Be Food Safe This Thanksgiving

To keep food and guests safe, follow these simple food safety rules:

- The best way to thaw a frozen turkey is in the refrigerator. Plan 24 hours for every 4-5 pounds, so a 15-pound turkey will take about three days to thaw. Thaw your turkey in its original packaging and place it on a tray to catch any juices.
- If you don’t have room in your refrigerator or you forget to start thawing the bird early enough, you can safely thaw it using cold water. In the sink, cover the turkey (still in its original wrapper) with cold water and change the water every 30 minutes. Plan 30 minutes for every pound, so a 15-pound turkey will take about eight hours.
- Remember to remove the giblets before cooking. Cook your turkey until the internal temperature reads 165 °F. Safely roast your turkey in a 325 °F oven. An unstuffed, 15-pound turkey will take about four hours to cook. Test the temperature of the turkey with an instant read food thermometer at the innermost part of the thigh and thickest part of the breast and be careful not to touch the bone.
- If you stuff your turkey, stuff it loosely. For safe stuffing, it must also register 165 °F with an instant read food thermometer. You also can cook the stuffing outside of the bird.
- Leave your turkey, stuffing and other holiday dinner foods at room temperature for no longer than two hours.
- Cut the meat off the turkey carcass and refrigerate separately from the stuffing.
- Keep leftovers 3-4 days and reheat to 165 °F.
- For more holiday food safety information, visit http://www.fightbac.org/winter/thanksgiving/talking-turkey/

In Season This Month: Squash, Apples, Cabbage and Onions

This month you can still buy fresh, locally grown winter squash, cabbage, onions, potatoes, pears and apples. Look for them at road side stands and in your local supermarket.
The EFNEP program provides nutrition education to low-income families and children in counties throughout New York State.

A series of 8 classes is offered to adults in a variety of settings.

Workshop series include:

- Eating Smart Being Active
- Family Nutrition Education Curriculum
- Finding A Balance — Diabetes
- Healthy Children, Healthy Families
- Healthy Cents
- Breastfeeding

EFNEP can help you eat more healthfully while saving money at the store. Learn to:

- eat more fruits and vegetables,
- drink fewer sweetened beverages,
- maintain a healthy weight, and
- be more physically active

Apple Cranberry Salad Toss

Serving Size: 1/8 of recipe
Servings per recipe: 8

Ingredients:

- 1 head of lettuce (about 10 cups)
- 2 apples (medium, sliced)
- 1/2 cup walnuts, chopped
- 1 cup dried cranberries
- 1/2 cup green onion, sliced
- 3/4 cup vinaigrette dressing

Directions:

1. Wash lettuce and tear into bite sized pieces.
2. Toss lettuce, sliced apples, walnuts, cranberries and green onions in a large bowl.
3. Add dressing; toss to coat. Serve immediately.
