

What is 4-H?

4-H is delivered by Cooperative Extension—a community of more than 100 public universities across the nation that provides experiences where young people learn by doing. Kids complete hands-on projects in areas like health, science, agriculture and citizenship, in a positive environment where they receive guidance from adult mentors and are encouraged to take on proactive leadership roles. Kids experience 4-H in every county and parish in the country—through in-school and after-school programs, school and community clubs and 4-H camps.

4-H'ers are...

- 4X** more likely to give back to their communities
- 2X** more likely to make healthier choices
- 2X** more likely to participate in STEM activities
