

Building a Community Legacy Together (BCLT)

An intergenerational program for youth and older adults

The BCLT project provides a structured, fun opportunity for elders living in the community to be interviewed about their wisdom and advise for living by high school students. This project encourages youth and elders to share and learn about each other's generation and is expected to create an atmosphere of mutual respect and appreciation for the wisdom of age.

If you are 65 years or older you are invited!

We are looking for 20 elders to participate in this project.

If you or someone you know is interested in participating, please contact:
