Custom Made Quality, Unmatched Flexibility: Basco Introduces First-of-its-Kind Adjustable-Width, Heavy Glass Luxury Shower Door

New addition to high-end RODA product line, Cantour allows up to 6" of adjustment flexibility, providing more size options and custom-made quality without impacting inventory commitment

MASON, OH (May 08, 2015) – Basco Manufacturing has combined the best features of custom-built, luxury shower enclosures with the functionality and attractive pricing of standard models. The new Cantour Door and Panel joins Basco's high-end RODA shower enclosure line, delivering luxury quality and industry-leading adjustment flexibility of up to six inches. That gives retailers and dealers the ability to provide customers more options without affecting their inventory commitments.

"The Cantour reflects Basco's commitment to custom and semi-custom product development and giving our customers the widest selection of luxury enclosure options," said Greg Weyman, vice president of marketing at Basco Manufacturing. "The market continues to trend toward the luxury quality of custom while maintaining functionality and personal preference. For the first time, the industry gets a high-end shower door option with up to six inches of adjustment space for easy installation. It's that kind of practical innovation that distinguishes Basco and opens up a world of affordable choices for consumers to build their dream bathrooms."

The Cantour Adjustable Width Door and Panel has a wide variety of opening sizes with its modular design and five different size glass panels and two different size glass door panels, which are all available at a 76-inch height. The design makes the range of adjustment ideal for heavy glass doors. Additional features include 3/8-inch swing door with offset pivot hinge and 1/2-inch inline panel, with the Clear and AquaGlideXP clear glass options.

Available opening sizes for the Cantour include:

- 32" - 36"
- 36 1/16" - 42"
- 42 1/16" - 48"
- 48 1/16" - 54"
- 54 1/16" - 60"

The opening sizes are available in three finish options: chrome, brushed nickel and oil rubbed bronze.
