

2018 Master Gardener Plant Sale

2018 Perennial Plants

Botanical Name (Genus and species)	Variety and/or Cultivar	Common Name	Light	Bloom Time	Flower Color	Height	Comments
<i>Achillea millefolium</i>	'Paprika'	Yarrow	sun	June-September	red	18-24"	Long-lasting, dusty-red clusters of flowers on upright stems fade to light pink and creamy yellow; fragrant, fern-like, gray-green foliage; generous bloomer; good for cuttings, fresh or dried; deadhead to promote continuous blooms, cut back to deter sprawling; inclined to spread by rhizomes and self-seeding; attracts butterflies; drought tolerant; deer resistant.
<i>Agastache</i>	'Bolero'	Hyssop	sun	July-September	rose-purple	16-18"	Brilliant rose-purple flower spikes rise above compact clumps of bronze-green, licorice scented foliage; handsome in borders and containers; flowers are good cut and are edible; thrives in full sun and well-drained soil; drought tolerant; attracts butterflies and hummingbirds; rabbit and deer resistant.
<i>Agastache aurantiaca</i>	'Tango'	Hyssop; Hummingbird Mint	sun	summer to fall	bright orange	12-14"	Abundant, vibrant, trumpet-shaped orange blooms, with anise scented foliage, great to deter deer and often dried for its fragrance; compact habit is good choice for containers, sunny borders and herb gardens; requires good drainage; considered drought tolerant once established; attracts bees, butterflies and hummingbirds; rabbit and deer resistant.
<i>Allium cernuum</i>		Nodding Onion	sun to pt. shade	late spring-early summer	pink	12-18"	BULB: distinctive, nodding flowers; easily grown in dry to medium well-drained soil; best in full sun; naturalizes by self-seeding and bulb offsets; deadhead to control any unwanted spread; plant seeds in spring, bulbs/bulb offsets in autumn; tolerates black walnut; shallow, rocky soil; drought tolerant; attracts butterflies; deer resistant; native.
<i>Allium schoenoprasum</i> *	'Staro'	Chives	sun to pt. sun	June-July	pink	12-18"	Culinary HERB; also listed on herb list; fragrant leaves are hollow spears and taste like onion; variety has thicker leaves for freezing, drying or fresh use; well-drained soil; spread 12-18"; forms dense clumps; showy deep pink flowers June-July are also edible; used for wide variety of recipes, cooked or as a garnish; full sun to part shade; drought tolerant; attracts bees and butterflies; deer resistant.
<i>Amsonia</i>	'Blue Ice'	Blue Star	sun to pt. sun	May	dark lavender blue	12-15"	Erect, clump-forming plant features terminal, pyramidal clusters of ¾" star-like flowers atop erect, leafy stems growing to only 15-18" tall; narrow, willow-shaped, dark green foliage turns an attractive bright yellow in fall; best when massed; requires no staking when grown in sun to part shade; best fall color in full sun; once established, drought tolerant; deer resistant.
<i>Anemone x hybrida</i>	'Honorine Jobert'	Windflower; Japanese Anemone	sun to pt. shade	August-September	white sepals with yellow stamens	24-36"	Vigorous, fibrous-rooted, mounding, compact Japanese anemone hybrid; single 2-3" diameter flowers appear on long, wiry, but graceful, branching stems over an attractive foliage mound of trifoliate dark green leaves; best sited in part shade with protection from wind; foliage tends to burn in hot, dry, sunny summer conditions; avoid wet, poorly drained soils, particularly in winter; mulch in cold winter climates; spreads by creeping rhizomes; excellent fall bloomer.
<i>Aquilegia x hybrida</i>	Songbird 'Cardinal'	Columbine	sun to pt. shade	April-May	red and white	18-24"	Bi-color red and white flowers rise above gray green foliage; large, long-spurred, upward-facing blooms; avoid hot dry sites; dead-head to prolong bloom and expose ornamental foliage; drought tolerant; attracts butterflies and hummingbirds; rabbit and deer resistant.
