Dr. Guy Hammond Memorial Scholarship- Steuben County 4-H

Our community lost a special member in the fall of 2022. Dr. Guy Hammond impacted the community in many ways and held great pride in giving back to the youth. Therefore, the Hammond Family will award a \$1,000 scholarship through Cornell Cooperative Extension to a deserving high school senior who is a current member of 4-H and planning to pursue a higher level of education or enter the workforce.

One of Dr. Hammond's biggest passions was helping young 4-H members. For many years he donated his services, bought animals from the annual livestock auction, and was just a friendly face to see during fair week. He understood the hard work it took to prepare 4-H projects each year and appreciated the life skills it taught the youth. The characteristics gained while participating in 4-H are carried with you throughout your life. He would be honored that this memorial scholarship will support 4-H members to become even more resilient in their future careers.

The scholarship application is due on May 31st. More information about this scholarship will be available on the Steuben County- Cornell Cooperative Extension website.
