## ONYX CAR COVERS 3 YEAR WARRANTY

**INDOOR cover** — The Onyx Car Cover is the Premium Cover for the Premium Sports Car. Made of a polyester blend that includes Lycra/Spandex, it creates the perfect combination of a Satin-like exterior feel with a luxuriously soft underside to pamper your Corvette's finish. The C6 and C7 Onyx cover will also fit widebody vehicles. The front & rear hems, mirror pockets and generation-specific patterns are tailored to your Corvette. Its stretchability results in a sleek, form-fitting look that is easy to slip on. Storage bag included!

## 2014-2019 aFe Momentum Pro 5R Cold Air Intake System for Stingray, Z51 & Grand Sport

Dyno-Proven Gains up to +18 HP & +22 Lbs. x Ft. TQ. Outflows Factory Intake by 28%. One-Piece XLPE Housing Seals to Fender: Clear Sight Window for Convenient Filter Inspection Without Disassembly. Washable & Reusable Pro 5R Air Filter for Maximum Performance. Premium T-Bolt Clamps & a Reinforced Coupler Provide a Secure Seal. aFe introduces the all new Momentum sealed intake system for the C7 with the V8-6.2L engine. This system is superior in every way, from the one-piece sealed housing, to the massive air filter, roto-molded tube w/ built-in resonance chamber and premium hardware. This system uses a CAD designed, dyno-tuned, roto-molded intake tube and housing to achieve maximum power gains while maintaining a perfect fit. This is a direct bolt-on kit & requires no cutting or drilling on OEM parts. Unique One-Piece Housing w/ Sight Window: The one-piece sealed housing is used to eliminate the use of multiple components and ensure the coolest air intake charge available. The roto-molded housing is made out of black cross-linked polyethylene and mounts directly into the factory location on the fender well to capture the coolest air available from the factory intake tract. Roto-Molded Tube: This system uses a CAD designed, dyno-tuned, roto-molded intake tube to achieve maximum power gains while maintaining a perfect fit. This tube has a built-in resonance chamber to catch unwanted air intake noises. Two billet aluminum fittings are mounted on the tube to provide a perfect connection with the factory vacuum lines. Massive Cone Air Filter: This Momentum intake system was designed around the largest filter possible to allow maximum performance & filtration. The Pro 5R performance air filter features 5-layers of progressively finer mesh cotton gauze oiled media and is constructed with 100% polyurethane frame for long life and multiple cleaning cycles.

**52743** 14-19 aFe Momentum Pro 5R Cold Air Intake System for Stingray, Z51 & Grand Sport\* ..... **\$523<sup>99</sup>**

## 2015-2019 aFe Momentum Pro 5R Cold Air Intake System - Oiled Filter - Z06

Dyno-Proven Gains up to +46 HP & +39 Lbs. x Ft. TQ. Outflows Factory Intake by 25%. Unique (Patent Pending) Filter-to-Housing Interface for Easy Installation. Washable & Reusable Pro 5R Air Filter for Maximum Performance. One-Piece Housing Features Clear Sight Window for Convenient Filter Inspection Without Disassembly. Premium T-Bolt Clamps & a Reinforced Coupling Provide a Secure Seal. Unique One-Piece High Quality Housing w/ Sight Window: The simple yet elegant design of the one-piece sealed housing makes installation a snap. It features our patent pending filter-to-housing interface. A large clear sight window allows for filter inspection without removal of the air box. The roto-molded housing is made out of black cross-linked polyethylene and mounts directly into the factory location on the fender well to capture the coolest air available from the factory intake tract. Flow Optimized Tube: This system uses a high quality plastic CAD designed, dyno-tuned, roto-molded intake tube to achieve maximum power gains while maintaining a perfect fit. One billet aluminum fitting is mounted on the tube to provide a perfect connection with the factory vacuum line. Large 5-Layer Performance Air Filter: This Momentum intake system was designed around the largest filter possible to allow maximum performance and filtration. This cone filter has a massive 7" oval flange and is 8-1/2" tall Pro 5R filter media. The Pro 5R performance air filter features 5-layers of progressively finer mesh cotton gauze oiled media and is constructed with 100% polyurethane frame for long life and multiple cleaning cycles. Premium Hardware: Premium stainless steel T-bolt clamps and a reinforced silicone hump coupling are used for strength and durability while also providing the most secure installation available. Momentum intakes are designed with fewer parts for a quick and simple installation.

## 2005-2007 AIRAID SYNTHAMAX COLD AIR DAM INTAKE SYSTEMS - LS2 - 2005-07 BASE

Increases Horsepower & Torque. Replaces Stock Air Box, Air Filter & Intake Tubing. Cold Air Dam Panels Block Out Hot Engine Bay Air. Easy to Install Using Commonly Available Tools. Easy to Clean Oil-Free Synthetic Air Filter. Washable & Reusable Air Filter Media. The Airaid Cold Air Dam (CAD) Air Intake is engineered to give your engine larger amounts of cooler air to produce more horsepower

and torque. The intake system retains the original location of the air filter but delivers a big boost with the addition of a huge open-element air inlet protected by cold air dam panels. This helps to provide a steady, free-flowing supply of cooler outside air into your engine. The panels mount in the factory air box location and utilize any factory cold air inlet ducts that are present, while adding additional cold air passages to the filter. The panels also keep the filter isolated from the hot engine compartment air by sealing to the underside of the hood via blade-style weather stripping. This CAD System utilizes a replacement low-restriction intake tube. The 360-degree conical Airaid premium air filter is washable and reusable, less restrictive than traditional paper, and assures superior filtration. The Airaid Cold Air Dam Air Intake is easy to install with common tools.

## 2006-2013 Airaid SynthMax Cold Air Dam Intake Systems - LS7 & LS3

Increases Horsepower & Torque. Replaces Stock Air Box, Air Filter And Intake Tubing. Cold Air Dam Panels Block Out Hot Engine Bay Air. Easy To Install Using Commonly Available Tools. Easy To Clean Oil-Free Synthetic Air Filter. Washable & Reusable Air Filter Media; The Airaid Cold Air Dam (CAD) Air Intake is engineered to give your engine larger amounts of cooler air to produce more horsepower and torque. The intake system retains the original location of the air filter but delivers a

big boost with the addition of a huge open-element air inlet protected by cold air dam panels. This helps to provide a steady, free-flowing supply of cooler outside air into your engine. The panels mount in the factory air box location and utilize any factory cold air inlet ducts that are present, while adding additional cold air passages to the filter. The panels also keep the filter isolated from the hot engine compartment air by sealing to the underside of the hood via blade-style weather stripping. This CAD System utilizes a replacement low-restriction intake tube. The 360-degree conical Airaid premium air filter is washable and reusable, less restrictive than traditional paper, and assures superior filtration. The Airaid Cold Air Dam Air Intake is easy to install with common hand tools.

## 2014-2019 Airaid MXP Intake - LT1

**52760** — Airaid MXP Air Intake System represents the ultimate in Airaid's cold air induction systems. It delivers higher levels of horsepower and acceleration gains for specific Chevrolet Corvette models. This air intake starts with a replacement two-piece roto-molded air box that addresses all the shortcomings of the restrictive factory design. Housed inside the air box is an Airaid premium air filter for outstanding air flow and filtration. Air is directed through a new air intake tube constructed of cross-linked, high-density polyethylene that is designed using extensive computer modeling to maintain proper mass air flow readings and calibration. This MXP Air Intake System incorporates a heat shielded air intake tube as well as a built-in velocity stack, which further promotes airflow, and has provisions for the factory mass air sensor and PCV lines. What this all means is that you get a simple-to-install, yet extremely sophisticated system to increase air flow while maintaining proper air-to-fuel ratios. This eliminates the need for recalibration after installation. Just bolt it on and go!

## 2006-2013 aFe Pfadt Tri-Y Long Tube Header & X-Pipe - Base / Z06 / ZR1 / 427

Constructed from Mandrel Bent 1-7/8" 16-Gauge 304 Stainless-Steel Tubing. Tri-Y Designed Headers with 3" Collector. Retains Factory O2 Sensors. Optimized Tube Lengths Improve Flow & Performance. 100% Hand TIG Welded Construction Ensures Optimal Strength & Durability. 3" Inlet / 3" Outlets Connect Directly to OE Mounting Locations. Heavy-Duty V-Band Flanges for a Leak-Free Seal. 100% TIG welded by certified craftsmen for race proven strength & durability. TIG welding provides the strongest welds reducing stress cracks. Tri-Y Design: Paired opposite firing cylinders with equal, specifically tuned primary lengths maximizes scavenging and increases torque throughout the powerband. 304 Stainless Steel Tubing: High grade stainless tubing with a uniform brushed finish provides a beautiful look and high resistance to corrosion. Retains Factory O2 Sensors: aFe POWER has designed this system to retain all your factory sensors for a hassle free installation. Also included are extensions for a simple plug and play installation. Laser Cut Header Flange: High quality laser cut header flanges provide superior sealing at the head surface. V-Band Connection to X-Pipe: Machined flanges & USA made stainless V-Band clamps provide a simple to install leak-free joint between the headers and X-pipe. Factory Mounting Locations: A direct bolt-on system which requires no cutting or drilling to provide a hassle-free installation. Mandrel Bent Tubing: This system is constructed of mandrel bent, stainless steel brushed tubing for maximum performance, corrosion resistance and strength, eliminating cracking. Hi-Flow Cats: This system includes dual, hi-flow, 200 CPSI, stainless steel catalytic converters for maximum flow and performance.