<i>Artemisia dracunculus</i> *		Tarragon, French	sun to pt. shade	seldom	green (insignificant)	24"	Culinary HERB; also listed on herb list; anise flavored leaves are used with fish, poultry and vinegar; needs well-drained soil; full to part shade; deer resistant.

<i>Asclepias tuberosa</i>		Butterfly Weed	sun	June-August	orange	12-30"	Average, well-drained soil; important host plant for Monarch butterfly larvae; large clusters of bright orange flowers; self-seeds; drought tolerant; attracts butterflies; deer resistant.
<i>Bergenia cordifolia</i>		Heart-leaf Bergenia; Pigsqueak	pt. shade to shade	April-May	rose pink	12-18"	Grown primarily as a ground cover with large rosettes of thick, glossy, heart-shaped, dark green leaves which turn bronze in winter; forms slowly-spreading clumps; panicles of small, deep pink flowers are borne above the foliage in early spring; very hardy and can be evergreen; prefers moist well-drained soil; drought tolerant; attracts butterflies; rabbit and deer resistant.
<i>Calamagrostis brachytricha</i>		Feather Reed Grass	sun to pt. shade	September- November	pink tinged	3-4 feet	Upright ornamental grass; clump forming, spreads slowly; stiff green leaves with pinkish tinged flower plumes in late summer; use in groups or as an accent plant; does well in clay soil; keep moist; tolerates black walnuts and air pollution; deer resistant.
<i>Campanula carpatica</i>	'Pearl Deep Blue'	Carpathian Bellflower, Carpathian Harebell	sun to pt. shade	May-September	deep blue	8-10"	Large, upfacing, deep blue bells appear in early summer above light green foliage; forms low, cushion-shaped mound; remove spent flowers to extend bloom time; ideal for rock gardens, borders and containers; drought tolerant; attracts hummingbirds; rabbit resistant.
<i>Carex pensylvanica</i>		Oak sedge; Pennsylvania Sedge	pt. sun to shade	n/a	n/a	8-10"	Makes an excellent shade ground cover especially under oaks; fine texture and fountain habit; narrow, grass-like, medium leaves; easy to grow; spreads by rhizomes to about 12"; can be used in containers; drought tolerant; native.
<i>Chrysogonum virginianum</i>	'Allen Bush'	Goldenstar	pt. sun to shade	May-October	golde yellow	8"	Ground cover; known for both its dark yellow, slightly notched flowers and light green, toothed, triangular leaves; blooms abundantly in spring and fall; tolerant of most sun conditions as long as the soil is kept moist and well-drained; deer resistant, native.
<i>Coreopsis verticillata</i>	'Zagreb'	Tickseed	sun	June-September	yellow	12-18"	Easy to grow; naturalizes well; spreads by seeds and rhizomes; yellow, daisy-like flowers; deadhead to promote rebloom; good for borders and areas with poor soil; once established is drought tolerant; attracts butterflies; deer resistant.
<i>Dianthus hybrid</i>	'Fruit Punch® Cranberry Cocktail'	Pinks	sun to pt. sun	June	dark magenta pink	8-10"	Fragrant double blossoms of dark magenta pink, atop a low mound of gray-green foliage; great for edging borders or paths; prefers loose well-drained soil; heat, drought and salt tolerant; attracts butterflies; deer resistant.
<i>Dryopteris erythrosora</i>	'Brilliance'	Autumn Fern, Japanese Shield Fern	pt. sun to shade	n/a	n/a	18-30"	FERN; colorful groundcover with pink fiddleheads that turn coppery orange as they unfurl, aging to a lustrous dark green; winter interest as they remain well into the winter; new growth continues throughout the season, giving a colorful mix of copper and green foliage from spring to late fall; spreads slowly by rhizomes; moist, well-drained soil, but will tolerate dry shade; deer resistant.
