**Did you know that not only are butterflies pretty, but they are also good pollinators?**

Join us to:

- Learn about these delicate insects and how to attract them to your yard by making a feeding station for them.
- Learn about common butterflies in this area so you can identify them when they visit your yard.
- Decorate small pots and plant sunflower and zinnia seeds to take home to grow and add to your garden for the butterflies.
- Make a pretty origami butterfly so you'll also have a butterfly to take home.
