Companion Planting-What is It & Why?

Thursday, March 19, 2026 | 6:00 - 7:30 pm

Presenter: John Martin, CCE Albany County Master Gardener

An introduction to planting different plants together such as vegetables, herbs, fruits, flowers, etc. that provide a benefit to their neighbors through nutrients, providing shade, or protection from pests or disease.

Everyone Loves Tomatoes

Thursday, April 2, 2026 | 6:00 - 7:30 pm

Presenter: John Martin, CCE Albany County Master Gardener

Learn about the different types of tomatoes, options on planting, basic tomato plant care, and how to harvest and preserve your crop. The presentation also provides some insight into the pests and diseases that threaten your tomato crop.

Pest & Diseases in the Vegetable Garden

Thursday, April 16, 2026 | 6:00 - 7:30 pm

Presenter: John Martin, CCE Albany County Master Gardener

As vegetable gardeners, you may have experienced crop loss due to pests or diseases at one time or another. This presentation covers insects (both detrimental and beneficial), commonly occurring diseases, and conditions that impact common vegetables along with potential solutions and cures.