<i>Eryngium yuccifolium</i>		Button Eryngo, Rattlesnake Master	sun	June-September	bluish silver	4-5 feet	Great plant for sunny, dry area; has slightly spiny, sword-like leaves arranged in a rosette that resembles Yucca; flower stems topped with tall thistle-like flowers; good cut flower and ornamental foliage; excellent garden accent plant; best kept in rear of garden as stalks can reach up to 5 ft.; taprooted plant which is best left undisturbed once established; host plant for Swallowtail butterfly larvae and a nectar source for many pollinators; drought tolerant; attracts butterflies; deer resistant; native.
<i>Eupatorium rugosum</i>	'Chocolate'	White Snakeroot	sun to pt. shade	September- October	white	3-4 feet	Syn. <i>Ageratina altissima</i> 'Chocolate'; medium-wet, well-drained soil; showy, white, fluffy flowers; chocolate tinged leaves/deep purple stems; deadhead to prevent self-seeding; will naturalize; attracts butterflies; deer resistant; native.
<i>Foeniculum vulgare</i> *	'Bronze'	Bronze Fennel	sun	late summer	yellow	3-4 feet	Culinary HERB; also listed on herb list; versatile herb and dramatic landscape plant and culinary herb; unique brownish bronze color deepens as the season progresses; sulphur-yellow flowers late summer; sprigs used to flavor salads, fish, sauces; anise flavored seeds; flavor and use are similar to those for regular fennel; sun; attracts butterflies; deer resistant.

<i>Geum chiloense</i>	'Red Dragon'	Avens; Rock Rose	sun to pt. shade	June-August	scarlet red to orange	16-20"	Bright, frilly, double scarlet-red to orange blooms add pizzazz to borders and containers; tall well-branched flower stems provide an airy, informal look; fuzzy scalloped leaves form low mounds; plants are very hardy; best grown in moist soil with good drainage; deadhead to prolong bloom; attracts butterflies and hummingbirds; rabbit and deer resistant.
<i>Heliopsis helianthoides</i>	'Tuscan Gold™'	False Sunflower	sun	mid-summer to early fall	golden yellow	24-36"	Compact, upright plants with sunny yellow blooms and dark green foliage; deadheading not required; heat tolerant; easy to grow and disease resistant; long flowering season; plant alone or in containers; mulch in winter to reduce heaving; drought tolerant; attracts butterflies; native.
<i>Heuchera</i> hybrid	Dolce® 'Appletini'	Coral Bells	pt. shade to shade	early to mid summer	ruby red	8-10"	Dense mound of striking, lime-green leaves with silver overlays; dark red 18-22" stems hold rich, ruby red flowers; prefers humus-rich, well-drained soil; attracts butterflies and hummingbirds; deer resistant.
<i>Heuchera</i> hybrid	Dolce® 'Blackberry Ice'	Coral Bells	sun to shade	mid summer	yellow	8-10"	Mound of fantastic purple foliage; flower stem to 20-26"; tolerates heat and humidity; easy to grow; great at front of borders or in containers; drought tolerant; attracts hummingbirds; deer resistant.
<i>Heuchera</i> hybrid	Dolce® 'Crème Brûlée'	Coral Bells	pt. shade to shade	June-July	pink	8-16"	Compact, mounding; clump forming; bronze foliage; heart-shaped ruffled leaves; drought tolerant; attracts butterflies and hummingbirds; deer resistant.
<i>Heucherella</i> hybrid	Fun and Games® 'Eye Spy'	Foamy Bells	pt. shade to shade	late spring to early summer	bubblegum pink	8-10"	Easy to grow; mounded habit with spread of 16-20"; attractive foliage in spring is amber yellow with deep rose centers and it mellows to chartreuse green in the summer; pink flowers on erect stems bloom for weeks; grow in garden or container; performs best in part shade; humus-rich, well-drained soil; heat tolerant.
