

FAMILY MARINE SCIENCE NIGHT

For all ages!

Exploring Marine Ecosystems

Let's take a trip around the globe together to explore different marine environments!

Looking for a fun way to entertain the entire family this summer?! Since we can't be in your homes, CCE's local Marine Biologists have put together 4 different Marine Science lessons for you and your family to enjoy. Each lesson will be about 30-45 minutes long and come with an activity/game for the family to enjoy after! Learn about our ocean, local environment, and amazing underwater world this summer!

WHEN: Wednesdays 7PM - July 29th through August 19th

PRICING: \$30 per talk/per family or \$100 for all talks

Each lesson includes an activity for the whole family!

A Trip to Long Island's Beaches

Live: July 29th at 7PM

Bring the beach to your home! Our first program introduces you and your family to Long Island's local marine life - sea stars, shellfish, hermit crabs, snails, the infamous horseshoe crab, and many more! Best part, you don't even have to get your hands sandy.

A Trip to the Tropics

Live: August 5th at 7PM

We will dive into the tropical waters around the world and learn about the foundation of life in many of these regions, coral! Learn about corals and how they build magnificent reefs. Then learn about the importance of these reefs to marine life and to humans and how we can keep coral reefs healthy for years to come.

A Trip Across Earth: Polar Ecosystems

Live: August 12th at 7PM

The North and South Pole are both cold, isolated places on Earth but they have many differences that make them unique from one another and other environments across the planet. You and your family will learn how the polar ecosystems differ and are introduced to some of the charismatic animals that live in each region.

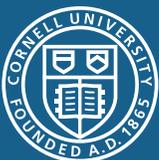

A Trip to the Unknown: Deep Sea

Live: August 19th at 7PM

Dive into this mysterious environment as you learn about the animals of the deep. In this ecosystem, many animals communicate in a unique way: bioluminescence! Compare this unexplored world to some land bioluminescent creatures. We will not stay on land for long, who's ready to dive deep?! The most remote place on earth has an unimaginable abundance of life. This dark world can be brought right to your home!

REGISTER HERE: <https://seastarsmarinecybercamp.campbrainregistration.com/>

Can't make the talks, no worries! You can select the pre-recorded versions of the above talks for \$25/talk. You will receive a link to watch at your own convenience, with access for 72 hours!

Cornell Cooperative Extension of Suffolk County

Western Suffolk Marine Education Program, P.O. Box 554, Huntington, New York 11743

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities.
