Enjoy Healthy Frozen Foods This Month

Did you know that in 1930 the first frozen fruit sold by stores was sold as Birds Eye Frosted Foods? Taste and quality of frozen foods has greatly improved since 1930. March is National Frozen Foods Month and stores offer lots of great sales on frozen foods, including vegetables and fruit. Frozen fruit and vegetables are usually picked, processed and frozen within 24 hours. In winter, because of the quick turn around time for processing frozen vegetables and fruit, these foods may have more nutrients than their fresh counterparts and can be a healthier option.

Tired of preparing vegetables and fruit the same way? Try these ideas from the Academy of Nutrition and Dietetics:

- Add lots of vegetables to pizza. Try broccoli, onion, sweet or hot peppers, mushrooms, tomato and spinach.
- Make a smoothie using low fat milk, any frozen berries you like, and a banana.
- Stuff an omelet with your favorite vegetables or add your favorite vegetables to scrambled eggs.
- Top a baked potato with broccoli and cheese or beans and salsa.

National Nutrition Month®

Each March, the Academy of Nutrition and Dietetics features a campaign focused on healthy eating. This year's theme is “Eat Right Bite by Bite” and encourages Americans to eat a variety of foods, plan meals for the week and learn cooking skills For more information go to: https://www.eatright.org/food/resources/national-nutrition-month.
Celebrate the goodness of New York State-produced maple syrup during Maple Weekend, March 21-22 and 28-29 Local maple syrup producers open their sugar houses for free tours and you can learn how maple sap becomes maple syrup. Also, visit your local library and borrow The Maple Syrup Book by Marilyn Linton to read with your children. For more information on Maple Weekend, go to: https://mapleweekend.nysmaple.com/