<i>Hibiscus moscheutos</i>	'Luna Red'	Hardy Hibiscus	sun	July-September	burgandy red	24-36"	Large 6-8" diameter flowers of five overlapping deep burgundy red petals with distinct pale yellow stamen; compact F1 hybrid cultivar is a showstopper specimen in borders or massed along creeks and ponds; prefers evenly moist soil; woody stems die back in winter and are slow to emerge in spring; USPP#16155: unlicensed propagation prohibited; attracts butterflies and hummingbirds, deer resistant; native.
<i>Hosta</i> hybrid	Shadowland® 'Waterslide'	Hosta	pt. shade to shade	late summer	lavender	14-15"	Blue ruffled foliage holds its color all season long; mounded habit with spread of 30-32"; flowers appear in late summer; moist, well-drained, organically rich soil; clear dead foliage after frost to prevent insect problems; attracts hummingbirds.
<i>Hosta sieboldiana</i>	'Frances Williams'	Hosta	pt. shade to shade	June-July	white	18-24"	Average soil; very large coarse-textured, blue-green leaves variegated with irregular greenish-yellow margins; spreads over time to 4-5 feet wide; attracts hummingbirds.
<i>Hydrangea paniculata</i>	'Bobo®'	Hardy Hydrangea	sun to pt. sun	July-September	white, maturing to pink	30-36"	Deciduous SHRUB ; spread of 3-4 feet; perfect for small spaces; profusion of large, white flowers on strong, stiff stems; plant in masses, as a hedge, or a border, but also can stand alone; blooms on new wood so prune in late winter/early spring for abundant blooms; great for dried or cut flowers.
<i>Hydrangea paniculata</i>	'Fire Light®'	Panicle Hydrangea	pt. sun to sun	summer	white aging to red	4½-6 feet	Deciduous SHRUB ; easy to grow; blooms emerge creamy white and become red, providing long lasting summer color; good cut flower (fresh or dried); use as hedge or foundation planting; low maintenance, best pruned in late fall or early spring, blooms on new wood; well-drained soil; layer 2-3" of shredded bark over roots.
<i>Hydrangea paniculata</i>	'Little Lime®'	Hardy Hydrangea	sun to pt. sun	July-September	green, maturing to pink	3-5 feet	Deciduous SHRUB ; spread of 3-5 feet; blooms last long into fall; plant in masses, as a hedge, or a border, but can also stand alone; blooms on new wood so prune in late winter/early summer for abundant blooms.
<i>Hyssopus officinalis</i> *	'Blue Flower'	Hyssop	sun to pt. sun	mid to late summer	blue	12-24"	Culinary HERB ; also listed on herb list; upright growth w/green foliage; blue flowers bloom mid to late summer; minty flavor; needs well-drained soil; full to part sun; drought tolerant; attracts butterflies; deer resistant.

<i>Iberis sempervirens</i>	'Tahoe Snow White'	Candytuft	sun to pt. shade	May-June	white	10-12"	Large clusters of bright white flowers on glossy, narrow, dark green, evergreen foliage; use to brighten border edges or cascade over walls; one of the earliest blooming groundcovers; very floriferous; spreads 18-24" wide; low maintenance, shear lightly after blooming; not easily divided; requires well-drained soil; drought tolerant; deer resistant.
<i>Juncus inflexis</i>	'Graceful Grasses® Blue Mohawk®'	Soft Rush	sun to pt. sun	n/a	n/a	24-36"	Dramatic blue-green foliage provides height and structure, forms arching mound; thrives in moist to wet soil; clumps are slow to establish, but once established spreads by creeping rhizomes; in autumn, turns shades of brown; stems persist for winter interest, cut back in spring before new growth; use in containers, at water's edge or in consistently irrigated soil; deer resistant.
