Online Shower Door Configurator

Mystro – Mystro is Basco's online configurator designed to simplify the Basco shower door buying experience for professionals within our network.

- **Assisted Selling by Model** - Web based quoting and product selection with a "find my model number" functionality enables showroom professionals to answer customer questions immediately.
- **Visual Door Drawing** - Access to Basco's production configurator provides your customer with a unique rendering of their specific selections.
- **Dynamic Pricing** - Confidently quote based on model and your customer's configuration selections.
- **Save and Store** - Retain quotes, customer information and showroom part numbers for recurring or ad hoc use. Open text fields enable customization and quote specifics.
- **Faster, More Accurate** - "One-click" quote submission to Basco orders and receive supplemental door drawings and more professional quotes for your customers.

Warranty

Basco offers a Limited Lifetime Warranty. For additional information and specifications, please visit www.bascoshowerdoor.com.

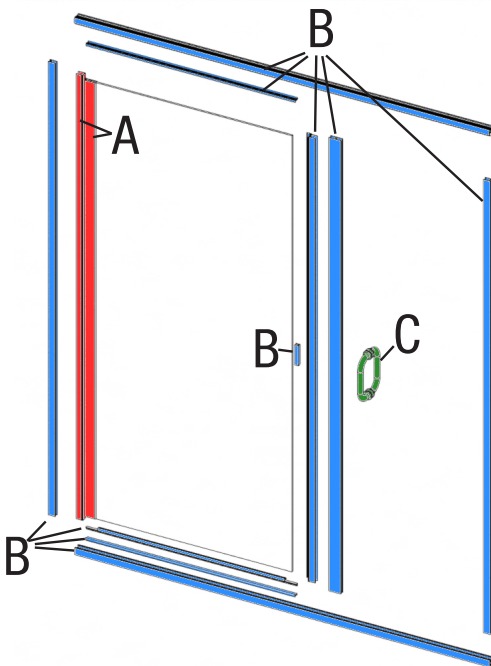

Basco's Comprehensive KD Program

Offering you the most comprehensive purchase options for each Basco model, our KnockDown units (KDs) are shown right next to the complete glazed model on each page for which they are available. They are fabricated to predetermined standard opening sizes and allow you to fabricate a unit up to the specific sizes listed for each one. Custom options (oversize, notched panels, buttresses, etc) are also available to order through an XKD model.

Making it Easy - Door & Panel Kits

- Basco's KD program simplifies the buying & the stocking of door and panel kits.
- A single door kit coordinates with any panel kit, reducing the total amount of kits needed to keep on hand.
- Product efficiencies create reduced lead times.
- Infinity models (designed for 1/4" glass) offer both 6" and 8" through-the-glass handle options.
- XKDs for custom options are still available to meet your needs, and include the 6" handle on Infinity lines.
 - » Buttress
 - » Notched Panel
 - » Special Angle
 - » Extra Panel
 - » Angled Ceiling

See How it Works

The components included with each kit are listed with each Infinity & Deluxe swing door and door & panel models throughout the book.

A One Infinity or Deluxe **Hinge Kit** works with every unique door & panel kit (below). The Hinge Kits include:

- hinge jamb
- hinge rail
- glazing vinyl for 1/4" or 3/16" glass
- hinge components & screws
- *strike rail & magnet (Deluxe only)*
- *top & bottom rails (Deluxe only)*

B Each Infinity or Deluxe **Door & Panel Kit** can use either the Infinity or Deluxe Hinge Kit (above). The Door & Panel kits include:

- wall jambs
- curbs
- all posts
- drip vinyl
- *drip rail (Deluxe only)*
- strike jamb & vinyl/magnet
- glazing vinyl for 1/4" or 3/16" glass
- parts pack for installation
- *handle (Deluxe only. Infinity handle sold separately)*

C Separate **handle** (Infinity only)

D Separate **buttress & notch parts** (not pictured, see page 25 for options and details)

- Includes SC505 & SC505B

Return Option G

Add \$79

- 1/4" Semi-frameless Infinity or Framed Deluxe
- Includes SC505B & SC508

Tapered Stock Fillers

For best performance, Basco recommends the opening be square and plumb. If the opening curb or walls are out of level beyond 3/8", purchase tapered fillers for proper fit. Fillers are designed to work with the adjustability of each model.

Fillers are designed to match the metal of each enclosure and are practically invisible once installed. **Each taper starts 1/16" and goes to the length designated below.** When ordering, please use the model number provided and add the desired color code at the end (e.g. SCT891-1461SV for Chrome).

Additional Filler Options:

- **Straight fillers with no taper:** To order a filler of a specific width with no taper, please replace SCT with SCS in the model number, remove the taper size and length code and specify the desired width (e.g. SCS891SV, 5/8"). The pricing below still applies.
- **Custom cut-to-size tapered fillers:** To order a filler of a taper or length different from that listed below, please replace SCT with SCX, and include the desired measurements in a note (e.g. SCX891SV, tapered from 3/8" to 5/8", 60" length). Add \$45 to the SCX pricing as shown in the Parts Price list.
