contact Faisal Hussain and ask for his click funnel rates.

Pay the small fee and you will see your list grow.

Traffic Source 3

Just like you rented space on Adclickmedia, Solo ads are going to give you the same results.

The only thing different with solo ads is you have to be careful who you buy the traffic from. There are some people out there that will send you junk traffic that does not convert.

But when you do find a great solo ad provider, the traffic is super high quality.

Solo ads are usually only in the Biz Opportunity or Make Money Online niche. And since you are focused on that niche solo ads is a great source of traffic.

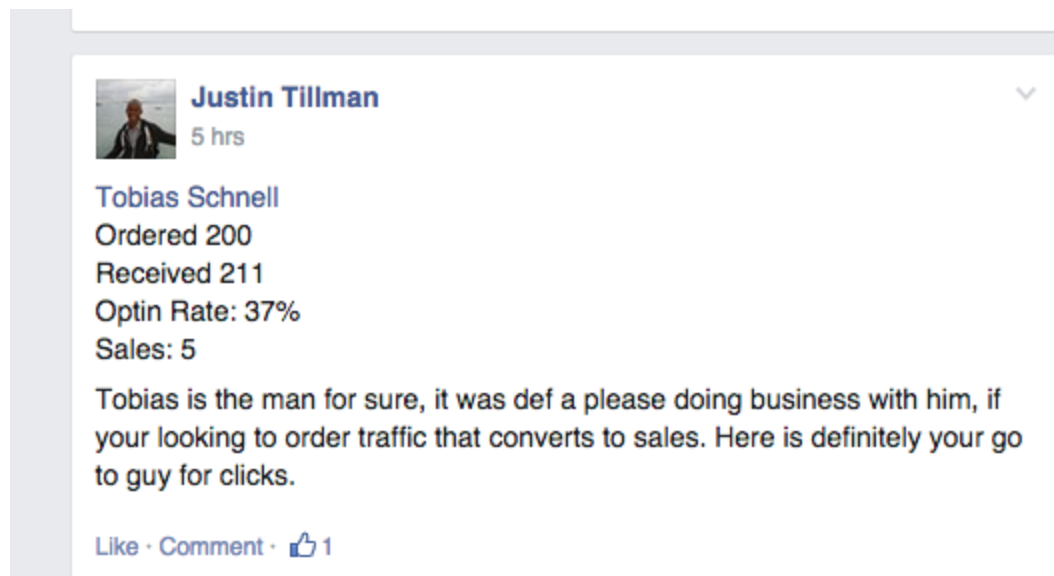

When you purchase your solo ad make sure you give your own copy to the provider. Don't let the provider you purchase from send out there own copy.

If the provider will not mail your own copy then move on. There are thousands of people with quality lists that mail what every you want.

Use the same simple technique when finding solo ad providers as you did finding funnel clicks.

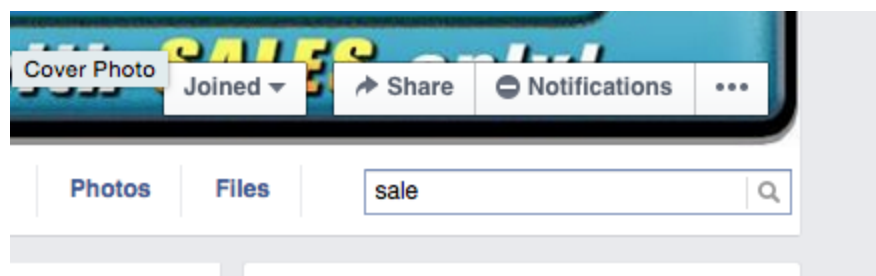

Visit this group

<https://www.facebook.com/groups/salestestimonials/>

Wow 5 sales with this solo provider “Tobias Schnell”

The best way to find the sales is to search for the word “sale”

Traffic Source 4

I'm sure you have heard of PPC or Pay Per Click traffic. Those ads on the right side of google and facebook. Those are PPC ads.

But Facebook and Google suck. Ya, I said It! :)

They hate Internet Marketers and will delete your account super fast.

I gave up many years ago trying to please them.

