

Hoosic Valley Harvest Festival

September 26, 2020

Schaghticoke Town Hall

Schaghticoke, NY

11:00am – 3:00pm

Facts about the SARS-CoV-2 Virus that Causes COVID-19:

- The virus is transmitted person to person through respiratory droplets, which is why 6-foot physical distancing is so important.
- There is no evidence that the virus can be transmitted by food.
- It can persist on surfaces for between 24-72 hours which is why sanitation of commonly touched surfaces is important.
- Risks of infection from touching surfaces can be significantly reduced by avoiding touching the face, frequent handwashing, or use of hand sanitizers.
- Cloth face coverings reduce spreading of the virus by those who may be infected but are not showing symptoms and should be used in addition to physical distance and hand hygiene.

Staffing: Eileen DePaula – 4-H Program Coordinator

- The 4-H activity table will not start until 11:00am and will conclude at 3:00pm.
- Participants and all attendees are expected to bring their own face cover and keep with them at all times. The face cover must be worn properly which includes fully covering the nose and mouth in all cases where a distance of 6 feet between people cannot be attained. Extra face covers will be provided in case someone does not have one.
- Materials will be provided for all participants. No materials are to be shared by participants.
- All equipment will be cleaned and sanitized after use.
- Participants will work at the table individually.
- Hand sanitizer will be available and hand washing encouraged throughout the event.
- Participants are expected to social distance at all times
- The operation and facilitation of the 4-H activity table may be altered as needed in order to comply with health guidance in alignment with the reduction of COVID-19 spread.
