

EVERY 4TH WEDS, APR-SEPT, 6-7:30 PM COMMUNITY ENERGY CONVERSATIONS

Our energy systems are changing! Grid changes are affecting the way our electricity is produced, distributed, and used in our homes and other buildings. These changes bring opportunities and challenges for your family to spend less on your energy bill, lower your energy use, support the switch to renewable sources, and be more comfortable in your home.

Bring your questions, ideas, thoughts, and concerns to this facilitated community conversation. We will have different topics every month exploring how the electric grid works and new technologies that can help us manage our energy use to save money and reduce our carbon footprint. A parallel energy literacy session for children of all ages is provided for those who tell us they would like to bring their children along. We hope you will join us!

Cornell Cooperative Extension
Tompkins County

- APR 25 – NEW ENERGY
LANDSCAPE

- MAY 23 – SMART USE
RATES

- JUNE 27 – BALANCING
ENERGY BUDGETS WITH
ENERGY MANAGER

- JULY 25 – DIY ENERGY
EFFICIENCY

- AUG 22 – MANAGING PEAK
LOADS ON OUR
ELECTRICAL GRID

- SEPT 26 – HOW TO GET
THERE: 50% RENEWABLES
BY 2030