But one company is smart and understands that people are not perfect and need to test ads and landing pages. [Bing](#) is the PPC networks that understands Internet Marketers.

If you buy a Bing ad and its against the terms, or they don't like your landing page. They just turn off the campaign and tell you what you did wrong.

Bing requires you to find keywords that match your offer. When finding keywords looks for the group of words that equal 3 or more.

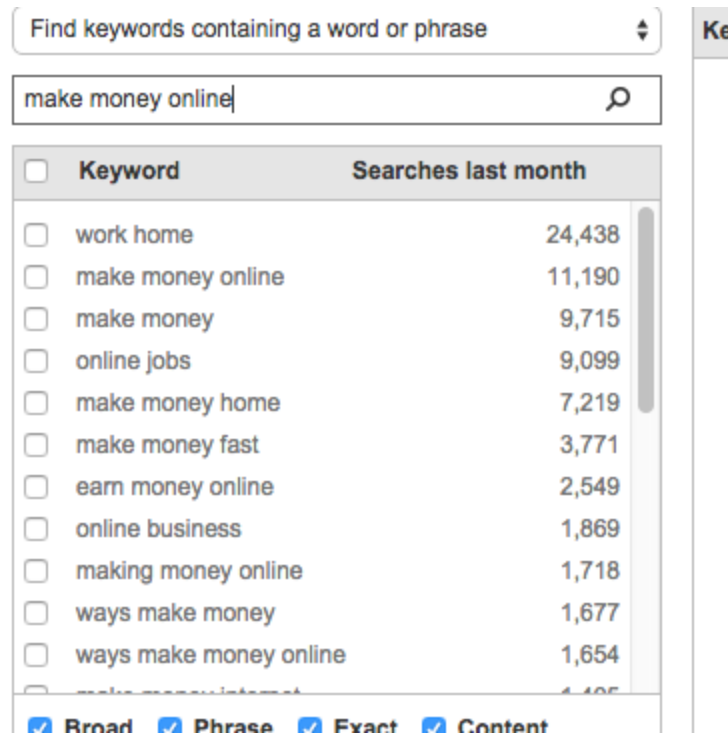

Money = 3

Make Money = 2

Make Money Online = 3

Make Money Online with CPA = 5

Make Money Online with Bing = 5

The screenshot shows a search interface with a text input field containing 'make money online' and a search button. Below the input is a table of search results. The table has two columns: 'Keyword' and 'Searches last month'. The results are listed with checkboxes to the left of the keyword text. At the bottom of the table, there are four radio buttons labeled 'Broad', 'Phrase', 'Exact', and 'Content', with 'Broad' selected.

<input type="checkbox"/>	Keyword	Searches last month
<input type="checkbox"/>	work home	24,438
<input type="checkbox"/>	make money online	11,190
<input type="checkbox"/>	make money	9,715
<input type="checkbox"/>	online jobs	9,099
<input type="checkbox"/>	make money home	7,219
<input type="checkbox"/>	make money fast	3,771
<input type="checkbox"/>	earn money online	2,549
<input type="checkbox"/>	online business	1,869
<input type="checkbox"/>	making money online	1,718
<input type="checkbox"/>	ways make money	1,677
<input type="checkbox"/>	ways make money online	1,654
<input type="checkbox"/>	make money internet	1,405

☒ Broad ☐ Phrase ☐ Exact ☐ Content

You see the difference, only buy traffic for keywords with 3 or more words. Anything less and you will pay too much and get nothing back.

When you create the ad to get people to your offer use this simple formula.

