

HOW TO START A PERIOD PANTRY

Choose a location

Ideally, your pantry will be in a location with a good amount of foot traffic and/or in an area of high need. Making sure it can be accessed 24/7 is a huge plus!

Stocking Strategy: Decide how to fill your pantry

- Will you do it yourself?
- Seek donations from the community?
- Allow drop-offs from others?

Depending on location, pantry may need to be re-stocked daily

Pantry Material: Wooden? Metal?

Assuring the pantry is weather-resistant is very important! We have had great success with this metal pantry: [Etsy Metal Pantry](#).

Decoration

Make it clear what the pantry is for, so passersby can easily identify it. And of course, have fun with it!
