

Build Your Own Paradigm Challenge Lesson

Lesson Title: Learn How To Change The World And Win \$100,000

Grade: ____

Time: ____ **Minutes**

Class Subject: _____

What is The Paradigm Challenge?

The Paradigm Challenge is a competition for students aged 4 to 18. Participants build a team, learn about an important global problem, create ideas to help address the problem, and submit their solutions. The top 100 entries win cash prizes ranging from \$200 to \$100,000. The teachers associated with the top 100 entries earn cash grants ranging from \$200 to \$5,000.

STEP ONE: Choose One or More Learning Objectives

LEARNING OBJECTIVES	<input type="checkbox"/> PROBLEM-SOLVING	LEARNING OUTCOMES	
	<p>Problem Solving: Students will learn and apply the “SOLVED” method to generate, assess, and refine creative ideas to address real-life problems. Students will think critically to identify original, feasible, and effective solutions.</p>		<ul style="list-style-type: none"> • Six Steps To Solve Any Problem <ol style="list-style-type: none"> 1. Study the problem 2. Observe what others are doing to help 3. List all imaginable ideas 4. Visualize each idea 5. Engage others for further input 6. Decide on a solution
	<input type="checkbox"/> EMOTIONAL INTELLIGENCE		<p>Emotional Intelligence: Students will learn to recognize their natural born ability to solve problems and begin to understand that they have the ability and the responsibility to affect positive change in the world. This will increase their self-awareness, self-confidence, and social responsibility. Students will have an opportunity to practice kindness, empathy, and collaboration and observe the impact of these important skills.</p>
<input type="checkbox"/> CHARACTER	<p>Character: Students will have an opportunity to lead and collaborate with their fellow students as they search for creative solutions to important global problems.</p>	<ul style="list-style-type: none"> • Leadership • Teamwork • Creativity 	

STEP TWO: Choose one or more Paradigm Challenge Projects

Home Fire Safety
 Waste Reduction
 Personal Health
 Food Security

What Will Students Learn Through The Paradigm Challenge Lesson Plan?

The Paradigm Challenge lesson plan inspires youth innovation to address important global issues and enhances each student's awareness of his or her ability and responsibility to affect positive change in the world. The lesson plan teaches students aged 4-18 that they have the ability to solve serious problems using STEM/STEAM plus kindness, creativity, and collaboration. Now. While they are kids. Seeing, caring, and doing something to help is not reserved for adults. They will learn that kids have invented cool things such as the popsicle, trampoline, and ear muffs. The lesson plan builds on existing Paradigm Challenge learning activities regarding problem-solving, emotional intelligence, and character and is appropriate for any time of the year.

Free Lesson Plan Materials *(available at lessonplan.projectparadigm.org)*

Each Challenge Topic has age appropriate and content specific lesson plans to support teachers and students. The Paradigm Challenge lesson plans also include the following videos led by previous winners of the Paradigm Challenge:

- **Anyone Can Innovate** - An inspirational video demonstrating that youth have the natural ability to problem solve, presented by Alexis (Challenge Finalist)
- **The SOLVED Method** - A step-by-step guide on how to apply The Paradigm Challenge SOLVED method to approach any problem using six simple steps, presented by Kedar (First Place Winner)
- **Kindness, Creativity, and Collaboration** - An explanation of how to use kindness, creativity, and collaboration to make a difference in the world, presented by Catie and Paige (First Place Winners)
- **How to Engage Others** - A detailed overview on how to identify, contact, and communicate with potential experts and mentors, presented by Allie and Gitanjali (First Place Winners)
- **Project Management** - Strategies and skills to effectively manage a group project, presented by Diop, Ama, and Amira (First Place Winners)
- **How to Present a Winning Idea** - A demonstration and explanation of how to effectively and successfully present an idea to anyone, presented by Benjamin (Grand Prize Winner)

Post-Lesson Activities For Students

- Talk to parents/guardians about entering The Paradigm Challenge
- Sign up for The Paradigm Challenge and build a team
- Follow the Six Steps To Solve Any Challenge and submit one or more entries
- Check out additional resources at www.projectparadigm.org
- Enter Kindness Mini-Contest for a chance to win up to \$500
- Join The Paradigm Challenge Ambassador Program

Free Student Registration and Entries

Students can register for The Paradigm Challenge at www.projectparadigm.org. There is no cost to enter. Students compete in three age divisions (4-8, 9-13, and 14-18). Students are invited to submit the following types of ideas by the May 1 annual entry deadline: community events; inventions; posters; websites; mobile apps; public messages; videos; and anything else that will help solve the problem.

Questions

If you or your students have any questions about the lesson plans, The Paradigm Challenge, or the teacher grants, please contact Jeff Richardson, the founder of Project Paradigm and The Paradigm Challenge, at jeff@projectparadigm.org.