## 2005-2013 S-TYPE II AXLE-BACK EXHAUST

The S-Type II systems use the latest muffler design to eliminate sound frequencies that are often associated with resonance or drone. BORLA Cat-Back & Axle-Back exhaust systems feature patented straight-through & multi-core technology to unleash hidden horsepower. Increased exhaust velocity adds power, driving excitement, fuel economy and the distinctive BORLA Sound of Power respected by motoring enthusiasts everywhere. Each system is built from premium, high-quality T-304 austenitic stainless steel, superior to T-400 series knockoffs (such as 409), to give you the absolute best in performance and durability. Ultra-smooth mandrel bends ensure maximum flow and power. Precision computer-controlled CNC manufacturing ensures an accurate fit. Note: Eliminates NPP Dual Mode Exhaust Valves.

BORLA Cat-Back and Axle-back exhaust systems feature patented straight-through and multi-core technology to unleash hidden horsepower. Increased exhaust velocity adds power, driving excitement, fuel economy and the distinctive BORLA Sound of Power respected by motoring enthusiasts everywhere. Each system is built from premium, high-quality T-304 austenitic stainless steel, superior to T-400 series knockoffs (such as 409), to give you the absolute best in performance and durability. Ultra-smooth mandrel bends ensure maximum flow and power. Precision computer-controlled CNC manufacturing ensures an accurate fit. Just what you'd expect from the world's most experienced (and most winning) exhaust brand.

## 2005-2013 AMERICAN RACING HEADERS - LONG TUBE HEADERS & X-PIPE - BASE & GRAND SPORT

With race inspired technology built into every system, you're looking at the very best the performance exhaust industry has to offer. American Racing Headers C6 systems are available with 1-3/4", 1-7/8" or 2" primaries and a 3" x 3" catted or non-catted x-pipe mid-section. Of course, these are manufactured using the highest quality 304 stainless steel available and require no modifications to install. All systems come standard with merge collectors and scavenger spikes. American Racing Headers also use the highest quality and best flowing metallic substrate catalytic converters available and all systems assemble with Grade 8 hardware and Accuseal stainless steel band clamps. Note: All American Racing Headers Exhaust Systems are for off-road use only.

## 2014-2019 AMERICAN RACING HEADERS - LONG TUBE HEADERS & X-PIPE - ALL MODELS

American Racing Headers C7 line is available with various options that allow you to fine tune your system to match your upgrades. ARH C7 systems set the bar for quality, performance, fit and ease of installation. Options include 1-3/4" 1-7/8" or 2" primaries, merge collectors with scavenger spikes, ARH exclusive x-pipe forward location and optional "severe duty" 49 state legal cats. The system ends at the rear axle, and is a direct fit to stock or aftermarket axle-backs. This system will surpass your expectations in quality and performance. Expect a quick and easy install with Grade 8 hardware and flat out racing gaskets. Note: All American Racing Headers Exhaust Systems are for off-road use only.

## 2014-2019 ARH Mid Length Headers & X-Pipe

For the C7 American Racing Headers offers a second, more emissions friendly option aptly named our 1-3/4" mid length header system. This mid length kit allows you to reuse the secondary set of factory cats. The objective with this system is to improve performance yet eliminate the possibility of an engine light (without a tune). The kit is a direct bolt-in made entirely in the USA using 304 stainless steel throughout. Expect a quick and easy install with Grade 8 hardware and flat out racing gaskets. Note: All American Racing Headers Exhaust Systems are for off-road use only.

## 2005-2007 E-FORCE STAGE 1 STREET LEGAL SUPERCHARGER KIT LS2

The Edelbrock Supercharger Stage 1 Street System for 2005-07 Chevy Corvettes increases the performance of your LS2 engine to 554 horsepower and 515 ft-lbs of torque at the crank. The core of this system is the Eaton Gen Vi 2300 TVS rotating assembly with a four-lobe design with 160 degrees of twist for maximum flow, minimum temperature rise and quiet operation for excellent drivability. These superchargers were also designed with an integrated bypass valve to help eliminate parasitic loss under light throttle, improving mileage potential. The unique and efficient inlet configuration results in a shorter, less restrictive intake path for improved airflow, without the need for a jack-shaft. Keeping the air cool is a high-capacity air-to-water intercooler and low-temp heat exchanger. This Edelbrock system is 50-state emissions legal. The supplied tune is intended for completely stock vehicles with the exception of a cat-back exhaust. Note: Edelbrock places a 3 year warranty on each kit that is valid only if installed by the following: new car dealer, Edelbrock certified installer, automotive service excellence (ASE) certified technician at licensed automotive repair facility.

## AFe CONTROL JOHNNY O'CONNELL SUSPENSION PKG

Package Tuned by Legendary Corvette Racer, Johnny O'Connell. Bolt-On Shocks Keep the Car Planted & Remove Harsh Ride Characteristics. CNC-Bent 4130 Chromoly 35mm Front Bar and 29mm 3-Way Adjustable Rear Bar. Includes Polyurethane Bushings. Heavy Duty Rod End Links and CNC Machined Articulation Spacers. aFe Control is proud to introduce the Johnny O'Connell Stage 1 Package for the 2005-2013 C6 Corvette. Tuned by legendary 4 time Le Mans winner, Johnny O'Connell. This package features sway bars and shocks designed to provide your Corvette with racecar level road holding ability and the street-ability you would expect from your daily driver. The 4130 Chromoly tubular sway bars, include polyurethane bushings, heavy duty end links and come in Johnny O's signature yellow. The rear bar is 3 way adjustable, allowing for fine tuning the suspension. Perfectly matched to the Johnny O'Connell shock absorbers, the Johnny O'Connell stage 1 Package will make for a complete transformation in your C6 Corvette's performance, offering flatter, faster cornering and added car control. Perfectly balanced, aFe products will have your Corvette handling just as good at the track as it will around town. These shocks are a bolt-on solution for your Corvette and are tuned by Johnny O'Connell to the exact specifications needed for a perfect balance between performance and smooth ride. O.E. Style Fitment: All O.E. mounting points have been retained for durability and a hassle-free installation. Revised Damping Curve: The damping curve has been completely revised, removing the harsh, high speed ride characteristics associated with OEM dampers, while offering increased "platform" to keep the car planted in turns or transition inputs like slalom or road courses. Note: Some vehicles equipped with "Mag Ride" electronic shock absorbers will require an additional delete kit, part #52746.

## AFe CONTROL SUSPENSION LOGIC ESD - GM GEN 3

Simple Plug-&Play Installation. Eliminates Suspension Control Check Engine Light. Anodized Extruded Aluminum Heat Sinks. GM Style Metri-Pack Connectors. Abrasion Resistant Braided Wiring Shields. aFe Control's ESD (Electronic Shock Delete) is a simple plug and play module that eliminates the suspension check engine light allowing installation of aftermarket shocks or coilovers on vehicles previously equipped with GM "MagneRide" electronic shock absorbers. A body control module check engine light will limit vehicle speeds to 80mph if not bypassed. This ESD kit is sold in sets of four, one for each shock, and features anodized extruded aluminum heat sinks, GM style Metri-Pack connectors and abrasion resistant braided wiring shields.

