

## HOT DOCS 2023 INTERNATIONAL SPECTRUM COMPETITIVE PROGRAM REFLECTS A CHANGED NEW WORLD

Toronto, March 28, 2023 – Hot Docs is pleased to present 10 feature films and one short that will screen at this year's Festival as part of the 2023 **International Spectrum**, a program showcasing captivating stories told through unique perspectives from around the world. The 2023 Hot Docs Festival, this year celebrating its 30<sup>th</sup> anniversary, will take place April 27 to May 7 in Toronto.

"Hot Docs' International Spectrum program is always the place for doc lovers to discover exciting new voices and compelling works by outstanding filmmakers from around the world, and this year is certainly no exception," said **Shane Smith**, Hot Docs artistic director. "Thirteen countries are represented in this year's program, and our audiences will be amongst the first to see these films, one of which will receive the Best International Feature Documentary Award in this, the Festival's 30<sup>th</sup> year."

The 2023 edition of the International Spectrum program includes the world premieres of ***The Last Relic***, a darkly compelling portrait of Putin's "modern" Russia shot over the course of four years, and ***A Wolfpack Called Ernesto***, in which world-renowned Mexican filmmaker Everardo González brings us inside the chilling world of an amalgam of various teenage boys who have chosen a life of organized crime.

International premieres include ***Angel Applicant***, an exploration of Swiss-German artist Paul Klee, who died from a rare autoimmune disease, systemic scleroderma, a diagnosis shared by the filmmaker; ***Hong Kong Mixtape***, in which the filmmaker joins an underground movement of Asian artists following the Chinese government's imposition of laws that silence freedom of expression; ***The Mountains***, which uses 75,000 photos and 30 years of home videos to weave a tender and humorous autobiographical portrait of the men in a Scandinavian family struck by devastating tragedy; ***Name Me Lawand***, in which a young deaf Kurdish boy joyfully hones his communication skills at a UK school after a treacherous journey from Iraq, only to later face deportation from his new home; ***Pure Unknown***, the story of a doctor who makes it her life's work to identify and reunite deceased refugees with their families amidst a seemingly endless stream of bodies pouring into autopsy rooms along the Mediterranean; ***Revir – Everything You Hold Dear***, a portrait of taxidermist siblings Susie and Sune who live together in a tense still life of co-dependency following a neglectful upbringing; and ***You Were My First Boyfriend***, a hybrid documentary in which the director meticulously re-stages some of her most traumatic high school memories using actors and elaborate sets in an effort to make peace with her present.

International Spectrum will also see the North American premiere of ***Al Djanat, The Original Paradise***, in which the death of a Burkinabé family's patriarch and the division of his estate unearths conflict between his heirs and communal customs of West Africa versus Westernized courts. The full lineup of 2023 International Spectrum films appear below with screening information.

The International Spectrum program is supported by the Donner Canadian Foundation.

All feature-length titles in the program are eligible for the Best International Feature Documentary Award and the Special Jury Prize – International Feature Documentary. Emerging directors in the International Spectrum with two or fewer previous feature film credits are also eligible for the Emerging International Filmmaker Award.

Hot Docs is an Academy Award® qualifying festival for feature documentaries. The recipient of Hot Docs' Best International Feature Documentary Award will qualify for consideration in the Documentary Feature Subject category of the Annual Academy Awards® without the standard theatrical run, provided the film otherwise complies with the Academy rules.

Screening times and descriptions for films in the International Spectrum program appear below. In many cases, filmmakers will be in attendance for post-screening discussions. For more information on the program please visit [www.hotdocs.ca/whats-on](http://www.hotdocs.ca/whats-on).
