☑ Show Advanced Tools
Enables advanced features, including: project alternatives and backups, beat mapping, expanded mixing and automation capabilities, additional editors and browsers, and more. Additional options become available and can be individually enabled.

Additional Options

☐ Audio
Enables destructive audio editing, and advanced configuration options for audio editing experts.

☐ Surround
Enables all features for surround audio productions, and requires a surround speaker setup for monitoring.

5 ☑ MIDI
Allows signal flow control and real-time processing of MIDI input and output streams in the Environment.

6 ☑ Control Surfaces
Allows experts to create new, and edit any functional detail of existing control surface systems.
