

Social Justice Talks Presentation Info Sheet

Social Justice- Justice in terms of the distribution of wealth, opportunities, and privileges within a society.¹

Step 1: Choose an issue pertaining to social justice currently being addressed in your county, state or national legislature. Issues with which you have a personal connection and/or story have the most impact.

Step 2: Research the many sides to the issue, including any opposing arguments. Good sources for this can be local newspapers. [Allsides offers information](#) to understand media bias for national online news. If you don't have a personal connection to the issue, we suggest you interview community members who have a personal connection. Ask your 4-H Educator for help. Remember that you can have your own opinions, but not your own facts.

Step 3: Practice, practice, practice: Fitting something in to a 2-minute talk can be harder than giving a 10-minute presentation.

Step 4: Give your 4-H Public Presentation. You will have two minutes to informally explain the issue you are presenting to Evaluators and then 2 minutes to deliver the "legislative talk" you would give at a public hearing about the issue.

Step 5: Using the feedback from your Public Presentation, give your talk at your legislature! If the timing works, this is a great real-world opportunity to participate in and have an impact on your elected officials.
