**Bake Sale Fundraiser Info:**
The NYS Health Department office will no longer be issuing food permits for bake sales when the baked goods are prepared in private homes.

They recommend that the baked goods be prepared in a regulated kitchen. However, you may still hold a bake sale with baked goods prepared in private homes providing that:

- The bake sale is held by a religious, fraternal or charitable organization.
- You sell only non-potentially hazardous baked goods such as cookies, cakes and pies that do not require refrigeration.

In addition, they recommend that you post a clearly visible placard at your bake sale informing consumers that food has been prepared in a kitchen that is not subject to regulation and inspection by the Health Department. For a sample placard contact the CCE Office.

They also recommend that the members of your organization avoid bare hand contact with the baked goods. This can be accomplished by using utensils, napkins, plastic gloves or similar methods.

2016 Free Fishing Days June 25-26

In an effort to connect more people to the sport of fishing, each year, the last full weekend in June is designated as Free Fishing Days in New York State. During those two days, anyone can fish New York State waters, and no fishing license is required (normally required for anyone 16 years and older). The general public can tap into the fun and relaxation of fishing, especially those who might not otherwise get the chance. All anglers are encouraged to take a friend fishing. With all that the sport has to offer, some are bound to get hooked. This event started in 1991 to allow all people the opportunity to sample the incredible fishing New York State has to offer. Since no license is required, it is the perfect time to take a friend or relative fishing. New York State's Free Fishing Days are the last full weekend in June which are Saturday and Sunday, June 25 & 26, 2016.

In addition to the June Free Fishing Days weekend, there are a number of "Free Fishing Events" held in various locations across the state. Each of DEC's nine regions can sponsor up to four free fishing events per year. Most free fishing events occur during the period from April through October. For more information visit http://www.dec.ny.gov/permits/6091.html#Days.

### 2016 Horticulture Websites
This is a wonderful link that will connect you to TONS of resources through Cornell! [http://blogs.cornell.edu/horticulture/vegetables/](http://blogs.cornell.edu/horticulture/vegetables/)

Vegetable Varieties for Gardeners is a citizen science program. The concept is simple: View ratings and read reviews of vegetable varieties at this site to help decide which might perform best in your garden.

This site makes it easy for gardeners to compare more than 5,000 varieties, read ratings and reviews by fellow gardeners, and offer their own observations of which perform best in their gardens.

#### Which varieties are best for your garden?
Curious which vegetable varieties might grow best in your garden? Cornell researchers are, too. Vegetable Varieties for Gardeners (VVfG) is a web-based tool that compiles information from gardeners to help you decide what to grow. The information you supply may also influence breeding efforts and seed availability.

#### About Vegetable Varieties for Gardeners (VVfG) Citizen Science
What varieties will grow best in my garden? This website provides an avenue for gardeners to share their knowledge with a much wider community. The concept is simple: Gardeners visit the VVfG site and report what varieties perform well – and not so well – in their gardens. Other gardeners visit to view the variety ratings and read the reviews to decide which might work well for them.

With a multitude of gardener observations at their fingertips, researchers can gain new insight into the performance of vegetable varieties under a wide range of conditions and practices, and ultimately provide more insight into which varieties perform best. At the same time, gardeners can get advice from a larger community of gardeners to help decide which varieties to try in their own garden.

Gardeners – young, old, beginners, experts – join the research team today!

Leasing Show Animals For County Fair

The non-ownership policy allows 4-H members to designate as their 4-H project animal one (beef, sheep, swine), or two (dairy cattle, goat) non-owned breeding animals. Market animals are not eligible to be leased. This allows the 4-H member to show the non-owned/leased animal(s) in its corresponding conformation class.

- The philosophy of Non-Ownership is to give a youngster the opportunity to experience the responsibility of caring for, and showing an animal (that he/she may not otherwise have.)
- Non-Ownership is not available to youth already owning an animal of that species. Youth are limited to one (beef breeding, sheep breeding, swine breeding,) and 2 (dairy cattle, goat,) non-owned animal(s) per species. The leasing agreements are between the owner of the animal and the 4-H member.

Please note: For beef breeding A leased cow/calf pair is considered to be one animal. Dual designation of one animal is not permitted for dairy cattle and dairy goat. It is also recommended that for dairy and goat leased animals that they are not in the same age class so that the 4-H member can show both of them. Youth who do not own any goats are permitted two non-owned goats. Non-ownership is also available to youth already owning meat or dairy goats but is limited to one (1) leased animal of the other type. E.g. If you own a dairy goat, you may lease one (1) meat goat. If you own a meat goat, you may lease one (1) dairy goat.