## AFe CONTROL PFADT SERIES DRAG RACING REAR SWAY BARS

4130 Chromoly 31.75mm 3-Way Adjustable Rear Bar. Ultra-Lightweight Anodized 7050-T7 Aluminum Arms. Includes 6061-T6 Aluminum Solid Pillow Block Rear Bushing Mounts and Solid Nylon Bushings. Lightweight 3/8" Rod End End links, Aluminum Turn Buckles and Articulation Spacers. Direct Fit

Installation Requires No Modifications. aFe Control is proud to introduce the PFADT Series Drag Racing Rear Sway Bar for the 2005-13 C6 Corvettes. The PFADT Series Drag Racing Rear Sway Bar was designed for those that are looking for the ultimate drag race sway bar for their Corvette. The addition of a stiff rear sway bar reduces the independence of the rear suspension increasing traction of both rear tires. The PFADT Series Drag Racing Rear Sway Bar is the ultimate upgrade for improving launch performance. This 3-piece sway bar utilizes a 4130 Chromoly torsion bar with splined ends and a clear zinc finish for corrosion resistance and durability. The kit features ultra-lightweight 7050-T7 aluminum arms that are anodized orange and feature broached splines with laser etched adjustment markers giving you 3 different sway bar rate combinations. The adjustable end links are designed to be lightweight and strong while allowing maximum articulation. The use of a turnbuckle allows precise corner balancing without having to disconnect the end link from the car. Included in the kit are solid 6061-T6 pillow block bushing mounts and Moly (Molybdenum) impregnated nylon bushings. The kit comes complete with all necessary hardware & centering rings. The PFADT Series Drag Racing Rear Sway Bar was designed to be the perfect addition to Corvette race cars and is not intended to be driven on the street, or public roads.

**52723** 05-13 aFe Control Pfadt Series Drag Racing Rear Sway Bar .....**\$1179<sup>99</sup>**

## AFe CONTROL PFADT SERIES RACING SWAY BARS

Provides Flat Cornering & Increased Contact Patch for Higher Cornering Force; 4130 Chromoly 38mm 3-Way Adjustable Front Bar / 31.75mm 3-way Adjustable Rear. Ultra-Lightweight Anodized 7050-T7 Aluminum Arms. Includes High Durometer Polyurethane Bushings. Lightweight 3/8"

Rod End End links, Aluminum Turn Buckles & Articulation Spacers. Direct Fit Installation Requires No Modifications. aFe Control is proud to introduce the PFADT Series Heavy Rate Racing Sway Bars for the C6. The PFADT Series Racing Sway Bars are designed for those that are looking for the ultimate Corvette racing sway bars. These 3-piece sway bars utilize a 4130 Chromoly torsion bar with splined ends and a clear zinc finish for corrosion resistance & durability. Both front and rear bars feature lightweight 7050-T7 aluminum arms that are anodized orange and feature broached splines and laser etched adjustment markers. Both front & rear sway bars are 3 position adjustable giving you 9 different sway bar rate combinations. The adjustable end links are designed to be lightweight and strong, while allowing maximum articulation. The use of a turnbuckle allows precise corner balancing without having to disconnect the end link from the car. The kit comes complete with all necessary hardware, centering rings and polyurethane bushings. For track only applications, we also offer solid pillow block bushings and mounts. The PFADT Series Racing Sway Bars were designed to be the perfect addition to Corvette race cars. You will find a new level of responsiveness and cornering grip that was never before possible.

### aFe CONTROL JOHNNY O' CONNELL BLACK SERIES SINGLE ADJUSTABLE COILOVER SYSTEM

Ride Height Adjustable/Dampening Adjustable for Rebound & Compression. Hard Anodized 6061-T6 Aluminum Bodies for Lightweight and Strength. Mono-Tube Construction Utilizes an Internal Floating Piston for More Predictable, Consistent Handling. BOA (Ball on Axis) Upper Mount System's Completely Sealed Mono-Ball Design Makes for a Better Ride and Quiet Operation. aFe Control is proud to release the Johnny O'Connell Black Series coilover system for the 2005-13 C6 Corvette. Tuned by legendary Corvette racer, Johnny O'Connell, the Black Series single adjustable coilovers are tuned more aggressively than the Featherlight generation coilover, making it an excellent choice for Corvettes that are driven on the track or are looking for that extra edge. Designed as a complete solution, the Black Series coilovers will allow you to remove the transverse leaf springs and OE shocks on your Corvette, yielding a true independent suspension which eliminates the "crosstalk" and harsh ride that the OEM suspension is known for. Both ride height and damping are easily adjustable in this design allowing for fine tuning your Corvette's stance and ride quality. Packed with features, the coilovers are precision CNC machined from 6061-T6 Aluminum hard anodized. The mono-tube construction utilizes a floating piston to separate the oil and nitrogen gas, allowing for predictable handling and a consistent feel. The CIRC (Concentric Integrated Remote Canister) System more than triples the gas volume over a standard coilover resulting in consistent operation over a wide temperature range and throughout the stroke. Integrated into the CIRC head is the BOA (Ball on Axis) upper mount, which is a completely sealed design allowing full articulation of the Corvettes suspension. It offers a durable, quiet mounting solution without travel loss as is common in other clevis style mounting systems. Some vehicles equipped with "Mag Ride" electronic shock absorbers will require an additional delete kit, part #52746.

### aFe CONTROL PFADT SERIES FEATHERLIGHT SINGLE ADJUSTABLE DRAG RACING COILOVER SYSTEM

Ride Height Adjustable/Dampening Adjustable for Rebound and Compression. Hard Anodized 6061-T6 Aluminum Bodies for Lightweight and Strength. Mono-Tube Construction Utilizes an Internal Floating Piston for More Predictable, Consistent Handling. BOA (Ball on Axis) Upper Mount System's Completely Sealed Mono-Ball Design Makes for a Better Ride and Quiet Operation. aFe Control is proud to release the PFADT Series, Featherlight Adjustable Drag Racing Coilover System for the 2005-13 C6 Corvette. The Drag Racing spec coilovers are specially tuned for the needs of drag racers and feature special valving and spring rates. Designed as a complete solution, the Featherlight Coilovers will allow you to remove the transverse leaf springs and OE shocks on your Corvette, yielding a truly independent suspension which eliminates the "crosstalk" and harsh ride that the OEM suspension is known for. Both ride height and damping are easily adjustable in this design allowing for fine tuning your Corvette's stance and ride quality. Packed with features, the coilovers are precision CNC machined from 6061-T6 Aluminum hard anodized. The mono-tube construction utilizes a floating piston to separate the oil and nitrogen gas, allowing for predictable handling and a consistent feel. The CIRC (Concentric Integrated Remote Canister) System more than triples the gas volume over a standard coilover resulting in consistent operation over a wide temperature range and throughout the stroke. Integrated into the CIRC head is the BOA (Ball on Axis) upper mount, which is a completely sealed design allowing full articulation of the Corvettes suspension and offers a durable, quiet mounting solution without travel loss as is common in other clevis style mounting systems. The inverted design places the majority of the mass on the sprung side of the chassis allowing the control arms and outboard components to react quicker and easier without the additional weight of the coilover itself. Note: Some vehicles equipped with "Mag Ride" electronic shock absorbers will require an additional delete kit, part #52746.

## UNIVERSAL CMOS CAMERAS

**#57064** — This low-cost aftermarket Complementary Metal Oxide Semiconductor - CMOS - camera is ideal if you're looking to save some money and for a non-OEM solution. It utilizes a unique multi-mount mounting system that allows for horizontal or vertical camera mounting. The image can be flipped during installation to accommodate both mounting positions. This camera features parking gridlines and as an added bonus. These parking lines can be turned off during installation.

**#57064**

**#57065** — This low-cost aftermarket CMOS camera is ideal if you're looking to save some money and for a non-OEM solution. It utilizes a unique snap-in mounting system that requires minimal surface area to attach the camera. This camera features parking gridlines and as an added bonus, these parking lines can be turned off during installation. The camera also features image reversing for forward mounting applications that can be turned on during installation as well.

**#57065**

**#57066** — This low-cost aftermarket CMOS camera is ideal if you're looking to save some money and need a reliable camera. It features two unique mounting options; it can be installed behind the license plate or on a flat vehicle surface with minimal surface area requirements. This camera provides superior night vision thanks to the infrared lights on both sides of the camera. This camera features parking gridlines and as an added bonus, these lines can be turned off during installation. When using parking lines, it is recommended to mount the camera on the centerline of the vehicle.

## UNIVERSAL SNAP-IN ADJUSTABLE BULLET CAMERA

This camera is perfect for mounting on flat surfaces where traditional license plate or lip mount cameras would not work. A small hole is all you need to mount this camera onto the vehicle. A fully adjustable camera head allows the driver to swivel the camera into a position that provides the optimum view for their particular vehicle. This camera features parking gridlines and as an added bonus, these parking lines can be turned off during installation. The camera also features image reversing for forward mounting applications that can be turned on during installation as well.

## CURB ALERT SENSOR

**#57023** — With a Curb Alert™ parking sensor, you'll no longer have to worry about damaging your vehicle's front bumper when pulling up to a curb or approaching the end of a steep driveway. Using Infrared LED technology, the Curb Alert curb sensor will reliably detect when you are getting too close to a curb and warn you with a short series of audible beeps, helping you avoid expensive damage to your vehicle's front end.

