

How to GDPR forget a subscriber

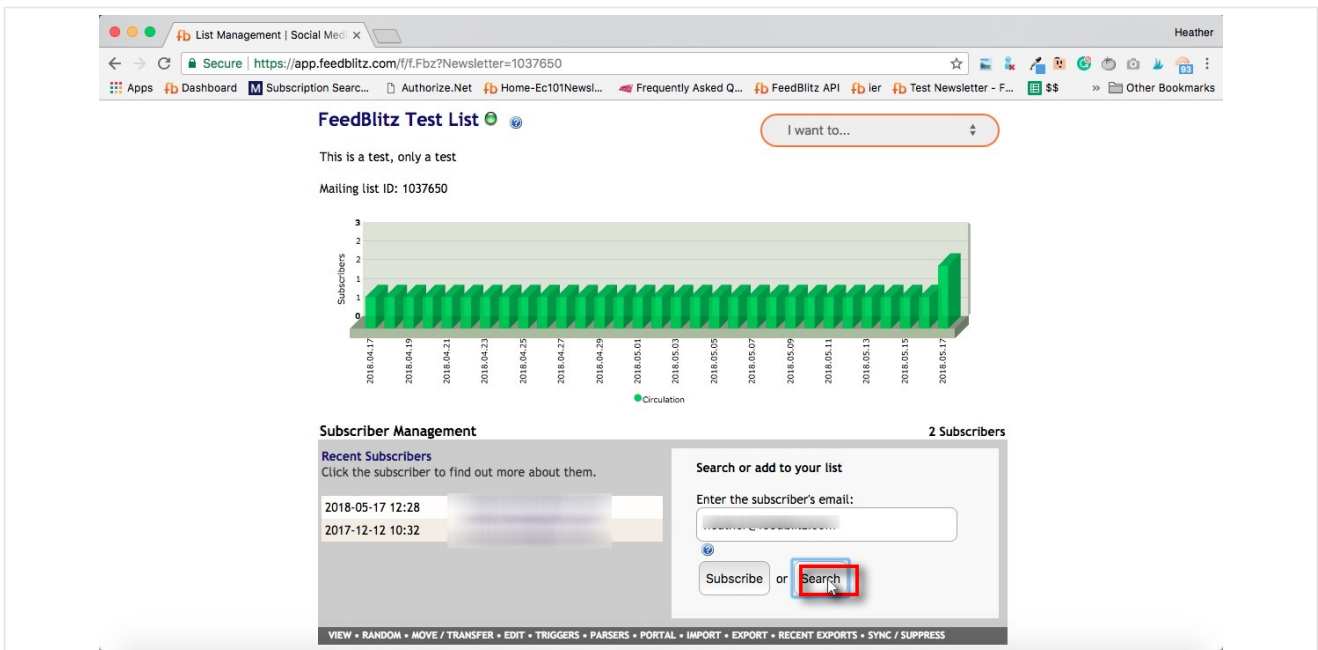

Search for the subscriber

The screenshot shows the 'FeedBlitz Test List' interface. At the top, there's a navigation bar with 'I want to...' and a dropdown arrow. Below that, it says 'This is a test, only a test' and 'Mailing list ID: 1037650'. A bar chart shows 'Subscribers' over time from 2018.04.17 to 2018.05.17, with a peak of 3 subscribers. Below the chart is the 'Subscriber Management' section, which includes a 'Recent Subscribers' table and a 'Search or add to your list' form. The form has a text input field labeled 'Enter the subscriber's email:' with a red box around it, and 'Subscribe' and 'Search' buttons.

Click search

This screenshot is identical to the one above, but the 'Search' button in the 'Search or add to your list' form is highlighted with a red box, indicating the next step in the process.

Select the subscriber

Click the down arrow and choose GDPR Forget Subscriber
