

Rosehaven Alpacas Is Hiring

TWO SEPARATE PART-TIME POSITIONS | CALLICOON, NEW YORK

IMPORTANT: These are two different jobs. We are looking for an event/market worker and a farm/herd-care worker. We are not expecting one person to do both. Applicants may apply for either position - or for both if genuinely interested and available.

Position 1: Weekend Farmers Market & Event Sales

Schedule

Occasional Saturdays and/or Sundays - not every weekend

Pay

\$15-\$20 per hour; more for relevant experience

This position is for someone who enjoys people, sales and representing Rosehaven at farmers markets, festivals and fiber events. Most work will be in Sullivan County, the Upper Delaware and the Catskills, with some events farther away.

- Help set up and break down the booth
- Greet customers and help them choose alpaca yarn, clothing and farm products
- Keep merchandise organized and the display attractive
- Represent Rosehaven in a friendly, dependable and professional way
- Transport products or event materials when needed

Best fit: Someone dependable and outgoing who has a reliable vehicle, can lift and move event materials, and is available for occasional weekend work. Retail, farmers market, festival or customer-service experience is helpful, but we can train the right person.

Position 2: Part-Time Alpaca Farm & Herd Care Assistant

Schedule

Mornings, generally beginning around 8-9 AM; about two hours of daily chores

Timing

Planning ahead for a future staffing change; this is not an immediate-start position

This is real, hands-on farm work and includes plenty of cleaning and mucking. It also grows into a trusted animal-care role as the person learns our alpacas, routines and herd-health procedures.

- Clean barns, pens and pasture areas; feed and check water
- Observe the herd and report changes in behavior, appetite, movement or condition
- Weigh crias weekly during cria season
- Assist with routine treatments after training and participate in monthly herd health day
- Help during breeding season, generally late May through August
- Work outdoors in all seasons and perform physical chores involving shoveling, bending, lifting and using the tractor
- **Alpaca experience is not required; training will be provided.** Experience with livestock, horses, 4-H, veterinary care, animal science or farming is helpful. Reliability, animal sense, careful observation and dependable morning transportation matter most. Exact days, compensation and the transition date will be discussed with suitable candidates.

How to apply

Email Michele at michele@rosehavenalpacas.com and tell us:

- Which position interests you: Event Worker, Farm Worker, or Both
- Your availability and whether you have reliable transportation
- Your relevant animal, farm, sales, market or customer-service experience (experience is not required)
- Why the position interests you