Problem (Headline ask a question)

Agitate (dig the problem deeper, remind the problem)

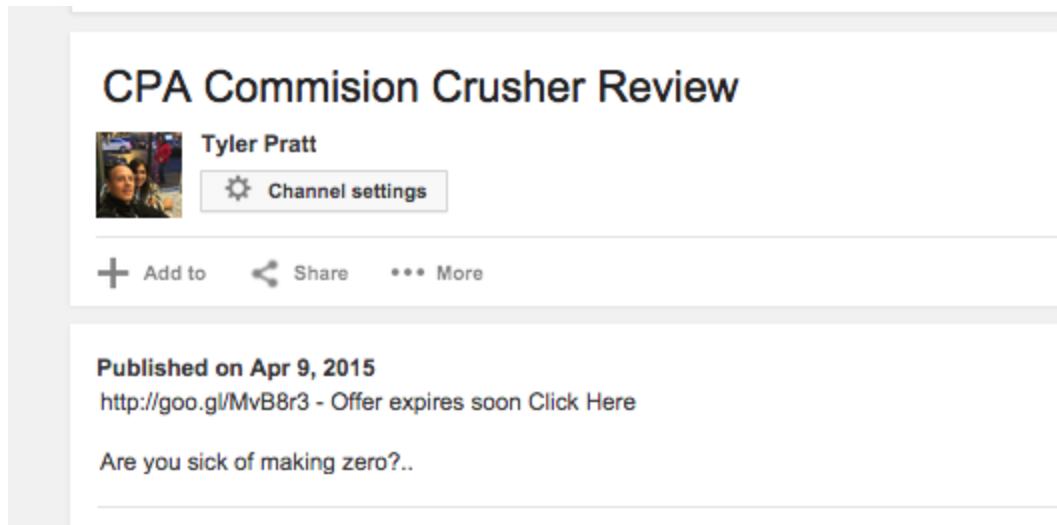

Solution (click here for the solution)

This formula is a basic sales copy but it works. It works so good that your ads will stand out from the crowd and get 50% + conversion rate.

Traffic Source 5

One of my long term traffic sources that just keeps bringing it is YouTube. Creating videos, uploading them and forgetting them works so good.

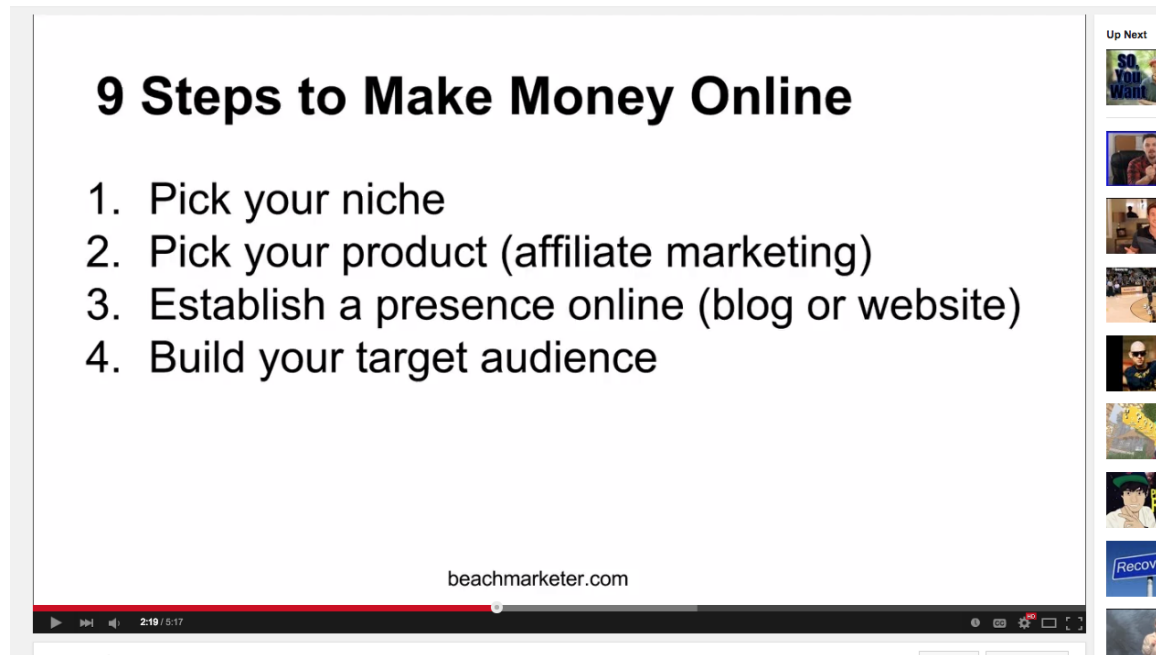

With a link in the description you will see huge traffic gains over time.