<i>Lavandula angustifolia</i> *	'Melissa Lilac'	English Lavender	sun	June-August	lilac purple	24-28"	Culinary and ornamental HERB; also listed on herb list; stunning large flower heads of vibrant lilac purple color in summer; sweetly fragrant flowers with a mild flavor for cooking and a nice addition to oils and infusions; 16" spread; silvery foliage; eye-catching addition to garden; well drained soil; full sun; drought tolerant; attracts bees and butterflies; deer resistant.
<i>Lavandula angustifolia</i> *	'Platinum Blonde'	English Lavender	sun	June-August	soft violet-blue	10-12"	Culinary and ornamental HERB; also listed on herb list; very fragrant gray foliage with a cream border; soft violet-blue flowers on tall stems are good for cutting; compact dense plant; full sun; drought tolerant; attracts bees, butterflies and hummingbirds; deer resistant.
<i>Lavandula x intermedia</i>	'Phenomenal'	English Lavender	sun	June-July	blue	24-36"	Culinary and ornamental HERB; also listed on herb list; fragrant, compact plant has blue blooms and silvery foliage; exceptionally winter hardy; tolerates heat and humidity well; can repeat bloom in late summer or fall; needs good drainage; disease tolerant; full sun; drought tolerant; attracts bees, butterflies and hummingbirds; deer resistant.
<i>Leucanthemum x superbum</i>	'Crazy Daisy'	Shasta Daisy	sun	June-August	white rays, w/ yellow center	24-30"	Well-drained soil; "crazy" large, double blooms with frilly, twisted rays; deadhead to extend bloom season; long-lasting cut flower; divide clumps every 2-3 years; dry soil and drought tolerant; attracts butterflies.
<i>Ligularia</i> hybrid	'Bottle Rocket'	Ligularia	pt. shade to shade	July-September	yellow	28-34"	Golden-yellow flower spikes on chocolate colored stems are held just above thick, serrated green foliage; extremely compact plant; best used in partial sun landscapes; requires constant moisture; deer resistant.
<i>Lobelia cardinalis</i>		Cardinal Flower	sun to pt. shade	July-September	scarlet red	24-48"	Will naturalize; likes moist soil; can be used in rain garden; attracts hummingbirds and butterflies; native.
<i>Mentha spicata</i> also called <i>Mentha crispa</i> *	'Curly'	Curly Mint	sun to pt. shade	July-August	lilac	12-18"	Culinary and ornamental HERB; also listed on herb list; large frilly light green leaves on sturdy stalks; taste and smell similar to spearmint; to prevent unwanted spreading, plant with barriers and divide each spring; sun to partial shade; drought tolerant; attracts butterflies; deer resistant.
<i>Mentha x piperita f. citrata</i> *		Chocolate Mint	sun	July-August	lavender	24-36"	Culinary HERB; also listed on herb list; narrow, pointed green leaves; chocolate-peppermint-patty aroma; great addition to chocolate desserts; can be an aggressive spreader; to prevent unwanted spreading, plant with barriers and divide each spring; full sun to part shade; attracts butterflies; deer resistant.
<i>Muhlenbergia capillaris</i>		Pink Muhly Grass	sun	September-November	pink to purple	24-36"	GRASS; glossy, thread-like, dark green leaves form a basal clump; spectacular floral display of light, airy flowers in autumn float 12" above the foliage; plumes persist into winter; tolerates wide range of soil and moisture, grows largest in full sun with moist sandy soils; does not spread by rhizomes; black walnut and drought tolerant, attracts birds; deer resistant; native.
<i>Nepeta nervosa</i>	'Pink Cat'	Catmint	sun to pt. shade	July-August	pink	8-10"	Large, 8-10" vibrant, pink flower stalks rise above compact 4-6" mounds of dark-green, fragrant foliage; prolific bloomer, deadhead to encourage re-bloom; used in edge plantings or near the front of perennial borders; withstands heat and cold; drought tolerant; attracts butterflies and hummingbirds; rabbit and deer resistant.

