Experience complete, personalized primary health care—including medical visits, wellness and support programs, plus on-site pharmacy and lab services. Conveniently located at the Florida Blue Center in Cordova Commons.

\[\text{Complete health care and convenience.}\]

Blue Cross and Blue Shield members can count on Florida Blue Health Care Services for primary care, with independent medical services delivered by a Healthstat team of doctors, nurse practitioners and care coordinators.

- **Primary health care:** The care team takes the time to get to know you personally. They know how health plans work, so they can answer your questions about coverage, benefits or eligibility.

- **On-site pharmacy and lab services:** You can get your lab tests done right here without waiting or making extra stops. Plus if you’re given a prescription it can often be filled right here during your appointment since we stock the most commonly prescribed generic medications.

- **Convenient hours:** Early morning and later evening hours—even Saturdays! Same-day appointments available. Little to no wait time in the office.

- **Always reachable:** Patients can always contact a member of the care team by phone—even after hours and on weekends—for expert advice and answers to medical questions. Or, simply log in to our patient portal for secure, convenient, and personal support when you need it.

- **Referrals and support:** Need a specialist or a referral? The care coordinator will help you find the right one, handle the details, discuss your treatment options and any concerns, plus help you understand the results and next steps.

Health care services are exclusively for Blue Cross and Blue Shield members age 12 and up.

Helping you stay healthy.
There’s more to medical care than treating you when you’re sick. Florida Blue is all about helping you avoid illness in the first place. The care team partners with you to help you stay healthy in the long run.

Primary care. Personal attention.
Count on a care team dedicated to helping you live a healthier life, every step of the way.

- **Preventive care:** They will help you take full advantage of your plan’s wellness benefits. Like annual physicals, immunizations and more.

- **Personalized care plan:** They’ll work with you to create a personalized plan centered on you, based on your life, goals and priorities. It’s your road map to good health.

- **Follow-up care:** If you’ve recently undergone treatment or a procedure, or are living with a health condition, count on the care team to check in with you regularly and work with you to maintain and improve your health.

- **Ongoing health conditions:** Support services for patients with diabetes, high blood pressure, asthma, coronary heart disease, chronic obstructive lung disease and other conditions are available. You’ll get one-on-one counseling, dietary help, tips on getting accurate readings and much more. They’re all part of a commitment to help members with ongoing health conditions live better, stronger, more active lives.
