

# Paper Marbling

## Materials:

- Paper or stationary
- Food coloring
- Shaving Cream
- Shallow Dish

## Instructions:

1. Pour a decent amount of shaving cream in the shallow dish. You'll want your dish to be big enough to place the paper or stationary in.
2. Put a few drops of (2-3) different colors of food coloring in various spots around the shaving cream.
3. Using a butter knife, swirl the shaving cream and food coloring to your desired pattern. (You can tape off any areas you do not want to be colored using painters tape)
4. Carefully dip your paper into the shaving cream, push down a little bit and then slowly lift the paper up.
5. You can use a flat edge to clear the excess shaving cream. Set the papers/ stationary somewhere to dry.