## CAN DECODER FOR GM

Tapping into the electrical wiring system of modern vehicles can be problematic. These wires can be hard to find and mistakes can lead to expensive repairs. Yet modern Safety Add-on Products like Radar Blind Spot and 360 Vision often need multiple vehicle signals to work. That's why we developed the Brandmotion CAN Decoder - an easy tool for turning discrete CAN signals into 12-volt outputs in a single location. This reliable data transfer technique is perfect for installing Brandmotion safety products in less time and with less fear.

|              |       |                         |                           |

| <b>57058</b> | 14-19 | Can Decoder for GM..... | <b>\$164<sup>99</sup></b> |
|--------------|-------|-------------------------|---------------------------|

## PARKING SYSTEM - SWITCHABLE TO FRONT OR REAR

Avoid common backup accidents! Brandmotion's Switchable Front or Rear Parking System can be installed on any vehicle - car, SUV or truck. Distance readout is shown on LED display that can be installed conveniently on the vehicle dash, or inverted for headliner or rear vehicle mounting. An audible tone increases in frequency as objects are approached. Sensors mount into the front or rear bumper with integrated rubber isolators to improve performance on steel bumpers. Special angle mounts allow sensors to work on all vehicles types. Sensors have adjustable sensitivity to avoid false triggers due to tow hitches or spare tire carriers. Sensors come in black and can be easily painted.

## RADAR BLIND SPOT SYSTEM

This is the one retrofit Radar Blind Spot monitoring and detection system that works like an original equipment-based system. It works closer to the systems found on new vehicles than any other system available. Newly updated and improved from our original system, Brandmotion's radar-based system works with any vehicle with plastic fascias (all bumpers except metal pickup truck bumpers) and offers the only system based on automaker-validated original equipment components, resulting in true OEM-like fit, finish and performance. Brandmotion offers the first aftermarket solution to include cross traffic detection as well as the first system to eliminate 95% of false triggers common in other systems. The system uses CAN data to accurately obtain vehicle speed and is compatible with all vehicle makes and models 2005-current. Includes all necessary mounting hardware including under rear fascia sensor mounting brackets.

## FREEDOMCHARGE MAX UNIVERSAL QI WIRELESS CHARGING KIT

FreedomCharge MAX makes charging your phone even easier. The updated triple coil allows for charging through thick cases including OtterBox®. FreedomCharge MAX uses the wireless charging standard, Qi, to keep your phone charged without the hassle of plugging it in. This is a universal vehicle installation kit that can be cut to fit most any vehicle phone storage tray area. The system works by using inductive charging technology to allow your smartphone to charge without connecting a charger. No longer will you have to search for your charger and orient it the correct way just to plug in your phone. Add a new level of convenience to your car and keep your eyes on the road instead of fumbling with a tangled mess of cords.

**57063** 05-20 FreedomCharge Power Point T-Harness - for hardwiring to a vehicle's 12 volt power supply..... **\$38<sup>99</sup>**

## UNIVERSAL CENTER ARMREST WIRELESS CHARGING

Seamlessly integrate wireless charging into your vehicle's armrest. Allows phone to be visible and accessible (not intended for use while driving). This kit will fit 90% of vehicles armrests, be sure to check armrest dimensions to make sure it is compatible with product (4.8" x 7.95" x .737"). FreedomCharge uses the wireless charging standard, Qi, to keep your phone charged without the hassle of plugging it in. This is a universal vehicle installation kit that can be cut to fit most any vehicle phone storage tray. The plastic substrate and rubberized phone mat can be cut using household tools - scissors and a utility knife. The system works by using inductive charging technology to allow your smartphone to charge without connecting a charger. No longer will you have to search for your charger and orient it the correct way just to plug in your phone. Add a new level of convenience to your car and keep your eyes on the road instead of fumbling with a tangled mess of cords.

## HAWK BRAKE ROTORS

Superior automotive casting material. Design & performance characteristics validated through extensive dyno testing. CNC programmed balanced. Precision milled slots to significantly reduce harmonic resonance issues. Maintains a clean pad surface and expels away debris. Coating barrier applied with superior corrosion resistance that ensures quick and easy bed-in that resists galling.

### CALIPER COVER SETS

Our Caliper Covers are a car accessory designed and manufactured specifically for your Corvette to cover up and hide those ugly brake calipers. These aluminum caliper covers are finished with a high-quality powder coat. Includes a set of 4 caliper covers and stainless-steel fastening clips. Made with 6061-T6 Aerospace Grade Aluminum. Powder Coated for Durability. Easy Installation. No glue, adhesives or special tools required. Reduces brake dust and dissipates brake heat. Made in the USA.

## REAR DIFFUSERS

We proudly offer C6 Rear Diffusers made by APR Performance. APR Performance Rear Diffusers integrate with the rear bumper area to reduce overall lift and drag. Formed in the autoclave at high temperatures, APR Performance Rear Diffusers are made from prepreg carbon fiber materials to be strong and lightweight. APR Performance Rear Diffusers are molded to fit factory rear bumpers and underbody areas. Mounting holes, and all necessary hardware are included with every APR Performance Rear Diffuser.

## ENGINE CAP COVER KITS

Each cap was designed to fit the OEM cap perfectly. You have the flexibility to use them as a slip on/off design. They can be left on 100% of the time and removed if needed. With the provided VHB adhesive disks, you can also attach them for a permanent bond making them one with the OEM cap. The 100% billet caps give you the flexibility to align the graphics as you like. Made in the USA.

## QUAD CRUISER EXHAUST SYSTEMS

T-304 stainless steel constructed 2.5" pipes reduce back pressure but still allow for quiet cruising with no drone. Refined, powerful sound with a more aggressive tone under heavy acceleration. Comes complete with stainless steel clamps and everything you need for a fast, easy installation. For even more performance, the 2005-2008 system can be paired up with the 2005-08 X-Style Crossover Pipe #51528.

- **Manufacturer's Million Mile Lifetime Warranty**
- **Slightly louder than stock**
- **Polished T-304 Stainless Steel Construction**
- **3.5" Twin Wall Round Angle Cut Polished Tips**

Exhaust Crossover Pipe

## 2005-2008 CORVETTE X-STYLE CROSSOVER PIPE

Get even more performance from your exhaust upgrade by adding this X-Style Crossover Pipe. This precision component balances exhaust pulses, therefore aiding in the ridding of waste gas from the cylinders. This scavenging effect allows for better air/fuel flow on intake, thus providing enhanced power delivery, as well as a smoother exhaust note. Installation of this component will require the cutting of stock pipe.

## FRAME

### UNDERGUARDS

Manufactured from 1/2" aluminum, Underguards mount under the C6 rocker panel area to protect the body from speed bump damage or damage from large objects in the road. They bolt to the frame rails in minutes with the supplied hardware and instructions. They also serve as permanent jacking points to eliminate the need for separate pucks. **A great investment that can prevent potentially costly body damage to your Vette.**

## 2005-2013 MORIMOTO XB LED TAILLIGHT SET - SMOKED

These New High-Performance XB LED taillights are compatible with all C6's. These complete taillight assemblies will swap directly in place of the original C6 taillights. They use all of the stock mounting points. Installation takes about 30 minutes. They work without any special wiring. These lights will plug into the factory connectors for the stock lights and each assembly includes all the necessary connectors, rubber seals and pigtails for a Plug-n-Play installation.

## 2005-2013 MORIMOTO XB LED HEADLIGHT SET

Morimoto's C6 Headlights produce a well defined beam pattern with a great amount of width, intensity and a proper distribution of light that will far out-perform even the C7's more modern setup. Plug-n-play wiring is easy! This LED projector headlight kit is designed to work on your C6 without any modifications. They will plug into the factory connectors for the stock headlights and each assembly includes all necessary connectors, rubber seals and pigtails for a true Plug-n-Play install.

## ADHESIVE PROMOTOR, CLEAR COAT & MORE

**Adhesive Promoter** - Promotes strong, even adhesion of topcoat material when repairing or refinishing plastics. Also works on most flexible or rigid plastics on painted surfaces.

**Clear Coat** - Protect your reconditioning work for years to come with our Interior Clear Coat. Covers your interior components with a smooth, protective finish and preserves your interior's color.

**Spray Adhesive** - Our high-tack Interior Spray Adhesive is easy to work with and produces a strong bond between hard parts and materials.

