Examples of how to fill out project forms

Name of Primary 4-H Project: Clothing and Textiles—Adventures in Clothing

List the activities related to this project (for example, items you made, trips you took)

Example: I went to the beginner sewing workshop in February. I made an apron and a pillow at the workshop. At home I made a pair of shorts. .

In this space tells us what you learned, did you exhibit, what would you do differently next time?

It was fun to sew on paper to learn how to use the machine. Then I made a barbeque apron. I had to rip out stitches where I sewed it crooked. I also made a pillow for my bed which matches my comforter. I got blue ribbons at the county fair for both items. Next time I will make sure the sewing machine is threaded correctly before I sew.

Secondary 4-H Project: Cooking and Nutrition-----

List the Activities Related to This Project (for example, items you made, trips you took)

Example: I went to the winter cooking workshop. Our club visited a bakery. I made chocolate chip cookies and a blueberry pie.

In this space tells us what you learned, did you exhibit, what would you do differently next time?

I learned how to properly measure liquids and solids. I learned why we add baking soda to recipes. I learned that chocolate chip cookies taste better with more chocolate chips. I entered cookies and my pie at the fair. I got a blue ribbon for my cookies and a red ribbon for my pie. Next time I make a pie, I will bake it on a cookie sheet so it doesn't spill all over the oven.