<i>Nepeta x faassenii</i>	'Cat's Meow'	Catmint	sun	spring-summer	blue-purple	17-20"	Fragrant foliage; strong upright habit resists flopping; great in beds and containers; shear to promote rebloom; drought tolerant; attracts bees, hummingbirds and butterflies; deer resistant.
<i>Origanum vulgare</i> *	'Aureum'	Golden Oregano	mon	summer	pink	6-12"	Golden yellow foliage is great accent in herb garden; pink flowers July to September; low creeping habit; full sun but light shade from hot afternoon sun preserves golden color; drought tolerant; attracts butterflies; deer resistant.
<i>Origanum vulgare</i> subsp. <i>Hirtum</i> *		Greek Oregano	sun	July	white	6-8"	Culinary HERB; also listed on herb list; low, creeping growth habit; fragrant, intensely flavored, dark green leaves; use leaves fresh or dried for year-round culinary use; tiny, white flowers in July; needs well-drained soil; trim plants before flowering to promote additional foliage growth; will naturalize; full sun; drought tolerant; attracts butterflies; deer resistant.
<i>Phlox divaricata</i>	'Blue Moon'	Woodland Phlox; Wild Sweet William	pt. sun to shade	April-May	violet	12-18"	Dense clouds of large, violet-blue, fragrant flowers; lance-shaped medium green foliage; long-lived, carefree groundcover; great addition to rock gardens, woodland gardens or borders; will naturalize and spreads 8-12"; deadhead to promote second growth; attracts butterflies and hummingbirds; native.
<i>Phlox paniculata</i>	'Laura'	Garden Phlox; Summer Phlox	sun to pt. shade	July-September	purple with white eye	3-4 feet	Large clusters of fragrant flowers have purple petals with a white eye; extremely free flowering on sturdy stems; panicles to 6-12" long; good cut flower; mildew resistant but plant 18" apart for good air circulation to help curb powdery mildew; divide every 3 years; tolerates black walnut; attracts butterflies and hummingbirds; native.
<i>Polemonium boreale</i>	'Heavenly Habit'	Jacob's Ladder	sun to pt. shade	July-September	blue with white eye	10-14"	Large, fragrant, blue blossoms with a yellow halo and white eye; compact clumps of glossy, ferny green foliage spread 12-18" wide; great plant for borders, rock gardens and containers; prefers moist, well-drained soils with a neutral pH; clip back by half in midsummer to rejuvenate; attracts butterflies and hummingbirds; deer resistant.
<i>Pycnanthemum pilosum</i>		American Mountain Mint	sun to pt. shade	July-September	white	12-36"	Clusters of small, densely packed flowers atop very aromatic foliage; leaves are broader and shorter stalked than other <i>P.</i> species; flowers best in full sun; vigorous grower, spreads by rhizomes; drought tolerant; attracts bees, birds and butterflies; deer resistant; native.
<i>Pycnanthemum pilosum</i>		American Mountain Mint	sun to pt. shade	July-September	white	12-36"	Clusters of small, densely packed flowers atop very aromatic foliage; leaves are boader and shorter stalked than other <i>P.</i> species; flowers best in full sun; vigorous grower, spreads by rhizomes so is best used for naturalizing in native plant gardens or dry meadows; drought tolerant; attracts bees, birds and butterflies; deer resistant; native.
<i>Ratibida columnifera</i>	'Red Midget'	Mexican Hat Plant	sun to pt. sun	June to frost	reddish brown, orange, and/or yellow	18-36"	Blooms have long, prominent cones with relaxed petals; feathery foliage; good cut flower; does best in well-drained, dry, average soil; salt tolerant; drought tolerant; attracts butterflies; deer resistant; native.
