

Eat Well, Live Well is a community project co-designed with residents and partner agencies. It aims to improve the health and wellbeing of participants by building skills and knowledge through the design, delivery and implementation of community initiatives, such as this food map.

Eat Well Live Well would like to acknowledge the Traditional Custodians of the land on which our project is based, the Wurundjeri Woi wurrung people of the Kulin Nation. We recognise their deep connection to the land, waters and culture and are dedicated to honouring their traditions and support the path to Treaty.
