

We're here to support you!

Our team members are available to meet one-on-one with prospective farmers to provide technical assistance. Together, we'll spend time reviewing business plans, "vetting" ideas for soundness, and directing you to more in-depth resources if you need them. Our goal is empowering you to turn your farming dreams into reality!

Our program supports historically underserved individuals & communities.

This includes beginner farmers in operation for less than 10 years; Black, Indigenous, and People of Color (BIPOC) owned and operated farms; women owned and operated farms; veteran farmers; farmworkers; small farms; organic farms; and folks looking to get into farming.

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities & provides equal program & employment opportunities.

- ◆ And much more!

Farmer Advisory Committee

Our Farmer Advisory Committee is helping to develop the Beginner Farmer Program, provide guidance for program implementation, and most importantly, providing new farmers with perspective rooted in their respective agricultural and business experience.

*Learn, connect, and grow with
other Catskills farmers!*

The Beginner Farmer Program assists beginner farmers in the Catskills Hudson Valley Region through group trainings, one-on-one conversations, farm visits, farmer to farmer mentoring, and an intensive learning cohort.

*Bring your farming
vision to life...*

*This project is supported by USDA,
National Institute of Food and
Agriculture award #2022-06508.*