<i>Rudbeckia hirta</i>	'Cherry Brandy'	Gloriosa Daisy; Black-eyed Susan	sun to pt. shade	July-frost	cherry red with chocolate cone	20-24"	Cheerful cherry-red 3" blooms on a mid-sized mound of dark green foliage; remarkable color variation of a garden standard; showy flowers with long bloom period; easy to grow; average, well-drained soil; taller plants may need staking; appreciates good air circulation; tolerates hot and humid summers; deadhead spent flowers to encourage additional bloom; tender perennial; self seeds; drought tolerant; attracts butterflies and hummingbirds; rabbit and deer resistant.
<i>Rudbeckia maxima</i>		Giant Coneflower, Giant Brown-eyed Susan	sun	June-July	yellow	6-7 feet	Large, dramatic flowerheads with drooping petals and conical brown centers; large blue-green leaves; tall, narrow vertical habit; cut back to the base after blooming to keep tidy; plant in masses for best effect in landscapes; drought tolerant; attracts bees, birds and butterflies; deer resistant.
<i>Salvia elegans</i> *		Pineapple Sage	sun	August - October	red	24-30"	Culinary HERB; also listed on herb list; pineapple scented leaves can be steeped in hot water to make herbal tea; red flowers in late fall; Attracts butterflies and hummingbirds; deer resistant.

<i>Salvia nemorosa</i>	Color Spires® 'Crystal Blue'	Perennial Salvia	sun	late spring to early summer	sky blue	18-20"	Colorful blue spikes above mounded, fragrant, gray-green foliage; clump forming habit with spread of 24-26"; lovely planted in drifts; cut back after flowering for rebloom; blooms best with average moisture; drought resistant; attracts bees, butterflies and hummingbirds; rabbit and deer resistant.
<i>Salvia nemorosa</i>	'Snow Hill'	Garden Sage; Wood Sage	sun	May-June	white	18-24"	Syn. <i>Salvia x sylvestris</i> 'Schneehügel'; pure white flowers atop mounded gray-green foliage which is fragrant when crushed; compact habit; deadhead for late second bloom; drought tolerant; attracts butterflies and hummingbirds; deer resistant.
<i>Salvia officinalis</i> *	'Common'	Common Sage	sun	June	blue/lavender	18"	Culinary HERB; also listed on herb list; blue, lavender blooms in June; 15" spread; fragrant gray-green leaves; woody stem; pinch to promote fullness; full sun; tolerates drought; attracts butterflies; deer resistant.
<i>Salvia officinalis</i> *	'Purpurascens'	Purple Sage	sun	May-June	lavender	12-24"	Culinary HERB; also listed on herb list; lavender blooms May to June; fragrant leaves; grown for purple foliage; highly ornamental; hardy to Zone 6; full sun; drought tolerant; attracts butterflies; deer resistant.
<i>Salvia officinalis</i> *	'Tricolor'	Tricolor Sage	sun	May-June	lilac blue	12-18"	Culinary HERB; also listed on herb list; lilac-blue blooms May to June; spread 12-18"; fragrant leaves are grayish-green, white and purple, edged with pink; may not be winter hardy; well-drained soil; full sun; drought tolerant; attracts butterflies; deer resistant.
<i>Solidago rugosa</i>	'Fireworks'	Rough-stemmed Goldenrod	sun	September-October	yellow	30-36"	Showy flowers; tolerates clay or wet soil; use in rain gardens; good cut flower; attracts bees and butterflies.
<i>Symphotrichum ericoides</i>	'Snow Flurry'	Heath Aster; Many-flowered Aster	sun to pt. sun	September	white with gold centers	6-8"	Formerly <i>Aster ericoides</i> ; prostrate heath aster cultivar; very low, dense carpeting groundcover smothered with 1/2" single white flowers; good strong grower makes an excellent container plant; ideal for front of borders and rock gardens as well as good for ground cover and erosion control; attracts butterflies; deer resistant; native.
