### TIPS OF THE TRADE

Did you know that there is a high demand for trade-work employment? With this need... wages for these jobs are relatively high and grow over time.

Here at CCE's CareerBound program we work with local vocational trade Schools such as Broome-Tioga BOCES, SAGE Truck Driving School and other business that offer On The Job Trainings.

We have had a number of CareerBound participants successfully complete training in CDL-truck driving, welding, phlebotomy, building maintenance, and residential electricity, just to name a few.

CareerBound partners with Broome-Tioga Workforce to financially assist our program participants with this next step. This includes up to \$3,000 in tuition costs and we help purchase items that may be needed like scrubs or steel-toed boots.

For more information on how CareerBound can help find the trade for you, call Holly at 607-760-2568.

# Success Stories

## IMANI

Class: October 2022

Imani successfully completed our Work Readiness and Customer Service Training in the fall of 2022. Upon leaving our class Imani found work in Home Health Care. By completing our training, CareerBound is able to fund Phlebotomy class at Broome-Tioga BOCES for Imani. We look forward to seeing you graduate in April.

## NAZIER

Class: December 2022

Naz came to CareerBound with a job, however he was in search of furthering his knowledge of Electrical work. By completing our Free Work Readiness and Customer Service training, Naz was eligible for funding to attend Broome-Tioga BOCES' Residential Electric classes. This will allow Naz to succeed further in his career in the electrical field.