Youtube is the best Free source of traffic you can find.

But how would you go about getting Biz Opp traffic to your offer page?

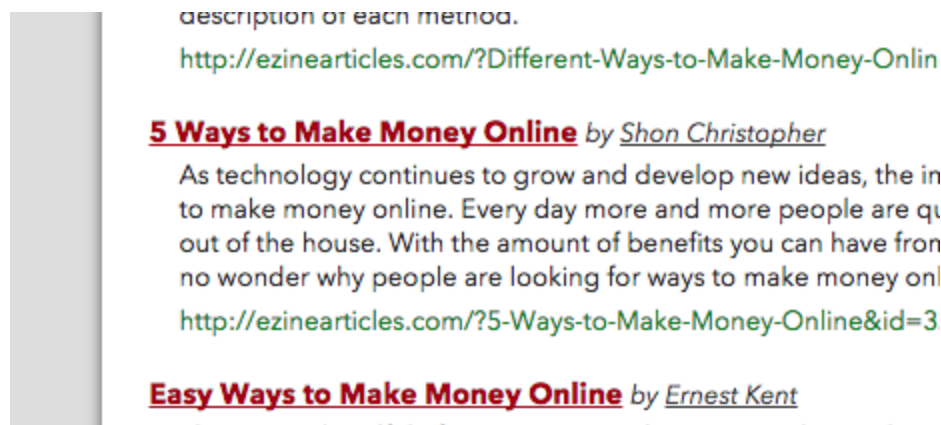

By crating value, do a screen shot of your computer and you talking with a PowerPoint presentation. Use camtasia, screenflow, or camstudio to capture your screen. People love to sit and watch videos on how to do stuff.

Teach others how to do Internet Marketing. If you don't know anything do this.

Head over to [ezinearticles](http://ezinearticles.com). Type in ways to make money online.

You will see hundreds of articles with the title 3 ways, 5 ways, 7 ways, 9 ways, to do stuff.

Read that article, use the # ways as your titles and create a PowerPoint presentation. Go through each title while recording your screen and in less than 15 minutes you have a very high quality video you can upload to YouTube.

At the end of your video tell people how to get more information from you. Say “Click the link below in the description to get my free report”

Then in the description below the video put in the link to your lead pages. And track it.. :)

Try and upload at least 3 videos each week. No your not going to get massive amounts of traffic the next day. But over time the traffic starts to build. One channel I have brings in 130 clicks per day, and I haven’t even uploaded a new video in a year.

Traffic Source 6

Your own email list is your best source of traffic. If you are new then you don't have a list. But if you are collecting emails from your squeeze page then you are building up the list super fast.

The In house list you build will be steady traffic you can always go to.

Autoresponders like [aweber](#) or [getresponse](#) let you setup automated emails. And they let you send out one time broadcast emails.

If you are on my list you know I like to send out fresh emails, almost daily that talk about either my life or stories about others.

Your entire goal with your email marketing from your list is to build a relationship with that list. Talk about your life, let people know what is up with you. Tell stories about your family or how you got your first job. Talk about how you first got started with Internet marketing.

Be creative and think of new stuff to talk about each day.

Give tips or how to stuff that will help others. If you don't know anything go learn something and then explain it to your subscribers.

Email marketing gives you instant traffic.

P.S at the end if your money maker.

If you sent an email that was of high value, put a P.S. "oh by the way I have this great product you should check out"

You're here to sell and if you have a great product that produces results, why not tell others.

And,,

Sometimes I don't even try to sell, just give value.

