Jump Rampage Debuts on iTunes for iPhone and iPod Touch

Lewes, DE Feb 23, 2013 in [Games](#)

Jump Rampage is a story about what happens when an alien meets evil rabbits - and makes them angry. You are in control of a very jumpy alien who immediately faces trouble from all sides. Standing ruthlessly in his way are matrix-like evil rabbits, who dress in pink with tasteless sunglasses. These things are mean and they pack a punch, and must be avoided at all costs! You must jump rapidly, use jetpacks, grab coins, and steal red power shoes, or it's all over.

Hong Kong & New York City - Awabi Games is proud to announce Jump Rampage - now available in the iTunes App Store for iPhone and iPod touch for \$0.99.

WHAT IS IT:

Jump Rampage is a story about what happens when an alien meets evil rabbits - and makes them angry.

You are in control of a very jumpy alien who immediately faces trouble from all sides. Standing ruthlessly in his way are matrix-like evil rabbits, who dress in pink with tasteless sunglasses. These things are mean and they pack a punch, and must be avoided at all costs!

You must jump rapidly, use jetpacks, grab coins, and steal red power shoes, or it's all over. And here's a little secret - don't ever run into an evil rabbit without a good shield! Beware at all times: Jump Rampage is an iPhone experience that facilitates jump-based, coin-powered, Alien-To-Rabbit fight situations. Do not try this anywhere else, even if you have access to a real alien.

MORE DETAIL:

Tilt your iPhone to jump and fly, tap the screen to start the jetpacks, and beware of the awful pink bunnies. Without a shield, you will go down in flames!

Grab all the coins you can to get the weapons you need to defeat evil rabbits and navigate challenging platforms. Can't get past the evil rabbits? Check out the shop where powerups like jetpacks, coin magnets and shields will prepare you for battle!

Challenge your friends - compare scores, heights, and all the coins you've bagged. Go ahead - brag a little. It's all in good fun. Game Center Achievements and Leaderboards challenge even the hardest jumper. And we're Retina and iPhone 5 optimized.

And remember, don't make the evil rabbits angry. You won't like them when they're angry!