**Surface Prep** - Use our Surface Prep to remove dirt, oils and residue before priming. Fast drying and ready to paint in minutes.

|                |       |                         |                          |

**#43669** 2005-2011 Neoprene Seat Covers

**#43668** 2005-2011 Neoprene Seat Covers

## NEOPRENE SEAT COVERS

Add style, protection and comfort with fitted Neoprene Seat Covers! These neoprene covers provide a cooler seat in summer, a warmer seat in the winter and additional comfort from an extra layer of dense padding. They slip directly over your stock seats (standard or sport) in minutes. These covers will also work with the Side Airbags!

**ASTORIA Gloss Black with Mirror Cut Face**

**ASTORIA Matte Black**

## ASTORIA WHEELS BY CRAY

The all original Astoria aftermarket alloy wheel is made exclusively to fit Corvettes. A motorsport inspired pattern formed of multiple spokes are dissected into five sections to give the Astoria an explosion of distinctive taste and personality. With no other wheel like it on the market the Astoria brings a fresh look to the table while maintaining a classic feel much like the reinvention of the Corvette in the C7 series. Constructed from advanced rotary forged technology, the Astoria is made for lightweight rotational mass & sturdy structural integrity. The Astoria rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

## EAGLE WHEELS BY CRAY

A classic deep dish mesh wheel design has always looked incredible on a Corvette. However, there has yet to be an available deep lip design available for the C7. The Cray Eagle aftermarket alloy rim revitalizes the deep lip mesh look for the 21st century fitting all generations of Corvette including C4, C5, C6 Grand Sport, C6 Z06, C7 Stingray & Z51. Sizes for Eagle range from 18x9 up to 20x12.5 with lip sizes ranging from 1.5" to 2.6" depending on front or rear sizes. Wheel bolt pattern: 5-120.65.

**MANTA Hyper Silver**

## MAKO WHEELS BY CRAY

The Mako Shark is the fastest of its species and is most notably recognized by its sharp snout much like its vehicular counterpart in the Corvette series. Suitably named, the Cray Mako aftermarket alloy wheel features a daggering multispoke design latching onto one of the fastest road vehicles. Taking a bite into the details are deadly sharp chamfers along the inner lip shaving off unnecessary weight and adding aesthetic refinement. Mako is made from advanced rotary forged technology creating a lighter weight wheel for reduced rotational mass. The Mako rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

**SPIDER Gloss Black**

**SPIDER Matte Black**

**SPIDER Silver with Mirror Cut Face**

## SPIDER WHEELS BY CRAY

A black widow may have eight legs, but Cray's new Spider Corvette wheels have ten, eerily articulated from the deeply recessed hub to the very edge of the lip. Rather than hide the formidable Corvette brake rotor and caliper assembly, this open, "see through" design frames it. It is a design made possible by our highly advanced manufacturing technology known as rotary forging. Rotary forging is a process that significantly strengthens the aluminum alloy, permitting Spider's graceful, arachnid spokes. Rotary forging also produces a markedly lighter wheel than conventional processes and weight is always the enemy of performance. Eighteen to 20 inch variations of Cray Spider Corvette rims ensure compatibility with C4, C5, C6 Grand Sport, Z06, C7 Stingray & Z51 'Vettes. Argue with yourself over the Matte Black Finish, Silver with a Mirror Cut Face or Gloss Black with a Mirror Cut Face. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

### **Michelin Pilot Sport A/S 3+**

The Pilot Sport A/S 3+ includes a W- and Y-speed rated Ultra High Performance All-Season tire member of Michelin's Pilot family of low profile, high-speed tires. These tires were developed for the drivers of high-end sports cars, sporty coupes and sedans looking for total performance. The Pilot Sport A/S 3+ tire is designed to provide Michelin's highest level of ultra-high all-season performance, emphasizing dry road handling & wet road grip with balanced all-season traction for occasional light snow.

### **Michelin Pilot Sport A/S 3+ ZP**

The Pilot Sport A/S 3+ ZP (Zero Pressure, Run Flat) is an Ultra High Performance All-Season run-flat tire member of Michelin's Pilot family of low profile, high-speed tires. These tires were developed for the drivers of high-end sports cars, sporty coupes and sedans looking for total performance combined with temporary continued mobility after a puncture has allowed a complete loss of air pressure. The Pilot Sport A/S 3+ ZP tire is designed to provide Michelin's highest level of ultra-high all-season performance, emphasizing dry road handling & wet road grip with balanced all-season traction for occasional light snow.

### **FIREHAWK INDY 500**

The Firehawk Indy 500 is Firestone's Ultra High Performance Summer tire developed for drivers of sports cars, sporty coupes and performance sedans who want to maximize sport driving pleasure through racing-inspired technology. The Firehawk Indy 500 is designed to deliver impressive performance in wet and dry conditions. Like all summer tires, Firehawk Indy 500 tires are not intended to be driven in near-freezing temperatures, through snow or on ice.

## WINGS

#52831 GTC 500 - C6 SPEC

## 2005-2013 Wings

All GTC Series wings feature an aerodynamic 3D designed airfoil shape to obtain the optimal balance of downforce. This design allows for a reduction in drag, yet maintains an ideal level of downforce. Computational Fluid Dynamics (CFD) analyses were performed on these wings to support validation of their aerodynamic design.

Each GTC Series airfoil is composed of lightweight and durable carbon fiber reinforced polymer (CFRP) or fiber reinforced polymer (FRP) composite materials. CFRP models contain prepregated woven carbon fiber sheets for superior strength and low weight. FRP models contain woven prepregated glass fiber sheets for high strength at reasonable weight. All CFRP and FRP airfoils are made using prepregated composite manufacturing processes (i.e. high-temperature autoclave and vacuum bagging) in high-quality aluminum molds.

Each GTC Series airfoil is composed of lightweight and durable carbon fiber composite. Supporting the carbon fiber airfoils are 10mm aircraft grade 6061 billet aluminum pedestals that come in a flat black powder coat finish.

## GURNEY FLAPS

Gurney Flaps are available for all APR Performance GTC Series (200/300/500) wings. These are super lightweight, made using pre-preg carbon fiber processes, and conform perfectly to the contours of the GTC series 3D airfoils. They are easily attached using the included double-sided tape.

# 2014-2019 CORVETTES

## AIR INTAKE

#47357

#47358

## AIR INDUCTION SYSTEM

These systems are 100% CAD designed for easy installation. Kits include a built-in filter minder for easy filter maintenance. Utilizes the biggest SuperNano-Web dry filter & is dyno-tuned for maximum power and no check engine lights.

- 47357** 14-19 Air Induction System - Evolution ..... **\$509<sup>99</sup>**  
**47358** 15-19 Air Induction System - Evolution C7 Z06 ..... **\$509<sup>99</sup>**

## AIR FILTER

- 51311** 14-19 Interior Cabin Air Filter ..... **\$38<sup>99</sup>**

## 2014-2019 aFe MOMENTUM Pro 5R Cold Air INTAKE SYSTEM FOR STINGRAY, Z51 & GRAND SPORT

Dyno-proven gains up to +18 HP and +22 Lbs. x ft. TQ. outflows factory intake by 28%. One-piece XLPE housing seals to fender. Clear sight window for convenient filter inspection without disassembly. Washable and reusable Pro 5R Air Filter for maximum performance. Premium T-bolt clamps and a reinforced coupler provide a secure seal. aFe is proud to introduce the all new Momentum sealed intake system for the C7 with the V8-6.2L engine. This system is superior in every way, from the one-piece sealed housing, to the massive air filter, roto-molded tube w/ built-in resonance chamber and premium hardware. This system uses a CAD designed, dyno-tuned, roto-molded intake tube and housing to achieve maximum power gains while maintaining a perfect fit. This is a direct bolt-on kit and requires no cutting or drilling on OEM parts. Unique one-piece housing w/ sight window is used to eliminate the use of multiple components and ensure the coolest air intake charge available. The roto-molded housing is made out of black cross-linked polyethylene and mounts directly into the factory location on the fender well to capture the coolest air available from the factory intake tract. Roto-molded Tube: This system uses a CAD designed, dyno-tuned, roto-molded intake tube to achieve maximum power gains while maintaining a perfect fit. This tube has a built-in resonance chamber to catch un-wanted air intake noises. Two billet aluminum fittings are mounted on the tube to provide a perfect connection with the factory vacuum lines. Massive Cone Air Filter: This Momentum intake system was designed around the largest filter possible for maximum performance and filtration. The Pro 5R performance air filter features 5-layers of progressively finer mesh cotton gauze oiled media and is constructed with 100% polyurethane frame for long life and multiple cleaning cycles.

- 52743** 14-19 aFe Momentum Pro 5R Cold Air Intake System for Stingray, Z51 & Grand Sport \* ..... **\$523<sup>99</sup>**

\* This intake system is not carb exempt at this time and is not legal for sale in California or use on vehicles registered with the California Department of Motor Vehicles.

