

IPM FOR THE SMALL FARM:

Aphids to White-Tailed Deer

Integrated Pest Management isn't about winning a war against pests. It's about maintaining balance in a system where crops, pests, and beneficial organisms all play a role!

October 29th, 4pm-6pm
6127 State Rt. 55, Liberty, NY

Join us at Bobolink Farm with owner, Brenda Miller for a walking tour. We'll walk the property and stop at the places where pests and pathogens spend the winter.

This event will be taking place during the fall season after most annual crops are harvested or frost-killed, and when the largest IPM decisions of the year are made.

NYS DEC Pesticide Recertification Credits available 1a,21 - 1.5 credits and CORE 0.25 credits.
