So Easy to Freeze Bell Peppers

Green, red, yellow and orange bell peppers are abundant this month at farmers’ markets and farm stands. Bell peppers are perfect for freezing to use during the winter in any cooked dish. Bell peppers are an incredible bargain in the summer compared to per pound prices during the winter months.

According to the National Center for Home Food Preservation website (http://nchfp.uga.edu) it is easy to freeze bell peppers.

1. Prepare peppers by selecting crisp, blemish free peppers. Wash, cut out stems, cut in half and remove seeds. Cut into strips, rings or pieces.
2. Place raw, cut peppers in freezer zip top bags or freezer containers, leaving no head-space. Remove air (if using zip top bags), seal and freeze!

In Season This Month: Lots of Vegetables and Fruit

While visiting your local farmers’ market, look for these farm fresh fruits and vegetables: green and yellow beans, beets, broccoli, cabbage, carrots, cauliflower, celery, collard greens, corn, cucumbers, eggplant, lettuce, leeks, mustard greens, onions, peppers, potatoes, radishes, Swiss chard, tomatoes, winter and summer squash, apples, blueberries, cantaloupes, peaches, pears and plums. Don’t forget to use your Farmers’ Market Nutrition coupons, your WIC fruit and vegetable check or EBT card.
This month, from the local library, check out ‘Zora’s Zucchini’ by Katherine Pryor. Learn about Zora’s excitement from growing her first garden and her creative ideas for using her zucchini when things get a bit out of hand in her garden.