## CALIPER COVER SETS

**MGP**  
CALIPER COVERS

Our Caliper Covers are a car accessory designed and manufactured specifically for your Corvette to cover up and hide those ugly brake calipers. These aluminum caliper covers are finished with a high-quality powder coat. Includes a set of 4 caliper covers and stainless-steel fastening clips. Made with 6061-T6 Aerospace grade aluminum. Powder coated for durability. Easy installation. No glue, adhesives or special tools required. Reduces brake dust and dissipates brake heat.

## Z06 BRAKE KITS FOR Z51 - PISTON UPGRADE

The Z06 standard Brake Upgrade Kit for Z51 vehicles features two-piece iron-slotted rotors measuring 370 mm x 34 mm in the front and 365 mm x 26 mm in the rear, with aluminum mono-block 6-piston and 4-piston fixed calipers, respectively. The front calipers feature vented pistons to help improve pad and brake fluid cooling, including pads 39% larger than those found on the stock Z51 vehicle. These calipers offer differentiated piston diameters of 30, 34 and 38 mm (leading to trailing) for even pad pressure for improved pad wear. Note: These brakes will not fit under stock base or Z51 wheels. Requires a minimum 4 mm wheel clearance between the outboard face of the caliper and the inner wheel spoke. This application is for off-road use only because the stock Z51 wheels do not fit over the Z06 brakes. Any failures occurring as a result of the non-production wheels selected by the customer would not be covered under the limited warranty of the brake kits.

## Brake Pads

Hawk Performance's HP Plus brake pad compound is ideal for Autocross and Track Day drivers looking for a high performance race compound that can take the heat of the track and get you home safely without having to change the pads. HP Plus utilizes a unique Ferro-Carbon, high-tech friction material that was developed and manufactured for sport driving in autocross, Solo II and "track day" applications. The Ferro-Carbon formulation offers lower wear rates and higher torque values than other competitive materials. Extremely high coefficient of friction makes HP Plus the perfect upgrade over stock for high performance streetcars used in autocross competition or that experience repetitive, heavy braking.

## STINGRAY Z51 FRONT & REAR BRAKE KIT

Upgrade the brakes on your 2014+ Stingray to the greater capability of the Z51 package. It features slotted rotors with diameter measuring 345mm in front and 338mm in the rear. This kit increases the

brake torque up to 57% on average. Also included are high-performance pads, which provide greater resistance to brake fade at track-condition rotor temperatures over 500°C. Requires spacers. Note: The mass dampers were removed from the stock Z51 pads in order to fit inside of the base Stingray wheels. Mass dampers are used to tune the system for brake noise, and therefore this kit is not warrantied for noise performance. For off-road use only.

## CARBON FIBER REAR DIFFUSERS

APR Performance Rear Diffusers integrate with the rear bumper area to reduce overall lift and drag. Formed in the autoclave at high temperatures and made from prepreg carbon fiber materials to be strong and lightweight. Known for weight savings and durability, these Diffusers are molded to fit factory rear bumpers and underbody areas. Mounting holes and all necessary hardware are included with every Rear Diffuser.

## COOLING

### STINGRAY SECONDARY RADIATOR

This radiator adds additional cooling capability to manual transmission Corvette vehicles that see regular track use. This kit includes the lines and hardware necessary to mount and plumb this additional radiator to the front of any manual transmission equipped Stingray. With the addition of this kit to a Z51 manual transmission Corvette, the radiator fluid temperatures are lowered 25°F. The engine oil temperature decreases by 15°F.

**55691** 14-19 Stingray Secondary Radiator..... **\$1019<sup>99</sup>**

### C7 Z06 600-WATT RADIATOR FAN

Developed to meet the Z06's track cooling requirements, this powerful cooling fan increases the fan speed over Stingray's 500-Watt system for greater airflow and enhanced cooling capability. It is a direct replacement for the Stingray cooling fan.

### LEVEL 2 - Z06 PERFORMANCE AERO KIT

Z06 owners can upgrade standard Z06 models (Level 1) and achieve Level 2 aerodynamics by adding the following performance elements: Carbon-Fiber Ground Effects & Z06-Style Exposed Carbon-Fiber Spoiler.

|              |       |  |                            |

| <b>55640</b> | 14-19 | Level 2 - Z06 Performance Aero Kit ..... | <b>\$4079<sup>99</sup></b> |
|--------------|-------|--|----------------------------|

### LEVEL 3 - Z06 PERFORMANCE AERO KIT

Add a new dimension of downforce to your Corvette Z06. This Level 3 Aero Package is an upgrade for Level 2-equipped Corvette Z06 models. It adds elements from the Z07 Performance Package, including larger end plates to the front splitter and an adjustable, transparent wickerbill on the rear spoiler for track use. With this package, Z06 delivers the most downforce of any production car that GM has ever tested. Fits all 15MY+ Corvette Z06 models.

## QUARTER PANEL VENTS

Substantial airflow is critical for maintaining cooling performance on the track. The Z06 quarter vents offer large openings for increased airflow to the transmission oil cooler and differential cooler - an approximately 25% improvement over the airflow of the Z51 at track speeds.

### HOOD VENTS - CARBON FIBER

Direct OEM Replacement. Excessive heat can cause major and expensive damage to critical components in a car. Engine bays, radiators, brakes, transmissions and differentials all need good air flow to help transfer away unwanted heat. APR Hood Vents help channel out excessive heat that builds up in the engine bay. Built using prepreg carbon fiber reinforced polymer (CFRP) composite materials for superior strength-to-weight ratio. APR Hood Vents add both function and "lightness" where it counts. **Features:** Carbon Fiber Construction. This component is formed in the autoclave at high temperatures using prepregated carbon fiber manufacturing processes, for high strength and low weight. UV Resistant Coating Each Air Duct is finished with UV-resistant clear-coat paint for resistance against various environmental conditions (take care of this as you would take care of your vehicle's paint finish - polish then coat with good-quality wax or synthetic protectant).

**52817** 14-19 Hood Vent .....\$487<sup>99</sup>

**52818** 15-19 Hood Vent - Z06 .....\$584<sup>99</sup>

## CARBON FIBER Taillight BEZEL

Fits Both Standard C7 & C7 Z06. Dress-up the exterior with carbon fiber, molded to precise dimensions that only prepreg materials can achieve. These parts are exotic-looking, race-inspired and are unmatched in quality. **Features:** Prepreg Carbon Fiber. These bezels are vacuum-bagged and cured in the autoclave at high temperatures, ensuring quality, durability and extremely high strength-to-weight ratios. Finished with UV-stable, clear coat paint, then individually hand-polished to a brilliant shine. Easy Installation.

**52853** 14-19 Carbon Fiber Taillight Bezel.....**\$673<sup>99</sup>**

## 2014-2019 MORIMOTO XB LED HEADLIGHTS SET

The New Morimoto XB LED Headlights look great and are well-built. They have a virtually infinite life span and an unbeatable warranty. Morimoto's C7 headlights produce a well defined beam

pattern with a great amount of width, intensity and a proper distribution of light that will far outperform the stock setup. Plug-n-Play installation. Wiring is easy! They will plug into the factory connectors for the stock headlights. Each assembly includes all necessary connectors, rubber seals and pigtails for a plug-n-play install. No error codes, no flickering, hyper-flashing or radio interference. They can easily be removed. They will not void your factory warranty.

**52917** 14-19 C7 Morimoto XB LED Headlights Set.....**\$1680<sup>00</sup>**

## 2014-2019 MORIMOTO XB LED TAILLIGHTS SET - SMOKED

These complete Chevrolet LED Taillight Assemblies will swap directly in place of the original C7 Corvette Taillights. They use all of the stock mounting points. Should not take more than 30 minutes to install. The wiring is easy. The XB LED taillights are designed to work without any special wiring. These C7 Corvette Taillights will plug into the factory connectors for the stock lights. Each assembly includes all necessary connectors, rubber seals and pigtails for a plug-n-play install.

**#52837 2015-19 Rear Spoiler - Track Pack with APR Wickerbill**

## **C7 Spoilers - Made by APR**

APR Performance Rear Deck Spoilers integrate with the rear deck to help fine-tune downforce balance. Formed in the autoclave at high temperatures, these spoilers are made from prepreg carbon fiber materials to be strong and lightweight. Molded to conform to factory, rear deck lids are designed to re-direct drag inducing turbulent air away from the rear bumper area.

## STINGRAY T1 SUSPENSION KIT

This suspension package was developed to help improve the on-track handling capabilities of your Stingray, including Z51-equipped models. It's been tuned with all-new stabilizer bars, lower control arms with stiffer handling bushings and track-optimized passive shocks. Roll stiffness has been increased (40% front and 20% rear).