Traffic Source 7

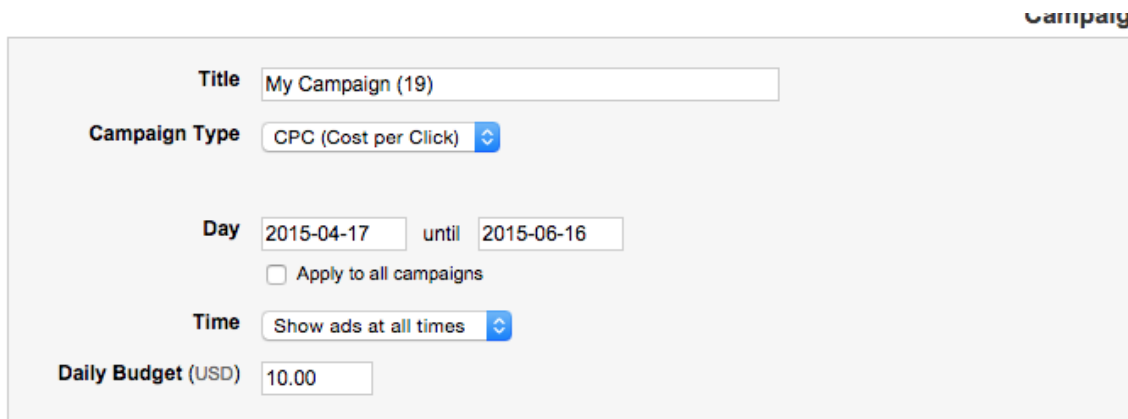

This is a real sleeper for a traffic source. What I mean is not many people know about it.

[Buzzcity](#) is a traffic network with a ton of mobile and website traffic. And the best part is you can get targeted Biz Opp traffic for 1 cent. Yes 1 cent per click.

That means you can build a list, or send traffic to your landing page for very little money.

The traffic is very high quality. Its funny how I never see any one talking about this source. But now you know and have a great source of traffic for cheap.

I personally spend \$10 per day on this traffic and it consistently brings in quality leads for me each day. And the back end CPA sales are amazing.

The image shows a screenshot of a campaign setup interface. At the top right, the word "Campaign" is partially visible. The form contains the following fields and options:

- Title:** A text input field containing "My Campaign (19)".
- Campaign Type:** A dropdown menu showing "CPC (Cost per Click)".
- Day:** Two date input fields. The first contains "2015-04-17" and the second contains "2015-06-16", separated by the word "until". Below these is a checkbox labeled "Apply to all campaigns" which is currently unchecked.
- Time:** A dropdown menu showing "Show ads at all times".
- Daily Budget (USD):** A text input field containing "10.00".

Find offers that have created banners and use them inside your buzzcity ads. 468X60 size banners seem to work the best for me.

Traffic Source 8

Biz Opp forums like warrior forum are a great source of traffic. Yes forum posting will get you leads everyday.

This is still one of the best free sources because you can target specific people.

Under each post you either create or respond to is your signature. In that signature you can put any link. The link you will put in there is your lead page.

The screenshot shows a forum post interface. At the top, a red header bar displays the timestamp "12th Apr 2015, 03:29 PM". Below this, the user profile for "selfdisciplineacademy" is shown, including the title "Advanced Warrior", a profile picture of a document with a bar chart, and statistics: "Join Date: 2014", "Location: United Kingdom", "Posts: 790", "Thanks: 0", and "Thanked 83 Times in 78 Posts". The main content of the post is a reply to a thread titled "Re: Made \$2750 this week". The reply text reads: "Congratulations! Wow, from just 117 subscribers? You should create a case study out of this! 😊". Below the text are three blue hyperlinks: "⇒ Tired Of Struggling To Get Traffic? Want More Targeted Traffic?", "Exposed: The Secret Traffic Source IM Guru's Use To Get Tons", and "Of Buyer Traffic! Yes, Share The Secret Now <=". At the bottom right of the post content are two buttons: "Quote" and "Multi". A second red header bar at the bottom of the post area shows the timestamp "12th Apr 2015, 04:07 PM".

Collect emails or send the traffic to your landing page to presell. Both are going to work with forum posting.

And you are not limited to just the warrior forum. Do a search on Google for “Internet Marketing Forum” or “Make Money Online forum”

Put any niche with forum at the end and you will get a list of forums to post. Just make sure to find the forums that allow a signature.

Conclusion

These are the best traffic sources you will find to start making a killing with CPA offers.

If you can, try and stick to just one, master it and then move on. They all will work with either building your list or preselling your offers.
