AGENDA:

- 8:30 Registration
9:10 **Having the Last Word (for Now): Plant Pests in the Nursery & Greenhouse- Dan Gilrein-Entomologist, CCE Suffolk** While insect and mite infestations are a normal part of growing plants, they don't have to seriously affect your business. Pest updates on aphids, thrips, and mites as well as focus on new and old pest problems seen in 2017.
10:00 **Beware the Blights!- Margery Daughtrey- Senior Extension Associate, Plant Pathology and Plant-Microbe Biology, Cornell University** Proper identification of pests is key in developing any management strategy. Focus on diagnosing and recognizing common, and some not so common but destructive, diseases on a variety of greenhouse and nursery crops.
10:50 Break
11:10 **Enhance Your Ornamental Landscape with Edibles- Dr. Tamson Yeh, Pest Management/Turf Specialist, CCE Suffolk** Designing an edible landscape or adding edibles to an ornamental garden can serve many purposes. Review which varieties thrive in the Hudson Valley climate.
12:00 Lunch
1:00 **Optimizing Disease Biocontrols & Biostimulants Applications- Dr Amara Dunn, Biocontrol Specialist, NYS IPM** Integrate biocontrol and bio stimulants for disease management. Topics will include: modes of action, compatibility with other pesticides, product storage, application and timing.
1:45 **Greenhouse Lavendar Production and Hop Propagation- Lily Calderwood, CCE Albany** Learn about cultivars, pests and unique practices
2:30 Break
2:45 **Growing Great Transplants Teresa Rusinek, ENYCHP**
3:15 **Respirator Use and the Worker Protection Standard: What You Need to Know Maire Ullrich, CCE Orange**
3:30 Adjourn
