

# PRUNING

Tuesday, March 7, 2017 9:00 AM 12:00 PM

Cornell Cooperative Extension Orange County, 18 Seward Ave., Third Floor, Middletown, NY 10940-1919

This workshop is designed to provide a solid base in the science and practice of selective pruning. Learn the reasons for pruning, the theory behind different cuts, as well as what tools are necessary.

Let the Master Gardeners help take the mystery out of pruning!

We'll make it as easy as 1, 2, 3!

Pruning is *easy* when you can identify the purpose for pruning and how a tree or shrub functions. Let the Master Gardeners help take the mystery out of pruning. Come learn proper techniques and the rules of thumb, as well as the appropriate time of year to tackle the job, relative to plant life cycles and climatic conditions. You will also learn to choose and use the proper tool for the job. Bring your specific pruning questions and have fun!

Fee: \$10 (\$8 for *Gardening in Orange County* subscribers). Space is limited, so please register early to avoid disappointment. Please call Jill DeBlock at 845-344-1234 or email [jd863@cornell.edu](mailto:jd863@cornell.edu) for more info. Sorry, no refunds, if you can't attend please send someone in your place.

## Benefits of Pruning Trees and Shrubs:

- ✓ Train the plant
- ✓ Maintain plant health
- ✓ Improve the quality of flowers, fruit, foliage or stems
- ✓ Restrict unwanted growth
