Tractor Supply Company (NASDAQ: TSCO), the largest rural lifestyle retailer in the United States, in partnership with National 4-H Council, today announced its Paper Clover fundraising campaign has raised a cumulative \$20 million for the nation's youth. Tractor Supply reached the milestone during its spring Paper Clover event, which generated over \$1 million dollars for 4-H programs across the country.

Tractor Supply and 4-H started the bi-annual Paper Clover fundraiser in 2010 to raise money and awareness for local 4-H clubs. Ninety percent of campaign donations are used to support 4-H youth in the state where the donation is made, while the remaining 10 percent supports national 4-H programming. The Paper Clover contributions fund educational programs and provide all 4-H members with the opportunity to engage in enriching camps, conferences and community projects in science, technology, engineering, mathematics, agriculture, healthy living and civic engagement.

Tractor Supply held the 2023 spring Paper Clover campaign from April 26-May 7, The fall campaign is scheduled for October 4-15th. The public may purchase a paper clover at checkout in stores or online at [TractorSupply.com](http://TractorSupply.com).

A Reflection of the 2023/2024 4-H Teen Council Exchange with Simpson County, Kentucky

by Pazia Grocholoski:

There aren't words that can simply describe this experience. If you told me a year ago that I would meet my best friend, I would have thought you were crazy. This exchange program has brought new friends to me. Just spending a total of two weeks together has made me cherish every little moment.

The first year of the exchange, we went to Simpson County, Kentucky. For most of us, this was our first time traveling and staying with strangers. I can guarantee that all of us were nervous, yet excited to meet our new friends. Once we all got settled in, we were at home. Everyone was so warming and made us all feel at home. With a great group of people, our week seemed very short, it practically felt like a day. We went on various sightseeing tours such as, the Country Music Hall of Fame, Churchill Downs, and the Grand Ole Opry. As the week ended, saying goodbye wasn't easy. We all know that we would see each other in a year, but this year felt like it took forever.

After the year, we were all reunited for a week in New York. This time around we knew how to spend it, we knew which people to spend time with. We knew what activities to do, to make the best out of time. This time didn't last forever, this time felt extremely short. Within our week, we traveled to Niagara Falls, Cornell University, and to Old Forge.

After all of our fun adventures, our week was over. I, personally, was dreading this moment. This was the moment where I knew I wouldn't see my best friend for a long time. This day was quite hard for me, as the exchange program made a lifelong best friend for me. Today, I still FaceTime and text my best friend. I am so grateful that the exchange program has given me endless opportunities.

# EMBRYOLOGY

**Egg Incubators Rentals Available**  
for Youth Embryology Projects

## Genesis: Model 1588 Hova-Bator w/ Automatic Egg Turner

The Genesis 1588 includes a digital control center that displays both temperature and humidity. The Genesis Hova-Bator is pre-set for bird eggs. Simply plug it in, then add water and eggs. Nothing to set up or adjust. This circulated air Hova-Bator comes with a thermometer, plastic bottom liner, and is pre-set to 99. F (38 C). Like all incubators, the 1588 requires a stable room temperature and should not be used in areas like sheds or barns. Being pre-set, this incubator delivers consistently good hatches. Excellent for classrooms, novices, and experts.

The IncuTum™ for Hovabator has been carefully engineered and tested and will fit all current Hovabator desktop incubators. The universal egg tray holds any size egg. The automatic egg turner gently rolls the eggs six times per day, which prevents the yolk from settling while exercising the embryo. This rolling action is very similar to how eggs are turned in nature.

**Holds 42 Eggs**

**Automatic Egg Turner**

## Rental Terms:

\$20 for 30-day rental,  
\$10 refunded upon  
incubator being returned

## Resources Available:

4-H Incredible Egg Program offers both classroom lessons and egg hatching guidance.

Need Fertile Eggs? We can help you find them from reliable local

## Jumbl: Egg Incubator

The Jumbl Fully Automatic Digital Egg Incubator is an all-in-one hatching machine. This automatic egg incubator features a temperature-controlled incubation chamber, a rotating tray system, a built-in LED candler and integrated humidity channels. The system mimics the maternal movements of mother hens by rotating the eggs every 2 hours—this ensures even warming throughout the cycle. The incubator can be used for chicks and ducklings, and you can check in on them by looking through the transparent lid. The tray comes with 6 movable dividers. You can set the ideal temperature and monitor current heat to the precise degree by using the LED dashboard. There is also an integrated fan that circulates air, creating a comfortable environment. And you never have to worry about the temperature getting too hot or too cold because an alarm will sound any time the interior temperature goes outside of your programmed settings.

**Holds 15 Chicken Eggs**

## Is anyone interested in starting a robotics club or LEGO League Team?

We have a Team that is disbanding and I have a fair amount of robotic supplies that would be very helpful for a group that wants to get started with the LEGO Robotics competition.

The former leader would also be willing to share how she ran her club and how to get started.

A LEGO Robotics team requires consistent commitment from everyone involved.

Thus the word TEAM. Follow this link to learn more. <https://www.firstlegoleague.org/>

## What is WHEP?

The WHEP (National Wildlife Habitat Education Program) is a hands-on environmental education program. WHEP also provides participants an opportunity to test their wildlife knowledge in a friendly competition, as each state supporting WHEP conducts an annual contest where teams of 3-4 similarly aged individuals gather. The winning senior (14-19 years of age) WHEP team from each state earns the right to attend the annual National WHEP Contest, typically held the last full week of July. The national contest moves to a different state each year.

WHEP is a 4-H and FFA youth natural resource program dedicated to teaching wildlife and fisheries habitat management to junior and senior level (ages 8-19) youth in the United States.

To learn more visit <https://www.whep.org/>

Contact Lynette if you have a youth interested in participating in the competitions. Lsk23@cornell.edu
