Thank you to our partners whose courage and adaptability in times of crisis have allowed continued support for the global entrepreneur community despite restrictions caused by the pandemic.
About Together for Innovation
The world needs innovative solutions now more than ever and entrepreneurs need crucial support to create them. To achieve this, 20 of the most innovative, resilient and cutting-edge entrepreneurship programs in the world teamed up with Bridge for Billions to reinvent their programs as a short term response to the pandemic. We decided to look to our purpose and use our online platform as a catalyst for purpose-driven innovation by open sourcing it free of charge to allow entrepreneurship programs to present themselves online. Through this initiative, as a united group of purpose-driven ecosystem players, we aim to ensure ongoing support for entrepreneurs to create a better society post Covid-19.

About Bridge for Billions
Bridge for Billions creates, designs and manages online entrepreneurship programs globally. Its mission is to democratize access to entrepreneurship support, educating a new generation of entrepreneurs in an inclusive way. Bridge for Billions already has partnerships with more than 100 public and private organizations that seek to improve society through purpose-driven innovation, and has helped train more than 1500 entrepreneurs in 70 countries. With the income it generates, Bridge for Billions sponsors its own online incubation program, ‘The Leap’, which provides entrepreneurs with an affordable, personalized online platform to validate their idea step by step until they have a completed business plan.

Who made this possible?
These leaders are at the forefront of purpose-driven entrepreneurship education collaborating with Bridge for Billions to provide entrepreneurs with an online platform to develop innovative and resilient businesses. Through this initiative, we have been able to extend our support to entrepreneurs by 20% in just 3 months, a figure made possible by joining forces with our partners.
