Name of Business: Cornell Cooperative Extension of Yates County
Industry: Education
Address: 417 Liberty Street Penn Yan, New York 14527
Contact Information: 315-536-5123
Owner/Manager of Business: Arlene Wilson, Executive Director
Human Resources Representative and Contact Information, if applicable: Executive Director

This document serves as the written safety plan outlining how Cornell Cooperative Extension of Yates County (CCE) will aid in the prevention of the spread of COVID-19 during recovery and re-opening.

The following procedures have been developed to facilitate the transitioning staff back to their primary place of work in response to the Governor’s New York Forward phased approach to re-open New York State. This plan is a living document and will be updated and modified as preparation for future phases of the plan are rolled out and additional requirements are outlined by regulatory agencies.

This plan will be adapted and updated by Associations based on local needs, best practices and changes in phased re-opening requirements. All plans will be developed in coordination with the following:

https://forward.ny.gov/

https://www.ny.gov/

https://www.health.ny.gov/

This plan addresses the following areas of concern as documented by NYS Linked Here.
This document will be reviewed by the Yates CCE Board of Directors on June 24, 2020.
This document will be uploaded to the designated NYS Portal by Executive Director Arlene Wilson, as needed or if required.
The following person(s) have been assigned for primary responsibility to develop, maintain and/or implement the preparedness, response and recovery plan and will serve as the association’s contact person in case of an epidemic.

GENERAL GUIDELINES

Overview

The following are general guidelines Yates CCE offices will be adhering to for the safety of the Association Staff, Volunteers and Community, per NYS Department of Health, Center for Disease Control, and local Health Departments recommendations.

Please note that Yates CCE staff will be provided cloth masks to wear in the building and in offices. Yates County government will be providing disinfectant and cleaning clothes to sanitize personal work spaces and common high touch areas.

Yates CCE will only have staff that NEED to be in the building, others will continue to work from home to reduce the spread.

Yates CCE will continue the use of video or telephone conferencing instead of in-person meetings to promote the use of social distancing. When meeting in the office or in the community with another person, staff will wear face coverings and will utilize social distancing [6 feet between persons] for any and all group activities and educational gatherings.

This plan will be updated as changes occur and will be posted for the public on http://yates.cce.cornell.edu/

1. People

Physical Distancing: To ensure employees comply with physical distancing requirements, the Association will do the following:

Ensure 6 ft. distance between personnel, unless safety or core function of the work activity requires a shorter distance. Any time personnel are less than 6 ft. apart from one another, personnel must wear acceptable face coverings.

Limit in-person gatherings as much as possible and use tele- or video-conferencing whenever possible. Essential in-person gatherings (e.g. meetings) will be held in open, well-ventilated spaces with appropriate social distancing among participants.

Tightly confined spaces will be occupied by only one individual at a time, unless all occupants are wearing face coverings. If occupied by more than one person, occupancy will be kept under 50% of maximum capacity.

The Association will manage engagement with customers and visitors by scheduling appointments via phone, email or internet for the general public to enter Association offices, via the Yates County Office
Building front door. All visitors will be screened by Yates County Government staff, and required to sign in and complete a **Yates County Visitor Health Screening Form**.

**Yates CCE** will adjust the workplace with the following:

- Separating desks and workstations to ensure that there are 6 feet between each station and employee
- Adding plexiglass barriers to the front office customer counter and staff desk
- Staggering shifts and lunch/rest breaks while complying with the NYS Department of Labor standards
- Rotating days on site for the Front Office and Rear Cul-de-Sac, with alternating of staff working remotely
- Offering flexible workplace arrangements
- Moving workstations to increase separation distance
- Requiring Staff to wear face coverings in the Yates County Building as required by NYS in common areas of building office and shared workplace including yet not limited to hallways/corridors, conference rooms, break rooms, kitchen, restrooms and entry way.
- Requiring no shared foods for meals
- Requiring social distancing of six feet while eating in communal lunchroom, *with no more than four [4] people at the table*
- Establishing physical distancing measures of six feet within the workplace, for example:
  - Implementing one-way traffic patterns throughout workplace if possible (entrance and exits)
  - Limiting outside guests such as vendors, participants and volunteers in the physical work locations

**ii. Places: Building & Program Space**

- Face coverings (cloth or disposable) as required by NYS to be worn when social distancing is not possible and gloves as required for food service preparation will be provided by CCE
- Personal hand sanitizer containing at least 60% alcohol will be provided by CCE Yates
- Disinfectant and cleaning cloths will be provided by Yates County Building and Grounds Department and the adequate supply amount is **1 gallon per month**.
• Each employee is responsible for cleaning and maintain their work space on a daily basis as best practice. Training employees on proper use of PPE and hand washing [Linked Here. Employee training is required when returning to a physical work location and will be completed by Safety Officer and Human Resource Specialist Brittany Griffin.

• Signage will be posted on: office door, conference room and bathroom doors and around the Yates County Office Building to remind employees of social distancing protocols/ expectations.

• Individual program guidelines for community based education and outreach [Life Skills Program, Natural Resources, Agriculture, Horticulture, 4-H] will be developed and implemented by Program Leaders or adhered to by NYS (see program section below).

**Hygiene and Cleaning**

• Adhere to hygiene and sanitation requirements from the Centers for Disease Control and Prevention (CDC) and Department of Health (DOH) and maintain cleaning logs on site that document date, time, and scope of cleaning.

• Detailing cleaning procedures and procuring ongoing supplies. Cleaning and sanitizing are two separate procedures to be followed. In addition, an outside company may be hired for extra deep nighttime cleaning / documented on a checklist to be filed with workplace health coordinator.