- These non-owned animals must meet all regulations (i.e. registration, health, etc.) pertinent to that species. In addition, exhibitors must supply a non-ownership certificate that is available at the Cornell Cooperative Extension Office.

This certificate must be filled out, have all the proper signatures and be on file at the CCE Office by June 15.

Leasing forms do not enter your animal in the fair.

To obtain the leasing form visit the forms page at www.putknowledgetowork.org or contact the CCE office.

For the 4-H member to receive project completion and to be eligible to exhibit at the 2017 Steuben County Fair, the 4-H member must fill out a project record and return it to the CCE Office by Monday, September 12, 2016.

Attention Goat and Sheep Members

If you are purchasing sheep and goats to use as projects, they must be purchased with the scrapie identification already in the ear. All Goats and Sheep must be identified with a USDA approved scrapie tag OR by a legible registration tattoo for goats OR a legible USDA approved flock tattoo and individual animal ID number for sheep or a legible USDA approved herd tattoo and individual animal ID number for goats OR electronic ID for sheep and goats if the animal is enrolled in the Scrapie Flock Certification Program and/or the electronic ID is recorded on the goat’s registration paper. Official tags can be obtained by completing the USDA Identification Tag Request Form for Sheep and Goats a link can be found at http://putknowledgetowork.org/4-h-youth/4-h-program-areas/county-state-fair or contact the USDA at (518) 858-1424.

Meat Goat Information!

Meat Goats do not have to be dehorned if their horns are less than 4” long. However, if they have horns 4” or longer then the horns MUST BE TIPPED AND TAPEd! Tipping involves cutting off the point of the horns so that they are no smaller than the diameter of a dime. Then duct tape is used to cover the blunt ends.

If you are interested in exhibiting pygmy goats, please be advised that they are meat goats and not dairy goats. Enter them accordingly if you will be showing them at the fair and fill out the correct id forms if you are using a pygmy as a market goat project.

Send your CVI with your trucker if you are arriving after your animals. **Also it would be extremely appreciated if the 4-H member was available to present your animal to the person inspecting your CVI.** The person inspecting your animal must match your animal's identification to the CVI.

**Soremouth in Sheep and Goats**

Sheep and goats with lesions characteristic of Soremouth are not allowed to be exhibited. If evidence of soremouth is found on any sheep or goat, the entire exhibit including the affected animals shall immediately be removed from the fair premises with the holding pens cleaned and disinfected immediately after removal.
Animal Identification

It is very important that each animal is properly identified. Individual identification is necessary under New York State Animal Health Requirements. All animals must carry positive individual identification by USDA approved Official Identification. All cattle and swine must be identified by official ear tag. 2016 Regional Horse Extravaganza

On March 5th Steuben County had several 4-H members participate in the 2016 Regional Hippology and Horse Bowl contests held at Midlakes School, in Clifton Springs, NY.

Hippology is an activity that can enhance learning for 4-H members by letting them exhibit their knowledge and understanding of equine science and husbandry in a competitive setting. Participants are able to demonstrate their experience and knowledge gained in horse judging, quiz bowl, speeches, and practical horse management. Phases of the contest include a written exam, identification of items shown on slides, placing and/or ID of feedstuffs or feed tags, judging, ID stations, and team problems.

For the morning’s Hippology contest, this year Steuben had 6 Novice members, 1 complete team and 2 member who combined with another county to make a team. Individual results were: Morgan Cheney, Prattsburgh Pioneers, 4th Place; Isabel Sprague, Prattsburgh Pioneers, 5th Place; Carlee Luckenbach, Bath Trailblazers, 7th Place; Lily Donnan, Loon Lake Raiders, 8th Place; Kylee Herndon, Prattsburgh Pioneers 10th Place; Emily Wheelock, Prattsburgh Pioneers, 15th Place. As a team Morgan, Isabel, Kylee and Emily finished in 2nd place and the combined team with Lily and Carlee finished in 1st!

Steuben was represented with 2 Senior members Makenna Luckenbach and Anna von Hagn and were also part of a combine team. The team placed 5th for the Hippology Contest and Anna placed 12th individually and qualified for the State Contest held in August at the New York State Fair.

The afternoon’s Horse Bowl Competition, Steuben’s Novice members placed individually as follows: Carlee, 3rd, Morgan 4th, Isabel 8th, Lily 14th, Emily 15th, Kylee 17th. The team of Morgan, Isabel, Emily and Kylee placed 3rd and the combination team with Carlee and Lily placed 4th!

Steuben County 4-H Program is proud of these girls and to have them as representatives of our program! The amount of effort and practice these girls put into a very limited about of time really showcases their dedication and interest in the equine science project!