**55688** 14-19 Stingray T1 Suspension Kit.....**\$4034<sup>99</sup>**

## Z06 CARBON FIBER UNDERBODY BRACES

Developed for the Z06, these carbon-fiber underbody braces are about 17% lighter than the aluminum braces on the Corvette Stingray, while maintaining original overall torsional stiffness.

## ASTORIA WHEELS BY CRAY

The all original Astoria aftermarket alloy wheel is made exclusively to fit Corvettes. A motorsport inspired pattern formed of multiple spokes are dissected into five sections to give the Astoria an explosion of distinctive taste. With no other wheel like it on the market, the Astoria brings a fresh look to the table while maintaining a classic feel much like the reinvention of the Corvette in the C7 series. Constructed from advanced rotary forged technology, the Astoria is made for lightweight rotational mass and sturdy structural integrity. The Astoria rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight saving is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

*EAGLE Silver with Mirror Cut Face & Lip*

## EAGLE WHEELS BY CRAY

A classic deep dish mesh wheel design has always looked incredible on a Corvette. However, there has yet to be an available deep lip design available for the C7. The Cray Eagle aftermarket alloy rim revitalizes the deep lip mesh look for the 21st century fitting generations of Corvette including C4, C5, C6 Grand Sport, C6 Z06, C7 Stingray & Z51. Sizes for Eagle range from 18x9 up to 20x12.5 with lip sizes ranging from 1.5" to 2.6" depending on front or rear sizes. Wheel bolt pattern: 5-120.65.

*Individual CRAY Wheels available online!*

**FALCON Full Polish**

## MAKO WHEELS BY CRAY

The Mako Shark is the fastest of its species. It is recognized by its sharp snout much like its vehicular counterpart in the Corvette series. The Cray Mako aftermarket alloy wheel features a daggering multispoke design latching onto one of the fastest road vehicles. Taking a bite into the details are deadly sharp chamfers along the inner lip shaving off unnecessary weight and adding aesthetic refinement. The Mako rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight saving is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

**MAKO Black**

## FALCON WHEELS BY CRAY

Cray Wheels introduces the fully forged monoblock Falcon Wheels for the Corvette. The Cray Falcon Forged Corvette Wheel is designed specifically in 19 inch and 20 inch fitments with individual widths and wheel offset configurations for the Corvette, Stingray, Grand Sport, Z06 and ZR1. All Cray Corvette Forged Monoblock Wheels are manufactured using a lightweight 6061 aluminum alloy to reduce wheel weight while increasing the overall performance of your Corvette. Forged Corvette wheels also benefit from the increased strength needed to handle performance cars putting down 750+ Horsepower from the factory. Since Cray Corvette Forged Wheels are engineered exclusively to fit the Corvette, wheels are available without the long production times associated with custom forged wheels. All Cray Wheels are engineered exclusively to fit the Corvette and are compatible with factory wheel lugs and Tpms sensors. Wheel bolt pattern: 5-120.65.

*SPIDER Gloss Black*

*SPIDER Matte Black*

*SPIDER Silver with Mirror Cut Face*

## SPIDER WHEELS BY CRAY

A black widow may have eight legs, but Cray's new Spider Corvette wheels have ten, eerily articulated from the deeply recessed hub to the very edge of the lip. Rather than hide the formidable Corvette brake rotor and caliper assembly, this open, "see through" design frames it. It is a design made possible by our highly advanced manufacturing technology known as rotary forging. This process that significantly strengthens the aluminum alloy. Rotary forging also produces a markedly lighter wheel than conventional processes and weight is always the enemy of performance. The Spider rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. Eighteen to 20 inch variations of Cray Spider Corvette rims ensure compatibility with C4, C5, C6 Grand Sport, Z06, C7 Stingray and Z51 'Vettes. Argue with yourself over the Matte Black Finish, Silver with a Mirror Cut Face or Gloss Black with a Mirror Cut Face. The rim of the wheels are forged at high pressure while the wheel is spun at high speed. This alters the molecular structure & enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight saving is in the outer rim of the wheel which dramatically reduces rotational mass & enhances vehicle performance. Wheel bolt pattern: 5-120.65.

## 2014-2019 WHEEL AND TIRE PACKAGES *MOUNTED, BALANCED & DELIVERED!*

*Choose your wheels. Choose your tires. Lug Nuts & Center Caps included!*

**#57140** 2014-2019 Wheel & Tire Package - C7 Chrome Z06 Flow Formed Wheel Set on Michelin Pilot Sport A/S 3 ZP Tires. Package includes: 2 Wheels 19x8.5 56mm & 2 Wheels 20x10 79mm, Lug Nuts & Locking Lug Nuts. Mounted on 2 Michelin Pilot Sport 245/35/19 and 2 Michelin Pilot Sport 285/30/20 Tires with Tire Pressure Sensor.

**57140** 14-19 Wheel & Tire Pkg - C7 Chrome Z06 Flow Formed Wheel Set on Michelin Pilot Sport A/S 3 ZP Tires..... **\$2756<sup>98</sup>**

### Michelin Pilot Sport A/S 3+ ZP

The Pilot Sport A/S 3+ ZP (Zero Pressure, Run Flat) is an Ultra High Performance All-Season run-flat tire member of Michelin's Pilot family of low profile, high-speed tires developed for the drivers of high-end sports cars, sporty coupes and sedans looking for total performance combined with temporary continued mobility after a puncture has allowed a complete loss of air pressure. The Pilot Sport A/S 3+ ZP tire is designed to provide Michelin's highest level of ultra-high all-season performance, emphasizing dry road handling & wet road grip with balanced all-season traction for occasional light snow.

### FIREHAWK INDY 500

The Firehawk Indy 500 is Firestone's Ultra High Performance Summer tire developed for drivers of sports cars, sporty coupes and performance sedans who want to maximize sport driving pleasure through racing-inspired technology. The Firehawk Indy 500 is designed to deliver impressive performance in wet and dry conditions. Like all summer tires, Firehawk Indy 500 tires are not intended to be driven in near-freezing temperatures, through snow or on ice.

Adjustable Wing  
- GTC 500 w/o  
Spoiler Delete

Spanning 71 or 74 inches over its optimized 3D airfoil shape, the APR Performance GTC-500 Adjustable Wing supplies maximum downforce in widebody sports and touring car applications.

## C7 WINGS - MADE BY APR

All GTC Series wings feature an aerodynamic 3D designed airfoil shape to obtain the optimal balance of downforce. This design allows for a reduction in drag, yet maintains an ideal level of downforce. Computational Fluid Dynamics (CFD) Analyses were performed on these wings to support validation of their aerodynamic design.

Each GTC Series airfoil is composed of lightweight and durable carbon fiber reinforced polymer (CFRP) or fiber reinforced polymer (FRP) composite materials. CFRP models contain prepregated woven carbon fiber sheets for superior strength and low weight. FRP models contain woven prepregated glass fiber sheets for high strength at reasonable weight. All CFRP and FRP airfoils are made using prepregated composite manufacturing processes (i.e. high-temperature autoclave and vacuum bagging) in high quality aluminum molds.

Each GTC Series airfoil is composed of lightweight and durable carbon fiber composite. Supporting the carbon fiber airfoils are 10mm aircraft grade 6061 billet aluminum pedestals that come in a flat black powder coat finish.

GTC-200  
2.5"  
Riser

Each GTC Series airfoil is composed of lightweight and durable pre-preg carbon fiber composite materials for superior strength and low weight.

**Call or go online today to see our complete line of products and place your order!**

Supporting the airfoils are 10mm "aircraft grade" 6061 billet aluminum pedestals that come in a flat black powder coat finish.

## GURNEY FLAPS

Gurney Flaps are available for all APR Performance GTC Series (200/300/500) wings. These are super lightweight, made using pre-preg carbon fiber processes, and conform perfectly to the contours of the GTC series 3D airfoils. They are easily attached using the included double-sided tape.

## 2020 CORVETTES

### ONYX C8 INDOOR CAR COVER

The Onyx Car Cover is the Premium cover for the Premium Sports Car. Made of a polyester blend that includes Lycra/Spandex, it creates the perfect combination of a Satin-like exterior feel with a luxuriously soft underside to pamper your Corvette's finish. The front and rear hems, mirror pockets and generation-specific patterns are tailored to your Corvette. Its stretchability results in a sleek, form-fitting look that is easy to slip on. Each Onyx Indoor Car Cover includes a storage bag and a three year warranty! This is an indoor cover that is not water resistant.

**52268** 2020 Corvette Onyx Indoor Cover..... **\$174<sup>99</sup>**

### C8 BILLET MACHINED STINGRAY LICENSE FRAME

Add some personal style to your new C8 with a billet license plate frame. Manufactured from solid aircraft grade aluminum with mounting hardware included. Available in hand-polished chrome or gloss black powdercoat.