<i>Symphotrichum latiflorum</i>	'Lady in Black'	Calico Aster	sun to pt. sun	September-October	white with red centers	24-36"	Formerly <i>Aster lateriflorus</i> ; elegant mound of purplish-black strappy leaves smothered in red-centered tiny white daisies on rigid, purplish stems; thrives in average soil and shows best foliage coloration in full sun; thousands of flowers per plant - a butterfly's dream; drought tolerant; attracts butterflies; deer resistant; native.
<i>Thymus pseudolanuginosus</i>		Woolly Thyme	sun	June-July	pink	3"	Creeping ground cover; very tiny, elliptic, gray leaves with tiny, tubular, pale pink flowers which attract bees; not suitable for culinary use; use as a filler between stepping stones or to sprawl over small rocks or ledges in the rock garden; attracts butterflies; drought tolerant; deer resistant.
<i>Thymus vulgaris</i> *		Culinary Thyme	sun	June-July	lilac	12"	Culinary HERB; also listed on herb list; the most common thyme used in cooking; tiny lilac flowers late spring to early summer; aromatic gray-green leaves used fresh or dried; cut back plants to encourage fresh growth; moist, well-drained soil; full sun; drought tolerant; attracts bees and butterflies; deer resistant.
<i>Thymus x citriodorus</i> *		Lemon Creeping Thyme	sun	June-July	pink	2-4"	Culinary HERB; also listed on herb list; fragrance of lemons; tiny oblong dark green leaves; small pink flowers; moist, well-drained soil; 12" spread; full sun; drought tolerant; attracts bees; deer resistant.
<i>Thymus x citriodorus aureus</i> *		Lemon Variegated Thyme	sun	summer	pink	3"	Culinary HERB; also listed on herb list; golden edged, variegated leaves; fragrance of lemons; slightly sharper flavor than lemon thyme; small pink flowers; moist, well-drained soil; 12" spread; full sun; drought tolerant; attracts bees and butterflies; deer resistant.
<i>Thymus x citriodorus</i> *	'Doone Valley'	Creeping Lemon Thyme	sun	mid-summer	bright pink	2-4"	Culinary HERB; also listed on herb list; dark green foliage is tipped with gold in cool weather; fragrance of lemons; bright pink flowers in mid-summer; will tolerate moderate foot traffic; full sun; drought tolerant; attracts bees and butterflies; deer resistant.
<i>Tiarella hybrid</i>	'Cutting Edge'	Foamflower	pt. shade to shade	early summer	white	8-10"	Grown for lovely green foliage with dark burgundy centers; creamy white bottlebrush-like flowers are on scapes that grow to 20"; rounded, clumping habit with spread of 16-18"; spring interest in shade gardens; humus-rich, moisture retentive soil; evergreen in many climates; deer resistant; native.

<i>Veronica</i> hybrid	Magic Show® 'Pink Potion'	Spike Speedwell	sun to pt. sun	early to mid-summer	baby pink	14-16"	Baby pink flowers grow prolifically on a rounded, low clump of deep green foliage; clump forming with spread of 18-22"; grows and flowers best in average, humus enriched, well-drained soil and full sun; shear back after flowering; attracts butterflies; deer resistant.
<i>Weigela florida</i>	'Spilled Wine®'	Weigela	sun	spring	pink	24-36"	Deciduous SHRUB ; compact Weigela with fabulous deep purple foliage and bright pink flowers; grows wider than tall; perfect choice for walkways and under windows; prefers well-drained soil but is adaptable; pruning best done immediately after flowering since it blooms on old wood; fertilize in spring with slow release fertilizer; deer resistant.
<i>Weigela florida</i>	'Wine & Roses®'	Weigela	sun	late spring; often rebloom in summer	pink	4-5 feet	Deciduous SHRUB ; spread of 4-5 feet; rich, deep purple leaves; compact for small spaces; great substitute for Barberry; attracts butterflies and hummingbirds; deer resistant.
