Process for Ordering Replacement Parts

Our limited lifetime warranty covers component replacement for the original owners who register their Basco/RODA shower doors at time of purchase or those who supply proof of purchase, with the exception of wear parts which are covered for 1 year. Within 1 year from date of original purchase shipping and handling of these items is also no cost to the registered homeowner.

Fees will be applicable for wear parts and shipping and handling charges will apply to all shipments after 1 year from date of purchase. Please provide a purchase order number for invoicing for these charges with your order. To simplify the ordering process homeowners may elect to provide their credit card information to us to ship direct or visit the Basco Parts Store at www.bascoshowerdoor.com where they can view available options and purchase parts online.

Ordering Examples

“Cut to Size” Parts

Parts listed as “Cut to Size” are cut or machined for specific units. Please refer to the schematic view of the specific unit to determine needed parts. The shaded area is for example only, the Part Letter is NOT required when ordering. “Cut to Size” orders require quantity, part number (including the “X”), frame color, and a complete description of the original unit.
