Cornell Veterinarian Open House

SATURDAY, APRIL 6, 2019

10:00AM- 4:00PM

The students, faculty, and staff of the Cornell University College of Veterinary Medicine invite you, your family and friends to our 52nd annual Open House.

Open House is our opportunity to share the joys of our profession with the community. Veterinary students and members of the faculty and staff host this annual event that provides a chance for those interested to get a closer look at veterinary medicine. We invite you to tour our college and learn more about our facilities, our equipment, and what we do everyday.

Students, faculty members, and staff will be on hand to answer your questions about a career as a veterinarian, a veterinary technician, or an animal care specialist. Careers in veterinary medicine have traditionally involved working with dogs, cats, cows, horses, sheep, and pigs. However, this rapidly growing field also provides opportunities to work in the animal health industry, government, armed forces and with many other species in zoos, wildlife refuges, and developing countries.

SCHEDULE OF ACTIVITIES

- K9 Officer Demonstration: See our canine police officers in action - *tickets required - tickets will be available the day of the event at the information table*
- Ithaca Dog Sports Club Canine Agility Demonstration: Watch canine athletes run through an obstacle course and learn more about this fun owner-dog team sport - *tickets required - tickets will be available the day of the event at the information table*

4-H Projects & Events

Animal Crackers

Horse and Poultry – Sat. May 4, 2019

The annual Animal Crackers program provides New York youth with fun, hands-on, science-oriented learning experiences on Animal Science topics. This workshop is for 4-H members interested in learning more about their favorite livestock, companion or pet animal species; emphasis on different species groupings and activities varies annually. Participants will learn about different aspects of animal care, interact and exchange information with faculty, staff, students, professional producers, industry experts, and more, utilizing the unique facilities of Cornell University. Hands-on workshops are planned for each species group.