## REPRODUCTION SALES BROCHURES FOR 1953-1978 CORVETTES

If you didn't buy your 1953-78 Corvette new, (and not many of us did) then you probably don't have one of these excellent brochures. So authentic, even the most knowledgeable Corvette collector will have a hard time telling these repros from the originals except in one detail - they're in perfect condition! To order your sales brochure, simply add the two-digit year of the brochure you want to the part number below.

|             |                       |                          |

# POLICIES

**Terms and Conditions:** Goods and/or services sold by our company, hereinafter referred to as "Seller", to customer, hereinafter referred to as "Buyer", are expressly subject to these terms and conditions set forth below. Any proposal for different or additional terms and conditions contained in any prior oral or written communication, including, without limitation, are hereby objected to and rejected, but such proposal shall not operate as a rejection of this agreement unless such variances are in the terms of the description, quantity, price or delivery schedule of the goods and/or services but shall be deemed a material alteration thereof, and this agreement shall be deemed accepted by Buyer without said additional or different terms. Buyer's acceptance of shipment or performance and/or payment for the goods or services constitutes acceptance of Seller's terms and conditions. The Seller may, from time to time, change or supplement these terms and conditions.

**Payment:** We Accept Credit & Debit Cards, Checks and Money Orders. Payment must be received in full prior to shipment.

**Prices Subject to Change:** All prices and/or discounts are subject to change without prior notice. All prices quoted by Seller will be in effect for a period of thirty (30) days from the date of the written quotation unless otherwise stated. While every effort is made to ensure accuracy, Seller is not responsible for errors or omissions or unforeseen price adjustments in distributed catalogs or our website. Note: Some non-discount, limited discount or pre-discounted items may be excluded from certain promotional pricing and cannot be combined with other offers.

**Limited Warranty:** Seller makes every effort to list the warranty for each product on the product webpage. Unless otherwise specified, all products are warranted to be free of defects in workmanship and materials under normal use for a period of 30 days from the invoice date.

**Limitation of Liability:** Seller's liability on any claim for loss or damage arising out of this contract or from the performance or breach thereof or connected with any goods or services supplied hereunder, or the sale, resale, operation or use of goods, whether based on contract, warranty, tort (including negligence) or other grounds shall not exceed the price allocable to such goods or services or part hereof involved in the claim regardless of cause or fault. Seller shall not under any circumstances be liable for any labor charges without its prior written consent. In no event shall Seller be liable for any incidental or consequential damage, including but not limited to, loss of profits or revenue, loss of use of products or associated product, cost of capital, cost of substitute products, facilities or services, downtime costs, or claims of customers of Buyer for such damage.

## **Shipping Damage, Lost or Missing**

**Merchandise:** Unless otherwise noted, all sales of goods are made F.O.B. point of shipment and, in all cases, title and risk of loss or damage shall pass upon Buyer with delivery to the carrier at point of shipment. Seller reserves the right of carrier selection. Delivery dates given in advance of actual shipment of goods or performance of services are estimates and shall not be deemed to represent fixed or guaranteed delivery dates. Buyer is required to examine all shipments upon arrival to ascertain condition. If any shortages or damages occurred in transit, please contact Seller within 5 days of receipt for instructions on how to proceed. Failing to do this could jeopardize the refund or replacement of the damaged or missing items. Please save the original box and packaging materials for inspection by the carrier. Damage/loss claims cannot be filed after 15 days from the date of receipt of the package. Items shipped via truck must be opened and inspected while the driver is still on the premises, and damage noted if there is any.

**Refused Shipments:** If a shipment is refused, customer will be charged for shipping and handling plus a restocking charge of 15% of the product value.

**Returns:** You may return products other than Special Orders, if returned in unused, original condition in original packaging. There is no need to call for authorization. Complete the Return Form enclosed with your shipment and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. No COD returns will be accepted. Qualified returns will be refunded in the same method they were paid (i.e. credit card refund or refund check). There will be a full refund on returns up to 30 days from invoice date. Qualified returns older than 30 days but less than 90 days, will be assessed a 25% restocking fee. Special orders, custom products, electrical products, tools, books, videos, CD's/ DVD's, exhaust products after installation, returns of partial sets/kits or returns more than 90 days old will not be accepted. Any unauthorized returns will be mailed back to customer at customer's expense.

**Core Return Policy:** Our rebuilders are not able to accept core returns on items once they have been modified in any manner. In order to receive full core credit, core returned must be from a vehicle that is the same year, application and options as the item ordered. Core must be complete, in rebuildable condition and drained of all fluids to receive full credit. Cores are to be shipped to Seller pre-paid by the customer. Core verification takes approximately 3-4 weeks. If you have any questions, please contact our Customer Service Department prior to returning.

**Force Majeure:** Seller shall not be liable for failure to deliver or for delay in delivery or performance due to (i) a cause beyond its reasonable control, (ii) an act of God, act or omission of Buyer, act of civil or military authority, governmental priority or other allocation or control, fire strike or other labor difficulty, riot or other civil disturbance, insolvency or other inability to perform by the manufacturer, delay in transportation, or (iii) any other commercial impracticability. If such a delay occurs, delivery or performance shall be extended for a period equal to the time lost by reason of delay.

**Indemnification:** Buyer hereby (1) waives, releases and discharges any and all claims with the exception of claims for breach of this sales contract of every kind, including, but not limited, to injury or death of any person or damage to property, which it may have at any time against Seller, its agents or employees, by reason of or arising out of any condition of or defect in the goods and (2) covenants to indemnify and hold harmless Seller, its agents and employees from and against any and all loss, damage, expense, claims, suits, costs of defense, including attorney's fees which Seller or any or its agents or employees may sustain or incur at any time for or by reason of any injury to or death of any person or persons or damage to any property arising out of any condition of or defect in the goods or any claimed

inadequate or insufficient safeguards of safety devices or warnings.

**Governing Law:** This Agreement shall be governed by and construed according to the laws of the State of Pennsylvania.

**Entire Agreement:** This Agreement sets forth the entire agreement and understanding of the parties relating to the subject matter herein and supercedes any prior discussions or agreements between them. No modification of or amendment to this Agreement, nor any waiver of any rights under this Agreement, shall be effective unless in writing, duly executed by both parties.

**Severability:** If any provision of this Agreement is held to be invalid by a

court of competent jurisdiction, then the remaining provisions shall nevertheless remain in full force and effect.

**Assignment:** Buyer shall not assign or delegate any or all of its duties or rights hereunder without Seller's prior written consent. Any assignment or delegation made without Seller's consent shall be null and void.

**Headings:** Headings used in this Agreement are provided for convenience only and shall not be used to construe meaning or intent.

#### About California Proposition 65

California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and

birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels. We care about our customers' safety and hope that the information below helps with your buying decisions.

We are providing the following warning for products linked to this page:

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

#### Motor Vehicles

**California requires the following notice:**

**WARNING:** Motor vehicles contain fuel, oils and fluids, battery posts, terminals and related accessories which contain lead

and lead compounds and other chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. These chemicals are found in vehicles, vehicle parts and accessories, both new and as replacements. When being serviced, these vehicles generate used oil, waste fluids, grease, fumes and particulates, all known to the State of California to cause cancer, birth defects, and reproductive harm.

#### Tools

**California requires the following notice:**

**WARNING:** Some dust and particles created by power and hand tools from cutting, sanding, sawing, grinding, drilling and other activities contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Your risk from exposure to these chemicals varies, depending on how often you do this type of work. To reduce your exposure, work in a well-ventilated area and with approved safety equipment, such as dust masks that are specially designed to filter out microscopic particles.

## ABOUT TOP FLIGHT AUTOMOTIVE

Top Flight Automotive specializes in parts and accessories for all your favorite brands. From Corvette, Mustang, Camaro, Nova, Fairlane and others, we enable you to start repair and restoration projects large and small. The sky is the limit at Top Flight Automotive — we'll work to supply everything you need for classic, vintage and current sports models. The experts at Top Flight Automotive are car enthusiasts ready to assist you with upgrades, performance additions, maintenance, car care products and much more. We provide our customers with the largest in-stock inventory for sports car parts & accessories, and our sales team has more than 175 years of combined experience that will help them guide you through the selection process. Our company occupies a 200,000+ sq. ft. head-quarters/warehouse in central Pennsylvania. Our hours of operation are Monday-Friday 8am – 8pm, Saturday 9am – 2pm (Phone Sales Only) and our Showroom is open from 9am – 4:30pm Monday thru Friday. We look forward to serving you!
