

PROTECT YOUR INVESTMENT

Before it Leaves the Factory

Two excellent choices exist to keep your glass in pristine condition, both backed by warranties.

Guardian ShowerGuard is an engineered glass that permanently protects from etching of the glass, preventing permanent water stains.

- Insures long-lasting beauty of the glass surface, which can always be returned to its original factory sheen.
- Available in 1/4", 3/8" & 1/2" thick Clear glass as well as 3/8" & 1/2" thick Pure Clear (clear low iron) options.
- Clean the glass on your schedule - it can perpetually be restored to like-new conditions.
- **Wiping down the glass after each use is recommended.**
- When registered, installed, regularly maintained according to Guardian's recommendations by water type, Guardian ShowerGuard glass is backed by a lifetime warranty.

AquaGlideXP is an ultra-protective coating that bonds to the glass, repelling moisture and soap film. For RODA units treated with AquaGlideXP at the factory, this glass protection carries a 10 year warranty.*

- Low maintenance - requires less cleaning than untreated glass
- Effective water repellent at an affordable price point
- Minimizes mildew, soap scum and hard water build up
- Can be applied to any glass thickness or style
- **Wiping down the glass after each use is recommended**
- Once or twice a week, wipe down your shower door to remove body oils, soaps and shampoos from the surfaces
- Maintain Spray Cleaner is the recommended maintenance cleaner, which can be ordered online at: <https://bascoshowerdoor.com/support/care-cleaning>

BECAUSE THE SHOWER IS EVERYTHING

*Warranty voided if rough, gritty, highly acidic or abrasive cleaners are used that may damage the AquaGlideXP coating.

Caring for Non-Treated Glass

- After each use, rinse with water and wipe down your enclosure with a soft cloth/towel or squeegee to maintain that like new look.
- The glass should be regularly cleaned using a damp microfiber cloth and a mild detergent or cleaner to remove any soap scum and grime from the glass.
- We recommend Lysol Bathroom Cleaner as safe for shower doors, but please test any commercial cleaning solutions on an inconspicuous area before applying to the entire enclosure. Be sure to rinse all surfaces completely and wipe dry.
- Never use any abrasive material or harsh chemicals to clean surfaces and do not allow cleaners to soak on surfaces.

AquaGlide^{XP} Home Kit

If you did not have the opportunity to purchase the factory-applied AquaGlide^{XP} protection, consider purchasing the Shower & Bath Glass Protection Treatment Kit. This easy step-by-step process will provide added protection to your shower enclosure. This innovative coating increases the sheen and luster of the glass while reducing spotting, soap scum and mineral deposits. *Please note that our AquaGlide^{XP} ten year warranty applies only to units with a factory applied coating.*

If you selected to have AquaGlide^{XP} applied at the factory when you purchased your enclosure, you may also utilize the home kit to revitalize the original coating extending its protective qualities indefinitely.

To purchase, order online at www.bascoshowerdoor.com, under "Support" select "Purchase Parts" - Part # AGXPKIT, \$49.00 list.
