MANAGEMENT

Hard waste disposal at other times

Resort Management is committed to Victorian Government's 10-year action plan which aims to reduce waste and set Victoria up for a more sustainable future.

Most domestic recyclables and waste can be disposed of in Mt Buller's 45 recycling drop zones. Signage identifies what can and cannot be left there. Dumping other items is illegal. If this continues, Resort Management will need to consider other measures such as the installation of CCTV cameras or a waste levy on all properties. Please do the right thing with your waste and please report anyone you see doing the wrong thing to Resort Management on 03 5777 6077, or email info@mtbuller.com.au.