• In the event the association is in a building with other agencies; coordination and communication are necessary to remain compliant with the CCE plans. A written agreement should be signed to ensure both parties are in compliance.

• Staff will record cleaning and sanitation in a log to be filed with the Workplace Health Coordinator Brittany Griffin.

• Modifying high-touch surfaces (e.g., propping doors open) to avoid employees unnecessarily touching surfaces.

• Limit the sharing of objects and discourage touching of shared surfaces; or, when in contact with shared objects or frequently touched areas, wear gloves (trade-appropriate or medical); or, sanitize or wash hands before and after contact.

• CCE will provide and maintain hand hygiene stations for personnel, including handwashing with soap, water, and paper towels, or an alcohol-based hand sanitizer containing 60% or more alcohol for areas where handwashing is not feasible.

**Disinfecting the Workplace**
Before you re-open the workplace, it is necessary to clean and disinfect your office or building. Some professional cleaning services may be available to hire for a deep-clean and disinfection of your business. However, if you need to clean your office or building yourself before re-opening, utilize the best practices listed below:

• Cleaning staff need to wear proper PPE to eliminate exposure or contamination while cleaning. PPE is to include gloves and a mask, while cleaning the workspace. Avoid touching eyes, face or mouth, or any personal electronic devices, while cleaning.

• Clean first, then disinfect—Disinfectant works best on already clean surfaces. As such, do a general cleaning before disinfecting the office or building.

• Go beyond the standard cleaning routine, and make sure to pay close attention to the following areas:
  • Entryways and exits; wipe down door handles and have hand sanitizer and disinfectant wipes at each entry
  • High-touch common surfaces (e.g., light switches and plate covers, doors, cabinets, sinks, stair railings, countertops, beverage machines, refrigerators and elevator buttons, if applicable)

Cleaning of Equipment

CCE devices (shared or individually issued) (laptops, keyboards, office phones, cell phones, hardware tokens, etc.) can harbor a significant amount of dirt, debris and germs, including the coronavirus. Staff will be required to keep their devices reasonably clean to both extend the life and care of each devices and reduce the spread of COVID-19 and other germs.

• IT personnel will wear gloves and effectively clean and sanitize device(s) after working on them

• For more information for cleaning of electronic devices see: [Linked Here]

Communication

• Post signage throughout the site to remind personnel to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning and disinfecting protocols.

• The communication plan for employees, visitors, and customers will be posted on the CCE website and communicated to the staff via staff conferences and email.

• Maintain a continuous log of every person, including workers and visitors, who may have close contact with other individuals at the work site or area; excluding deliveries that are performed with appropriate PPE or through contactless means; excluding customers, who may be encouraged to provide contact information to be logged but are not mandated to do so.
• If an employee tests positive for COVID-19, they must communicate the results with their Executive Director, who will follow HIPPA guidelines and immediately notify state and local health departments and cooperate with contact tracing efforts, including notification of potential contacts, such as workers or visitors who had close contact with the individual, while maintaining confidentiality required by state and federal law and regulations.

iii. Process
The exposure-response plan addresses the following:

• Isolation, containment and contact tracing procedures will be followed as required and advised by CDC/ NYS and Local Health Department

• Stay-at-home requirements for any staff that are exhibiting any health-related symptoms such as:
  - Cough
  - Shortness of breath or difficulty breathing
  - Fever
  - Chills
  - Muscle pain
  - Sore throat
  - New loss of taste or smell

• Implement employee health screening procedures as defined by NY Forward Business Re-opening Safety Plan:
  Implement mandatory health screening assessment before employees begin work each day and for essential visitors, asking about (1) COVID-19 symptoms in past 14 days, (2) positive COVID-19 test in past 14 days, and/or (3) close contact with confirmed or suspected COVID-19 case in past 14 days. Assessment responses must be reviewed every day and such review must be documented.
    - Questionnaire: Qualtrics survey (optional)
    - Temperature check

The following Exposure communications are being followed by staff: [linked here]

• Restricting business travel: (determine if self-quarantine is required)

• Until otherwise documented Essential Travel only. Essential travel is defined as “travel to medical provider to get tested, and to get medical clearance to return to work at the Yates County Office Building”.

• Limiting the number of customers in any area at one time

• No handshake greetings and remain a minimum of 6 feet apart
• Adhere to guidance of events and gathering as outlined by NYS and CDC

iv. Other

Work from Home Plans

If Work from Home plans (WFH) are implemented supervisors will regularly check in with staff as determined by the response team by zoom meetings. This is essential to connect with staff, communicate and review any WFH plans. Supervisors may also need to meet with some staff individually via Zoom. Questions about WFH plans should be directed to your supervisor.

All staff will acknowledge and sign, understanding compliance of the guidelines and protocols and receive a copy. Managers will review changes and provide updates as the guidelines are changed.

Travel

• All work-related travel must be pre-approved by supervisors and should be deemed essential.

• CCE Vehicle use: individual staff may sign out an Association vehicle if necessary. No passengers will be permitted. The vehicle dashboard including the steering wheel and door handles must be cleaned with sanitizing wipes or other approved method by each staff member before and after use.

Programs:

CCE Program guidance will be developed by the attached approved NYS plan, developing considerations for programs structure based on space, grounds and facilities to maintain compliance with CDC and DOH regulations. See program examples below.

Camps: Linked Here

4-H Club Programs: to be developed and implemented by Program Leader or adhered to by NYS

Master Gardener Programs: to be developed and implemented by Program Leader or adhered to by NYS

Forestry: Linked Here

Non-Food Agriculture: Linked Here

Farmers Markets: Linked Here

Nutrition Programs: Follow Guidance from OTDA and EFNEP
Taste NY: Follow Taste NY Ag & Market Plan
