All sessions are for campers K-7th Grade!
MUST be at LEAST 6 years old!

Each day is packed with hands-on activities, outdoor games, exciting arts & crafts and fun educational lessons about the environment!

Whether your child is passionate about marine biology or just wants to know more about Long Island's fascinating marine wildlife, this camp is the perfect experience. Week-long sessions are designed to immerse campers into the world of marine science through hands-on learning experiences!

At the Camp Center, campers will observe and handle live marine animals and freshwater pond-life while learning about marine biology and environmental ecology. Every session is unique and will provide your camper with different marine or freshwater topics.

All sessions consist of guided nature walks through the Fuchs Pond Preserve, where campers will get a chance to explore our coastal woodlands and freshwater pond. Along the way, campers have the opportunity to collect and observe some of the wonderful creatures that call this Preserve home. Campers will also enjoy a trip to Northport's local Sunken Meadow State Park where they will experience seining, beach games and much more!

Sessions run from 9:00 AM to 2:00 PM
EXCEPT Fishing Trip Days (listed below)

(Session 1: 7/2, Session 4: 7/24) which run from 9:00 AM to 3:00 PM
